**QUESTION 009**

In response to data request CalAdvocates-PGE-2023WMP-06, question 6, PG&E provided a list of incidents in 2022 where the actions of a VM contractor posed a safety risk to workers or the public.

Please fill out the spreadsheet “CalAdvocates-PGE-2023WMP-22\_Atch01.xlsx” with the number of miles worked by each VM contractor in 2022 for each VM program/initiative.

Note: the lists of contractors and programs come from columns L and G, respectively, of the attachment to PG&E’s response to CalAdvocates-PGE-2023WMP-06, question 6. Please make any additions that are necessary for completeness and accuracy.

**ANSWER 009**

PG&E does not track the number of miles worked by each VM contractor. PG&E tracks the number of trees worked by vendor, or poles worked by vendor depending on the program in question. Please see “ *WMP-Discovery2023\_DR\_CalAdvocates\_022-Q009Atch01.xlsx*” spreadsheet for the number of trees worked by vendor for Routine/CEMA, EVM, Pole Work, and Wildfire Rebuild. The Systems Inspections program does not work with VM contractors.
