DRU Index #:		Requester:	Miles Gordon

The following questions relate to your 2023-2025 WMP submission and your responses to data request CalAdvocates-PGE-2023WMP-15.

QUESTION 003

PG&E states in its response to Question 5(a)(i) of CalAdvocates-PGE-2023WMP-15: “VM EPSS-enabled outage data was used to determine both a planned unit forecast and identify CPZs where EPSS VM Outages took place.”

Please explain what “planned unit forecast” refers to in the above instance.

ANSWER 003

‘Planned unit forecast’ refers to an estimate of the number of trees that may be worked under the program. The word ‘forecast’ is used because the exact number of trees is unknown until inspection has occurred.
