Wildfire Mitigation Plans Discovery 2022
Data Response**

PG&E Data Request No.:	CalAdvocates_004-Q01		
PG&E File Name:	WMP-Discovery2022_DR_CalAdvocates_004-Q01		
Request Date:	December 17, 2021	Requester DR No.:	CalAdvocates-PGE-2022WMP-04
Date Sent:	February 25, 2022	Requesting Party:	Public Advocates Office
PG&E Witness:		Requester:	Alan Wehrman

The following questions relate to your 2022 WMP Update submission.

If a full response to a given question will be included in your WMP submission, your response to that question of this data request may consist of a citation to the specific page(s) or table(s) of the WMP where the information may be found, a written response to the question, or both.

QUESTION 01

For each POU to which you supply power, please respond to the following: Describe what coordination, planning, or other activities took place in 2021 between you and the POU to mitigate the effect of a potential PG&E-initiated PSPS event on the POU and its customers.

ANSWER 01

PG&E conducted the following activities in 2021:

- Held a series of Wildfire Safety Regional Webinars with focus on individual counties throughout 2021 to provide members of the public with information on PSPS and Community Wildfire Safety Program (CWSP) activities. Topics included CWSP progress in 2021, system hardening efforts, enhanced vegetation management work, PSPS notification timelines and criteria, and PSPS customer support resources. Webinar presentations and recordings were made publicly available on our CWSP website. Invited POUs included:
 - Alameda Municipal Power
 - City of Gridley
 - City of Healdsburg
 - City of Lompoc
 - City of Ukiah
 - Modesto Irrigation District
 - Northern California Power Agency (NCPA)
 - Plumas Sierra Rural Electric Cooperative (PSREC)
 - Turlock Irrigation District
- Hosted a call with NCPA and PSREC on January 12, 2021, and another with NCPA and the City of Lompoc on October 13, 2021, to discuss system hardening

and resiliency projects to reduce the scope and impact of PSPS events in the area.

- Met with the City of Healdsburg on June 7, 2021 to discuss PSPS mitigation topics including: (1) the installation of Supervisory Control and Data Acquisition (SCADA) switching equipment in 2022, which would provide us with remote operational capability for sectionalization in order to reduce the number of affected customers during a PSPS event; and (2) manual operation of the non-SCADA switch prior to SCADA installation.
- Held a call on April 1, 2021 with NCPA, the City of Healdsburg, and PSREC to discuss SCADA, PSPS Portal access, and system hardening and resiliency projects to reduce the scope and impact of PSPS events in the area.
- Hosted a PSPS Table Top Exercise for the Northern Region on July 14, 2021. NCPA, PSREC, the City of Healdsburg, and the City of Ukiah were invited.
- Hosted two PSPS Full Scale Exercise Observer Briefings on July 22, 2021 and July 23, 2021. NCPA, PSREC, the City of Healdsburg, and the City of Ukiah were invited.
- Held weekly online PSPS Portal Trainings starting in August 2021 through October 2021 that included POUs to provide familiarization with PSPS Portal functionality, review the registration process, and discuss the resources and information available during PSPS events. POUs who were invited for these trainings include:
 - City of Biggs
 - City of Gridley
 - City of Healdsburg
 - City of Lompoc
 - City of Palo Alto
 - City and County of San Francisco (CCSF)
 - City of Ukiah
 - Kirkwood Meadows Public Utility District
 - Modesto Irrigation District
 - Port of Oakland
 - Port of Stockton
 - Silicon Valley Power
 - Turlock Irrigation District
 - Trinity Public Utilities District
- Hosted an interactive PSPS Readiness Webinar for wholesale and municipal customers on August 20, 2021. Topics included updates on PSPS and CWSP progress in 2021, enhanced tree strike models, PSPS notification timelines and criteria, an overview of our Grid Control Center and other PSPS support resources.
- Hosted a PSPS Public Safety Partner Webinar with POUs on August 24, 2021 to discuss wildfire prevention efforts, customer support resources (before, during and after PSPS events), and improved wildfire safety technology and tools.

- Hosted a PSPS Full Scale Exercise on August 26, 2021 and August 27, 2021 with participation from NCPA and the City of Ukiah. Our Emergency Operations Center and Grid Control Center contacted the City of Ukiah via phone and e-mail to confirm their acknowledgement of exercise activities and to gain real-time input from the POU for insertion into the exercise.
- Hosted a Concept and Objectives Meeting with NCPA on December 16, 2021 to collaborate in the planning and execution of our PSPS Full Scale Exercise scheduled for 2022.
