This data request relates to PG&E's Wildfire Distribution Risk Model version 4 (henceforth referred to as "WDRM v4"). If any of the requested documents or information is not yet complete and available, please state in your response when you expect the documents or information to be complete and available.

QUESTION 002

- a) Please list all composite (or aggregate) risk scores generated by PG&E's WDRM v4. For example, WDRM v3 generated five composite risk scores.
- b) For each risk score in part (a), please provide a category or brief description of the type of risk the score represents.
- c) For each risk score in part (a), please provide a brief explanation of how PG&E intends to use that risk score.
- d) For each risk score in part (a), please list all PG&E wildfire mitigation initiatives that are informed by that risk score.
- e) For each risk score in part (a), please state the most granular level available for that risk score.
- f) For each risk score in part (a), please state the granularity at which the risk score is used to inform wildfire mitigation initiatives (e.g., circuit segment, circuit, individual asset, etc.).

ANSWER 002

- a) - f) As stated in the response to Question 001, the WDRM v4 is not currently available. PG&E plans to make the model information available with the 2025 WMP Update.
