QUESTION 05

Please explain why, in Table 12 of Attachment 1, no RSE is provided for Initiative 7.3.5.13 (QA/QC of vegetation inspections), while an RSE is provided for Initiative 7.3.4.14 (QA/QC of asset inspections). If PG&E claims that it is unable to estimate an RSE for Initiative 7.3.5.13, please justify this claim in light of the fact that PG&E was able to provide an RSE for Initiative 7.3.4.14.

ANSWER 05

PG&E has used the qualitative methodology for Initiative 7.3.4.14 (QA/QC of asset inspections) based on the maturity of the program from 2019 to 2020 and welcomes feedback on this approach on calculating RSEs for QA/QC programs. Subject matter experts (SME) for asset inspections believed this approach reflected their program as a starting point for estimating effectiveness. However, SMEs for vegetation inspections did not believe this approach reflected their program adequately, which is why an RSE was not calculated for this initiative.
