Date Sent:	February 25, 2022	Requesting Party:	Public Advocates Office
PG&E Witness:		Requester:	Alan Wehrman

The following questions relate to your 2022 WMP Update submission.

If a full response to a given question will be included in your WMP submission, your response to that question of this data request may consist of a citation to the specific page(s) or table(s) of the WMP where the information may be found, a written response to the question, or both.

QUESTION 07

Provide PG&E's workplan that describes where PG&E will undertake EVM projects in 2022. This workplan should be in an Excel format, with circuit-segments as rows. Please include the same information as in PG&E's *Enhanced Oversight And Enforcement Process Corrective Action Plan 90-Day Report Pursuant To Resolution M-4852*, November 4, 2021, Attachment E, columns 1-8. Please additionally include circuit-segment ID numbers that match those provided in response to Question 1 of Data Request CalAdvocates-PGE-2022WMP-03.

ANSWER 07

On February 2, 2022, PG&E provided our "Enhanced Oversight and Enforcement Process Corrective Action Plan 90-Day Report Pursuant to Resolution M-4852" to the service lists for proceedings I.19-09-015 and R.18-10-007, including "Attachment C 2022 EVM Scope of Work." As requested, PG&E is providing a copy of Attachment C in Excel format, attached as "*WMP-Discovery2022_DR_CalAdvocates_004-Q07Atch01.xlsx*."

Circuit segments IDs (or Circuit Protection Zones) are included that match those provided in PG&E's response to CalAdvocates-PGE-2022WMP-03, Question 12 (per the Public Advocates Office revised request received on January 13, 2022, circuit segment information was requested in Question 12).
