QUESTION 01

Regarding Table 12 of Attachment 1: Please provide a new version of the Excel Table with a new row for each “metric type” that shows the amount authorized for the program in PG&E’s GRC D.20-12-005 for the test year 2020 and imputed (based on authorized attrition escalation) for 2021 and 2022. If a metric is included within a broader program in the GRC, please provide the authorized costs for the program and explain on the spreadsheet. If multiple metrics are included within one program, please combine them and indicate on the spreadsheet. Please contact TURN if you believe clarification would be useful.

ANSWER 01

PG&E objects to this request on the grounds that it is overbroad and unduly burdensome because PG&E is required to respond within three business days pursuant to WSD-001. PG&E also objects on the grounds that responding to this request would require PG&E to perform a novel analysis not performed previously.
