

Setton Farms

Speaker 1 ([00:00](#)):

Setton Farms is the second largest pistachio producing company in the United States.

Speaker 2 ([00:06](#)):

Last year we ran over 200 million pounds of pistachios in Terra Bella. One time a year. We're bringing in like three to 400 truckloads of pistachios a day. We roast and salt and package and ship pistachios all over the world.

Speaker 1 ([00:19](#)):

Having reliable energy to utilize at the time that we need it is really key.

Speaker 3 ([00:25](#)):

My name is Joey Cavazos. I'm a PG&E customer Relationships manager. We proactively run a rate analysis on businesses to ensure that they're on the best rate plan.

Speaker 1 ([00:33](#)):

Joey really took the initiative and came to us. We were able to save \$31,000 annually at one of our ranches. It didn't cost us any time or money to do that.

Speaker 3 ([00:43](#)):

One thing we'll encourage for all small business owners is to create an online profile and run a rate analysis annually. Or you can call our call center and leverage a customer service representative,

Speaker 1 ([00:52](#)):

And we're really thankful to PG&E for helping us get there.
