SUBJECT: NON-SPATIAL DATA TABLES

The following questions relate to the attachment “Attachment 1 - All Data Tables Required by 2021 WMP Guidelines.xlsx.” For the purposes of these questions, the term “high-priority findings” refers to the combined number of Level 1 and Level 2 findings.

QUESTION 10

Per Table 1, PG&E found 10,834 high-priority findings on distribution inspections in the HFTD in 2019, which is approximately twice as many as in 2020 and six to twenty times more than other years. Please explain the causes or reasons for the large number of high-priority findings on distribution inspections in the HFTD in 2019.

ANSWER 10

Please see PG&E’s response to WildfireMitigationPlans_DR_CalAdvocates_041-Q09.
