Community Wildfire Safety Program

Using layers of protection to keep you safe

Our safety efforts are preventing wildfires and improving the reliability of your service.

- **Using technology** to better predict, monitor and respond to wildfires and severe weather
- **Installing strong poles and covered powerlines** to reduce wildfire risk and improve reliability
- **Completing 10,000 miles of undergrounding** in the highest wildfire risk areas
- **Removing or pruning trees** to keep them away from powerlines
- **Installing powerline safety settings** that shut off power if a hazard is detected
- **Turning off power for safety** as a last resort during severe weather

LEARN MORE
