SUBJECT: TABLE 8 – TO INCLUDE UNDERGROUND CIRCUIT MILES

QUESTION 02

While PG&E provided undergrounding information in its GIS data, PG&E did not specifically report underground circuit miles in the nonspatial tables. Underground circuit miles were obtained from the GIS submission.

- a. Please provide updated data for rows 1a, 2a, and 3a in Table 8, which include underground circuits.

ANSWER 02

PG&E has updated Table 8 1a, 2a, and 3a to include the Underground Circuit Miles in the 2021 columns in the attachment WMP-Discovery2022_DR_OEIS_004-Q02Atch01.xlsx. Please note that given the response deadline of this request, PG&E is unable to retroactively update the figures for 1a, 2a, and 3a to include underground circuit miles for 2019 and 2020 as PG&E's GIS system is a dynamic 'real-time' system that reflects the current assets in PG&E's service territory. When old assets are removed or replaced they are removed from the GIS system.
