**QUESTION 02**

What is the average actual cost of installing service connections underground? Please provide this as a cost per foot (or a range of costs per foot, if variable) and state the time period from which this data is drawn.

**ANSWER 02**

The average actual cost to install a service connection underground is approximately \$615 per ft (\$836 for Commercial, \$510 for Residential). These figures are based on the following data:

- Construction completed 1/1/2019 – 12/31/2020
- Underground new service installations
- 100% PG&E install
- 100% PG&E trench
- Project does not include distribution facilities (Rule 15)
- Order has circuit feet > 0
