# PG&E'S SECURITIZATION 2020

PG&E Updated Prepared Testimony Exhibit 3.1: Financing Order

Redline August 7, 2020 to December 11, 2020

# PACIFIC GAS AND ELECTRIC COMPANY CHAPTER 3

**EXHIBIT 3.1** 

FORM OF FINANCING ORDER FOR PROPOSED SECURITIZATION

REDLINE

**AUGUST 7, 2020 TO DECEMBER 11, 2020** 

#### BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

In the Matter of the Application of Pacific Gas and Electric Company for: (1) <u>Issuance of the Financing</u> Order Authorizing \$7.5 Billion of Recovery Bonds; (2) A Finding that the Recovery of Certain Catastrophic Wildfire Amounts Through Securitization and the Imposition of Fixed Recovery Charges as Determined Are Authorized Pursuant to Subdivision (c) of Section 451.2 and Section 850.1; (23) Authority to Sell or Assign Recovery Property to One or More Financing Entities; (34) Authority to Service Recovery Bonds on Behalf of Financing Entities; (45) Authority to Establish Fixed Recovery Charges Sufficient to Recover Recovery Costs and Fixed Recovery Tax Amounts; (56) Authority to Establish a Customer Credit Trust for Purposes of Holding Amounts to Pay a Credit to Consumers; (7) Approval of True-up Mechanisms; and (6) Such Further Authority Necessary for Pacific Gas and Electric Company to Carry Out the Transactions Described in this Application. ( 1)

Application [ Filed [ ], 2020)

# [FORM OF] FINANCING ORDER AUTHORIZING THE ISSUANCE OF RECOVERY BONDS PURSUANT TO ARTICLE 5.8 OF THE CALIFORNIA PUBLIC UTILITIES CODE

THIS FORM OF FINANCING ORDER IS ATTACHED TO PROVIDE NOTICE OF THE FINDINGS AND RULINGS NECESSARY TO ISSUE THE SECURITIZED BONDS. ADDITIONAL FINDINGS AND RULINGS RELATED TO THE RELIEF REQUESTED IN THE APPLICATION TO APPLY THE STRESS TEST METHODOLOGY AND SUPPORTING TESTIMONY WILL ALSO BE NECESSARY BUT ARE NOT INCLUDED IN THIS FORM OF ORDER.

A FINANCING ORDER APPLICATION AND MOTION TO CONSOLIDATE WILL BE FILED ON THE SCHEDULE SET FORTH IN THE APPLICATION.

#### FINANCING ORDER<sup>1</sup>

## 1. Summary

This Financing Order grants Application (A.) [ ] (the "Application") filed by Pacific Gas and Electric Company ("PG&E") for authority under Division 1, Part 1, Chapter 4, Article 5.8 of the California Public Utilities Code<sup>2</sup> ("Article 5.8") to issue \$7.5 billion of Recovery Bonds ("Bonds" or "Recovery Bonds") to fund costs and expenses related to 2017 North Bay Wildfires<sup>3</sup> ("Catastrophic Wildfire Amounts") and other Financing Costs (as defined in Section 850(b)(4)<sup>4</sup>) associated with issuing the Bonds ("Bond Issuance Costs"). The Bonds will be issued in one or more series by one or more legally separate special purpose entities (each, an "SPE"), which will transfer the Bond proceeds to PG&E in a true sale in exchange for PG&E's right, title and interest in and to nonbypassable rates and other charges established by this Financing Order to be collected from certain existing and future Consumers (as defined herein) in PG&E's service territory ("Fixed Recovery Charges") in amounts sufficient to repay Bond principal, interest and related costs and all rights to obtain adjustments to such Fixed Recovery Charges in accordance with Section 850.1 and this Financing Order (such right, title and interest defined in Section 850(b)(11) as "Recovery Property"). In addition, PG&E will recover any Fixed Recovery Tax Amounts ("FRTAs"), which are nonbypassable charges to recover federal and State of California income and franchise taxes associated with Fixed Recovery Charges but are not approved as Financing

<sup>&</sup>lt;sup>1</sup> Capitalized terms used but not otherwise defined herein have the meaning defined in the Application or in the Stress Test Application, A.20-04-023.

<sup>&</sup>lt;sup>2</sup> Pub. Util. Code §§ 850 – 850.8 (2019) enacted by SB 901 and AB 1054.

<sup>&</sup>lt;sup>3</sup> The 2017 North Bay Wildfires are described in Exhibit A to the Debtors' and Shareholder Proponents' Joint Chapter 11 Plan of Reorganization Dated June 19, 2020, confirmed by the Bankruptcy Court by Order dated June 20, 2020, and which became effective on July 1, 2020, *In re PG&E Corporation*, No. 19 30088 (Bankr. N.D. Cal. June 19, 2020) ECF No. 8048 ("PG&E's Plan" or the "Plan").

Costs to be financed from the proceeds of the Recovery Bonds. Separately, PG&E will establish a grantor trust (the "Customer Credit Trust" or "Trust"), the funds of which PG&E will use to credit affected Consumers (the "Customer Credit") in connection with the Fixed Recovery Charges. PG&E will fund the Customer Credit Trust starting in 2021 with an initial contribution of \$1.8 billion, which may be pro-rated as described below (the "Initial Shareholder Contribution"). In later years, PG&E will fund additional shareholder contributions to the Customer Credit Trust of up to \$7.59 billion (the "Cap") based on a formula, attached hereto as Attachment 7, to calculate the incremental cash generated from reducing taxes through applying shareholder-owned tax deductions or net operating losses ("NOLs," or together "Shareholder Tax Benefits"). Such additional shareholder contributions, which may be pro-rated as described below, shall be referred to herein as "Additional Shareholder Contributions." To the extent the Recovery Bonds are issued in multiple series, the amount of contributions to the Customer Credit Trust of the Initial Shareholder Contribution and Additional Shareholder Contributions, and the amount of the Cap on Shareholder Tax Benefits, shall be pro-rated to equal the same percentage as the percentage of the total \$7.5 billion of Recovery Bonds that are outstanding. The Shareholder Tax Benefits primarily arise from payments made by PG&E's shareholders related to wildfire claims settlements and contributions to the California Go-Forward Wildfire Fund described in PG&E's Plan. The Customer Credit Trust's assets should also increase over time from investment returns ("Customer Credit Trust Returns"). PG&E will not be obligated to make any other contributions to the Customer Credit Trust. This crediting mechanism inevitably compares favorably to the use of traditional utility financing mechanisms, but even if the crediting mechanism was not available,

<sup>&</sup>lt;sup>4</sup> All statutory references to Sections in this Financing Order are to the California Public Utilities Code unless otherwise indicated.

the Consumers would benefit from the use of securitization, as compared to the use of traditional utility financing mechanisms.

The Bond principal, interest, and related costs will be recovered via Fixed Recovery Charges. All existing and future Consumers of electricity in the geographic area where PG&E provides electric distribution service as of the date of this Financing Order ("Service Territory") will be required to pay the Fixed Recovery Charges and FRTAs, if any, except for those Consumers that are exempt from the Fixed Recovery Charges pursuant to Section 850.1(i).

Pursuant to Section 850.1(e), the provisions in this Financing Order authorizing the issuance of the Recovery Bonds, the recovery of Bond principal, interest, and certain other Recovery Costs from Consumers are irrevocable, and the Fixed Recovery Charges will be, and the FRTA are irrevocable.

#### 2. Background and Procedural History

On September 21, 2018, Governor Brown signed into law Senate Bill 901 ("SB 901"), which added Sections 451.1 and 451.2, as well as Division 1, Part 1, Chapter 4, Article 5.8 (commencing with Section 850) of the California Public Utilities Code. Article 5.8 was later amended by Assembly Bill 1054 ("AB 1054") and Assembly Bill 1513 ("AB 1513"). Section 451.2 and Article 5.8 authorize the issuance of recovery bonds. Some of the critical relevant provisions of SB 901 are as follows:

**Customer Harm Threshold:** Pursuant to subdivision (b) of Section 451.2, the Commission shall consider a utility's financial status and determine the maximum amount the utility can pay without harming ratepayers or materially impacting its ability to provide adequate and safe service.

**Stress Test:** In D.19-06-027, the Commission adopted a methodology for conducting a financial "Stress Test" to implement subdivision (b) of Section 451.2. The methodology may be applied to 2017 wildfire cost and expenses recovery.

**Recovery Bonds Authorized:** Subdivision (c) of Section 451.2 empowers the Commission to issue a financing order authorizing securitization of the amount of 2017

wildfire costs and expenses disallowed for recovery under Section 451 and subdivision (a) of Section 451.2 but exceeding the Customer Harm Threshold. Paragraph (1) of Section 850, subdivision (a), confirms that the Commission may authorize PG&E or an affiliate to issue recovery bonds for recovery of the amount of costs and expenses determined pursuant to subdivision (c) of Section 451.2.

Consumer Benefits: The issuance of the Recovery Bonds, and the imposition and collection of Fixed Recovery Charges, are authorized if the Commission finds A. the Recovery Costs to be reimbursed from the Recovery Bonds have been found to be just and reasonable or are allocated to the ratepayers pursuant to subdivision (c) of Section 451.2 and B. the issuance of such Recovery Bonds (i) is just and reasonable, (ii) is consistent with the public interest, and (iii) would reduce, to the maximum extent possible, the rates on a present value basis that Consumers would pay as compared to the use of traditional utility financing mechanisms. (Section 850.1(a)(1)((A).) For purposes of this Financing Order, "Consumers" means any individual government body, trust, business entity, or nonprofit organization that consumes electricity that has been transmitted or distributed by means of electric transmission or distribution facilities whether those electric transmission or distribution facilities are owned by the consumer, PG&E or any other party. (Section 850(b)(3).)

**Nonbypassable Charges:** The Commission can impose nonbypassable Fixed Recovery Charges on Consumers, as needed, to pay principal, interest, taxes, and other Recovery Costs and any associated FRTAs. Except for a limited number of exemptions, these Fixed Recovery Charges and any FRTAs are applicable to all existing and future electric Consumers. (Sections 850(b)(7), (8) and (12), and 850.1(a) - (d).)

**Periodic True-Up Adjustments:** There shall be periodic true-up adjustments of the Fixed Recovery Charges using the True-Up Mechanism approved in this Financing Order (which shall be made at least annually and may be made more frequently) as necessary to correct for any overcollection or undercollection of the Fixed Recovery Charges authorized by this Financing Order and to otherwise ensure the timely and complete payment and recovery of Recovery Costs over the authorized repayment term. <u>Adjustments for any FRTAs shall be addressed in an annual Routine True-Up Mechanism Advice Letter.</u> (Sections 850(b)(13) and 850.1(g).)

**Irrevocable Financing Order:** The Commission's financing order authorizing Recovery Bonds, the Fixed Recovery Charges, any FRTAs and amounts recoverable via the nonbypassable charges shall be irrevocable by future Commissions. (Section 850.1(e).)

**State Pledge:** The State of California pledges and agrees with PG&E, owners of Recovery Property, SPEs and holders of Recovery Bonds that the State shall neither limit nor alter, except as otherwise provided with respect to the periodic true-up adjustment pursuant to subdivision (g) of Section 850.1, the Fixed Recovery Charges, <u>any FRTAs</u>, Recovery Property, this Financing Order or rights under this Financing Order until the Recovery Bonds, together with the interest on the Recovery Bonds and associated Financing Costs, are fully paid and discharged. (Section 850.1(e).)

**No Debt or Liability of the State:** Neither the State of California, nor any political subdivisions thereof, will be liable for any amounts associated with the Recovery Bonds or the Fixed Recovery Charges, and the State's credit and taxes shall not be pledged to pay for the Recovery Bonds or associated costs. (Section 850.1(f)(1).)

Current Property Right: Article 5.8 creates a separate and current property right (Recovery Property) representing the right to receive the revenues from the nonbypassable Fixed Recovery Charges, including all rights to obtain adjustments to the Fixed Recovery Charges, and to all revenues, collections, claims, payments, moneys, or proceeds of or arising from the Fixed Recovery Charges. (Sections 850(b)(11), 850.1(e) and (h), 850.3, 850.3(d), (e), and (g), 850.4(a), (c) and (d), and 850.6.)

**True Sale of Property Right:** Authorizes the transfer of Recovery Property by PG&E to another entity as an "absolute transfer" and "true sale," provided that the governing documentation expressly states that the transfer is an "absolute transfer" and a "true sale" (Sections 850.1(e), 850.2(c) and 850.4(a).)

**Pledge of Property Right as Collateral:** Authorizes the pledge of Recovery Property by its owner for the benefit of Recovery Bond investors. (Sections 850.2(b) and (c).)

On April 30, 2020, PG&E filed an application, A.20-04-023, with the Commission pursuant to Section 451.2 to determine the costs and expenses arising from, or incurred as a result of, catastrophic wildfires with an ignition date in the 2017 calendar year. In its application, PG&E stipulated that all of its costs and expenses associated with 2017 catastrophic wildfires should be deemed "disallowed" and reviewed for cost recovery and eligibility for securitization solely pursuant to the Stress Test Methodology adopted by the Commission to implement Section 451.2(b). In that application, PG&E requested the Commission to (1) apply the Stress Test Methodology adopted by the Commission in Decision (D.) 19-06-027; and (2) determine that \$7.5 billion of costs and expenses associated with 2017 catastrophic wildfires claims costs exceeds the Customer Harm Threshold as defined in that Decision and therefore may be recovered from the issuance of recovery bonds pursuant to Section 850.1(a).

Net proceeds from the securitization will be used to pay or reimburse PG&E for the payment of Catastrophic Wildfire Amounts. As a result of the transaction, PG&E will retire \$6

billion of temporary utility debt and accelerate pay or reimburse the second deferred payment of \$700 million\$1.35 billion in cash payments to the Fire Victim Trust.

On [ ], 2020, PG&E filed A.[ ] for authority pursuant to Article 5.8 of the Public Utilities Code to issue \$7.5 billion of Recovery Bonds to fund Catastrophic Wildfire Amounts and Bond Issuance Costs through one or more legally separate SPEs.<sup>5</sup> For purposes of this Financing Order, all references to the SPE shall be applicable to all SPEs that are created to issue any separate series of Recovery Bonds. Notice of A.[ ] appeared in the California Public Utilities Commission's ("CPUC" or "Commission") Daily Calendar on [ ], 2020.

Pursuant to Section 850.1(g), the Commission has 120 days from the date that A.[ ] was filed to approve or disapprove the Application. This Financing Order is being issued within the 120-day timeframe.

#### 3. Approval of PG&E's Application to Issue Recovery Bonds

In A.[ ], PG&E requests authority under Article 5.8 for one or more legally separate SPEs to issue \$7.5 billion of Recovery Bonds in one or more separate series on or prior to December 31, 2035. The Bonds would be secured by the Recovery Property, and repaid with Fixed Recovery Charges.

PG&E proposes that the Recovery Bonds be repaid using a modified mortgage style amortization, with full repayment on or before [ ], 20[ ], to be determined at the time of issuance in an issuance advice letter filed with the Commission after pricing and based on the *pro forma* example contained in the Attachment 2 of this Financing Order (the "Issuance Advice Letter"), such that principal payments may be made at a reduced amount for the first several

<sup>&</sup>lt;sup>5</sup> A.[ ] incorporated the prepared opening and rebuttal testimony in support of the Stress Test Application, A.20-04-023. All references to A.[ ] include the prepared testimony attached to A.[ ] in support of A.20-04-023.

payment periods. In connection with the offering of Recovery Bonds, PG&E agrees to establish the Customer Credit Trust, which will be used to fund credits to Consumers in connection with Fixed Recovery Charges to be paid by such Consumers. The sole sources of funds for the Customer Credit Trust will be the Initial Shareholder Contribution, the Additional Shareholder Contributions using the Shareholder Tax Benefits and the Customer Credit Trust Returns. Neither PG&E nor PG&E Corporation shall be obligated to make any other contributions to fund the Customer Credit Trust.<sup>6</sup>

Article 5.8 contemplates that the Application should be approved if the following conditions are satisfied:

- 1. The amount of costs and expenses identified by PG&E in A.20-04-023 related to catastrophic wildfires to be reimbursed from the Recovery Bonds are found to be just and reasonable or are allocated to ratepayers pursuant to subdivision (c) of Section 451.2. (Section 850.1(a)(1)(A)(i).)
- 2. The issuance of Recovery Bonds is just and reasonable. (Section 850.1(a)(1)(A)(ii)(I).)
- 3. The issuance of Recovery Bonds is consistent with the public interest. (Section 850.1(a)(1)(A)(ii)(II).)
- 4. The recovery of Recovery Costs (defined herein as (i) the Catastrophic Wildfire Amounts, (ii) federal and State income and franchise taxes associated with recovery of Catastrophic Wildfire Amounts and (iii) Financing Costs through the designation of the Fixed Recovery Charges and any associated FRTAs, and the issuance of Recovery Bonds, would

<sup>&</sup>lt;sup>6</sup> To be updated based on review of testimony regarding a shortfall in the PG&E Credit for a given payment period. Page 6-2 of the opening testimony provided in Chapter 6 of A.20-04-023 said "If assets in the Customer Credit Trust are insufficient to fund a Customer Credit equal to the FRCs for a period of time, the future Customer Credit Trust balance will first be used to make up any previous shortfalls in Customer Credits. In addition, once the Recovery Bonds are repaid in full and the FRCs cease, the Customer Credit Trust will be terminated and the assets liquidated. Customers will receive 25 percent of any funds remaining in the Customer Credit Trust after payment of Trust expenses, including computed taxes." As previously noted in footnote 6 on page 3-Exh3.1-9 of the opening testimony provided in Chapter 3 of A.20-04-023, this Financing Order was to be updated based on Chapter 6. The financing order has been revised to conform to the terms of the proposed Securitization that were set forth in that Chapter 6.

reduce, to the maximum extent possible, the rates on a present value basis that Consumers within PG&E's Service Territory would pay as compared with the use of traditional utility financing mechanisms. (Section 850.1(a)(1)(A)(ii)(III).)

5. The Recovery Bonds comply, as necessary, with Sections 701.5 and 816, et seq. (Section 850.2(f).)

Each of these conditions is addressed below.

A. The Costs and Expenses Identified by PG&E for Recovery in its Application Related to the Catastrophic Wildfires Will be Determined Pursuant to Subdivision (c) of Section 451.2.

At least \$7.5 billion of PG&E's costs and expenses exceeds the threshold as determined by the Stress Test, and therefore such catastrophic wildfire amounts may be recovered by issuing the recovery bonds.

#### B. The Issuance of Recovery Bonds is Just and Reasonable

shortfall. In addition, once the Recovery Bonds are repaid and all Financing Costs have been paid in full and the Fixed Recovery Charges cease, the Customer Credit Trust will be terminated and the assets liquidated. Consumers will receive 25 percent of any surplus, funds remaining in the Customer Credit Trust after the payment of all the Customer Credit Trust expenses, including any computed taxes, that exists in the Customer Credit Trust at the end of the life of the Recovery Bonds or sooner if so directed by the Commission, creating a significant upside opportunity for Consumers.

# C. The Issuance of Recovery Bonds is Consistent with the Public Interest

For the reasons mentioned above, the issuance of Recovery Bonds, including all material terms and conditions of the Recovery Bonds, including without limitation, interest rates, rating, maturity, and the imposition and collection of Fixed Recovery Charges, is consistent with the public interest.

D. The Recovery of Recovery Costs Through the Designation of the Fixed Recovery Charges, and any FRTAs, and the Issuance of Recovery Bonds Would Reduce, to the Maximum Extent Possible, Rates on a Present Value Basis that Consumers within PG&E's Service Territory Would Pay as Compared to the Use of Traditional Utility Financing Mechanisms.

# E. Compliance with Sections 701.5 and 816, et seq.

The fourth condition that must be satisfied is set forth in Section 850.2(f), which states, in relevant part, as follows:

The approval by the commission in a financing order of...[Recovery Bonds] shall include the approvals, if any, as may be required by Article 5 (commencing with Section 816) and Section 701.5...Section 851 is not applicable to the transfer or pledge of Recovery Property, the issuance of [Recovery Bonds], or related transactions approved in a financing order.

We interpret Section 850.2(f) as requiring this Financing Order to include the approvals, if any, as may be required by Sections 701.5 and 816, *et seq.* and that Section 851 is inapplicable to the transaction, including PG&E's sale of Recovery Property. Sections 701.5 and 816, *et seq.* state, in relevant part, as follows:

Section 701.5: [N]o electrical, gas, or telephone corporation, whose rates are set by the commission on a cost-of-service basis, shall issue any bond, note, lien, guarantee, or indebtedness of any kind pledging the utility assets or credit for or on behalf of any subsidiary or affiliate...The commission may, however, authorize an electrical, gas, or telephone corporation to issue any bond, note, lien, guarantee, or indebtedness pledging the utility assets or credit...[for] or on behalf of a subsidiary or affiliate if it engages in activities which support the electric, gas, or telephone corporation in its operations or service, these activities are, or will be, regulated either by the commission or a comparable federal agency, and the issuance of the bond, note, lien, guarantee, or indebtedness is specifically approved in advance by the commission . . . .

Section 817: A public utility may issue . . . bonds, notes, and other evidence of indebtedness payable at periods of more than 12 months after the date thereof for any of the following purposes and no others . . . (d) For the discharge or lawful refunding of its obligations; . . . (f) For the reorganization or readjustment of its indebtedness or capitalization upon a merger, consolidation, or other reorganization. (g) For the retirement of or in exchange for one or more outstanding stocks or stock certificates or other evidence of interest or ownership of such public utility, or bonds, notes, or other evidence of indebtedness of such public utility, with or without the payment of cash. (h) For the reimbursement of moneys actually expended from income or from any other money in the treasury of the public

utility not secured by or obtained from the issue of stocks or stock certificates or other evidence of interest or ownership, or bonds, notes, or other evidences of indebtedness of the public utility, for any of the aforesaid purposes except maintenance of service and replacements . . . .

**Section 818:** No public utility may issue [debt]...unless...it shall first have secured from the commission an order authorizing the issue, stating the amount thereof and the purposes to which the . . . proceeds thereof are to be applied, and that, in the opinion of the commission, the money, property, or labor to be procured or paid for by the issue is reasonably required for the purposes specified in the order, and that...such purposes are not, in whole or in part, reasonably chargeable to operating expenses or to income.

**Section 823(d):** No note payable at a period of not more than 12 months after the date of issuance of such note shall, in whole or in part, be refunded by any issue of stocks or stock certificates or other evidence of interest or ownership, or of bonds, notes of any term or character, or any other evidence of indebtedness, without the consent of the commission.

We conclude that the Recovery Bonds do not require the Commission's approval pursuant to Section 701.5, as PG&E will not "issue any bond, note, lien, guarantee, or indebtedness of any kind pledging the utility assets or credit for or on behalf of any subsidiary or affiliate." Rather, each SPE, which will not be an electrical, gas or telephone corporation, will issue the Recovery Bonds, and the Bond investors will have no recourse to PG&E. Furthermore, the Customer Credit and the Customer Credit Trust are for the benefit of Consumers, not for or on behalf of any subsidiary or affiliate. The Bonds will be secured by Recovery Property, and it will be the Commission's duty under Article 5.8 to set the Fixed Recovery Charges at a level sufficient to make timely payments of the principal and interest on the Recovery Bonds, and certain other Financing Costs identified, *infra*.

Similarly, we conclude that Sections 817 and 818 are inapplicable to the Recovery Bonds. Those provisions apply to the issuance of long-term debt *by a public utility*, but the Recovery Bonds will be issued by the SPE, not PG&E as a public utility. However, even if Sections 817 and

818 were to apply, the Recovery Bonds are consistent with their requirements. With respect to Section 817, the Recovery Bonds approved by this Financing Order comply with Section 817(d), (f), (g) and (h). Proceeds from the issuance of the Recovery Bonds will be used by the SPE to purchase Recovery Property from PG&E and pay certain other Bond Issuance Costs. PG&E will then use the proceeds from the sale of the Recovery Property to pay or to reimburse PG&E for the payment of Catastrophic Wildfire Amounts. Catastrophic Wildfire Amounts will be paid pursuant to PG&E's Plan and related agreements in order for PG&E to emerge from Chapter 11. Some of these costs and expenses will bewere financed with \$6 billion in temporary utility debt before the issuance of Recovery Bonds. As a result of the transaction, PG&E will retire the \$6 billion of temporary utility debt and accelerate the second deferred cash payment of \$700 million pay or reimburse the \$1.35 billion in cash payments to the Fire Victim Trust. A fundamental purpose of the Recovery Bonds is to allow PG&E to retire the temporary utility debt that helped enable PG&E to reorganize and emerge from bankruptcy. Section 817(f) provides that the Commission may authorize a utility to issue debt for the "readjustment of its indebtedness or capitalization upon a merger, consolidation, or other reorganization." Similarly, Section 817 also authorizes the issuance of debt for the discharge or lawful refunding of a utility's obligations (Section 817(d)); for the retirement of or in exchange for existing debt (Section 817(g)); and for the reimbursement of moneys actually expended from income or from a utility's treasury for other statutory purposes except maintenance of service and replacements (Section 817(h)). Therefore, the Recovery Bonds comply with Sections 817(d), (f), (g) and (h). The Bond transaction also complies with Section 818 because the purpose of issuing the Recovery Bonds is to support PG&E's path to an investment-grade issuer credit rating, and this purpose is in the public interest and not reasonably

chargeable to operating expenses or income.<sup>7</sup> In addition, to the extent the temporary utility debt constitutes short-term debt within the meaning of Section 823(d), PG&E should be authorized to retire that debt in connection with the issuance of the Recovery Bonds.

# F. Approval of the Recovery Bonds

We conclude for the previously stated reasons that the Recovery Bonds proposed by PG&E in A.[ ] satisfy all the conditions for approval established by Article 5.8. Because issuance of the Recovery Bonds will provide substantial benefits to PG&E's Consumers, we will authorize the issuance of Recovery Bonds.

### 4. Description of the Approved Recovery Bonds

We next describe the Recovery Bonds authorized by this Financing Order. The authorized Bonds are identical to those described in A.[ ] and consistent with Article 5.8. Where appropriate, we adopt additional conditions and restrictions applicable to the Bonds.

#### A. No Recourse to the State

Pursuant to Section 850.1(f)(1), the Recovery Bonds authorized by this Financing Order do not constitute a debt or liability of the State of California or any political subdivision thereof; nor do the Bonds constitute a pledge of the full faith and credit of the State or any political subdivisions. In addition, pursuant to Section 850.1(f)(2), the issuance of the Recovery Bonds shall not directly, indirectly, or contingently obligate the State of any political subdivision to levy or to pledge any form of taxation to pay any obligations associated with the Bonds or to make any appropriations for their payment.

\_

<sup>&</sup>lt;sup>7</sup> See D.04-11-015 at 15-16.

As required by Section 850.1(f), all Recovery Bonds shall have written on them a statement to the following effect: "Neither the full faith and credit nor the taxing power of the State of California is pledged to the payment of the principal of, or interest on, this bond."

#### B. Multiple Series of Recovery Bonds

Depending on market conditions at the time, the Recovery Bonds may be issued in one or more series on or prior to December 31, 2035. This Financing Order authorizes multiple series of Recovery Bonds.

To attract a broad range of investors, each series of Recovery Bonds may be divided into several tranches. Each tranche may have a different scheduled final payment date and legal maturity date. PG&E and the SPE shall select the final number, type, and size of bond tranche to reduce, to the maximum extent possible, the rates on a present value basis that PG&E's Consumers will pay compared to traditional utility financing mechanisms.

The latest maturing tranche of Recovery Bonds shall have a scheduled final payment date of approximately 30 years from the date of issuance, and a legal maturity of approximately 32 years from date of issuance. PG&E states that a legal maturity longer than the scheduled final payment date is a standard feature that allows for delays in scheduled principal payments due to variations in the cash flows from the Recovery Property.

The Recovery Bonds may have fixed or floating interest rates as determined at the time of issuance to provide lower all-in cost of Bonds. In the event the Recovery Bonds have floating interest rates, the SPE will convert any floating rate to a synthetic fixed rate with interest-rate swaps so Consumers will not have significant floating-rate risk. The interest costs recovered in the rates shall be based on the resulting synthetic fixed rate. We authorize floating-rate Bonds only if the all-in cost of the Bonds, including the cost of creating a synthetic fixed rate, is less than what would have been available had these Bonds been issued with comparable maturities in the

fixed-rate market and if the swap does not reduce in any way the overall credit rating for the Recovery Bonds. Finally, PG&E has agreed to comply with the conditions and restrictions set forth in D.12-06-015 and reporting pursuant to General Order (GO) 24-C (described below) with respect to the Recovery Bonds and any interest-rate swaps in connection therewith.

#### C. Authorized Amount of Recovery Bonds

The Commission authorizes the issuance of Recovery Bonds in an aggregate principal amount of up to \$7.5 billion to fund Catastrophic Wildfire Amounts and Bond Issuance Costs.

# D. Receipt of Additional Insurance Proceeds, Tax Benefits, or Other Amounts That Reimburse PG&E for Recovery Costs

The Recovery Costs will include \$7.5 billion of costs associated with Catastrophic Wildfire Amounts and Bond Issuance Costs. PG&E has already accounted for all applicable insurance proceeds in calculating the Catastrophic Wildfire Amounts. Under the proposed transaction, PG&E also will contribute all of the future tax benefits arising from these amounts, in addition to other Shareholder Tax Benefits, to fund the Customer Credit. The Commission determines the Customer Credit to be an appropriate mechanism to credit Consumers for these tax benefits consistent with Section 850.7 and that Section 850.7 requires nothing more.

#### E. Customer Credit

The Commission authorizes the Customer Credit to credit affected Consumers in PG&E's Service Territory paying Fixed Recovery Charges. The Customer Credit will be funded from the Customer Credit Trust established by PG&E. The Customer Credit Trust will be funded solely with the Initial Shareholder Contribution, the Additional Shareholder Contributions using the Shareholder Tax Benefits and Customer Credit Trust Returns.

PG&E shall not be obligated to make any other contributions to the Customer Credit Trust, and PG&E's failures to pay the Customer Credit shall not change the obligations of Consumers to

pay Fixed Recovery Charges. The Commission may not, as a result of PG&E's failures to pay the Customer Credit or any failure of PG&E to provide the Initial Shareholder Contribution or Additional Shareholder Contributions to the Customer Credit Trust to pay the Customer Credit, adjust, amend or modify the Fixed Recovery Charges, any FRTAs. Recovery Costs, the Recovery Property, the SPE's ownership of Recovery Property or the Recovery Bonds authorized by this Financing Order nor may the Commission rescind, alter or amend the Financing Order, revalue or revise for ratemaking purposes the Recovery Costs or the costs of recovering, financing, or refinancing the Recovery Costs, in any way to reduce or impair the value of Recovery Property either directly or indirectly by taking Fixed Recovery Charges into account when setting other rates for PG&E. Finally, PG&E's failure to pay the Customer Credit shall not impair the characterization of the sale, assignment or transfer of the recovery property to the SPE as an absolute transfer and true sale or affect or impair the SPE's ownership of the Recovery Property or the SPE's separateness from PG&E and PG&E Corporation.

#### F. The Customer Credit Trust and Trust Agreement

PG&E will establish the Customer Credit Trust in the form of a grantor trust pursuant to a trust agreement (the "Trust Agreement"). The Commission approves the form of the Trust Agreement attached as <a href="Exhibit-Attachment 8">Exhibit-Attachment 8</a> to this Order / Attachment E to A.[ ].

As set out in the Trust Agreement, the Customer Credit Trust will have a limited purpose, namely, to hold and preserve the Trust's assets (the "Trust Corpus"), and manage the investment thereof and of the Customer Credit Trust Returns, all in order to fund the Customer Credit. The Trust thus will not function as a "business trust" with authority to carry out general business activities.

In addition, the Customer Credit Trust will be authorized to make interim distributions to PG&E only as specified in the Trust Agreement, namely: (i) reimbursing PG&E for the costs of

Customer Credits and (ii) reimbursing PG&E in order to pay the fees and expenses of the Trust, including any tax liabilities incurred in respect of the Customer Credit Trust Returns, as described therein. As long as the Recovery Bonds remain outstanding, PG&E cannot withdraw funds from the Customer Credit Trust for any other purposes, including to satisfy the claims of its creditors. However, if assets in the Customer Credit Trust are insufficient to fund a Customer Credit equal to the Fixed Recovery Charges for a period of time, the future Customer Credit Trust balance will first be used (up to the amount of the balance) to make up any previous shortfalls in Customer Credits, including the amount of any FRTA charged on the shortfall. In addition, once all the Recovery Bonds are repaid and all Financing Costs have been paid in full and the Fixed Recovery Charges cease, or earlier if the Commission so directs, Customer Credit Trust will be terminated and the assets liquidated. Consumers will receive 25 percent of any funds remaining funds in the Customer Credit Trust will be allocated first to Consumers to make up for any shortfall inafter payment of the Customer Credit in earlier time periods, and then 25% of any surplus will be shared with Consumers Trust expenses, including computed taxes.

Finally,PG&E's appointment of the Commission approves (1) the following independent members of the Committee that have been nominated by PG&E: [\_\_\_\_\_]; (2) \$[\_\_\_] as the management committee for the Customer Credit Trust (the "Committee") and their compensation for each independent member of serving on the Committee; and (3) are subject to Commission approval, which will be sought by PG&E via a Tier 2 advice letter filed with the Commission. The Customer Credit Trust's shall abide by the existing investment policies and procedures attached as Exhibit \_\_\_applicable to the nuclear decommissioning trusts, including D.87-05-062 and D.13-01-039, and specific investment guidelines as may be set forth in agreements with asset manager. The Commission shall approve agreements with asset managers

selected by the Customer Credit Trust. Commission approval of such agreements shall be via a Tier 2 advice letter filed by the Company.

#### G. The Bond Transaction

In accordance with Article 5.8, the Recovery Bonds will be issued by one or more SPEs owned by PG&E.<sup>8</sup> For purposes of this Financing Order, the description of the Bond transaction shall apply to each SPE established to issue a particular series of Recovery Bonds. The Bonds will be secured by "Recovery Property," which Section 850(b)(11) defines as the right, title and interest of PG&E: (i) in and to Fixed Recovery Charges, including all rights to obtain adjustments to Fixed Recovery Charges in accordance with Article 5.8 and this Financing Order, and (ii) to be paid the amount that is determined in this Financing Order to be the amount that PG&E is lawfully entitled to receive pursuant to the provisions of Article 5.8 and the proceeds thereof, and in and to all revenues, collections, claims, payments, moneys, or proceeds of or arising from the Fixed Recovery Charges. Article 5.8 requires the Commission to set these rates at a level that provides sufficient funds to make timely payments of Bond principal, interest, and other "Financing Costs." <sup>9</sup>

PG&E shall transfer the Recovery Property via a true sale and absolute transfer to an SPE that, notwithstanding any PG&E obligation to pay the Customer Credit, is legally separate and bankruptcy remote from PG&E. For the avoidance of doubt, any failure by PG&E to pay the Customer Credit or any failure by PG&E to provide the Initial Shareholder Contribution or Additional Shareholder Contribution to the Customer Credit Trust shall not affect or impair the SPE's ownership of the Recovery Property. This ensures that if PG&E ever becomes bankrupt, the

<sup>&</sup>lt;sup>8</sup> Article 5.8 authorizes the use of one or more subsidiary SPEs to issue the Recovery Bonds. *See, e.g.*, §§ 850(b)(5), 850.2(a) and (b), 850.4(a), (b), (c) contemplate that the Recovery Bonds will be issued by one or more SPEs.

Recovery Property will not be included in PG&E's bankruptcy estate. Rather, the revenues from the Recovery Property will continue to be available to pay the debt service on the Recovery Bonds.

The Recovery Bonds will be issued under an indenture and administered by a Bond Trustee. The Recovery Property as well as all other rights and assets of the SPE ("Bond Collateral") will be pledged to the Bond Trustee for the benefit of the holders of the Recovery Bonds and to secure payment of debt service and other Recovery Costs.

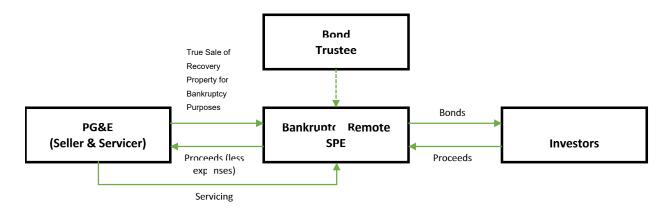

PG&E shall contribute equity to the SPE equal to at least 0.50 percent of the initial aggregate principal amount of each series of Recovery Bonds. The SPE equity will be pledged as Bond Collateral to secure the Recovery Bonds and will be deposited into an account held by the Bond Trustee. This equity contribution is a requirement of the Internal Revenue Service ("IRS") in order to characterize the Recovery Bonds as obligations of PG&E for federal income tax purposes.<sup>10</sup>

To fund the acquisition of the Recovery Property, the SPE will issue Recovery Bonds to investors. The Bonds will be secured by the Bond Collateral held by the Bond Trustee. Holders of Recovery Bonds secured by this Bond Collateral may exercise all remedies pursuant to this security interest if there is a default. The proceeds (net of Bond Issuance Costs) from the Recovery Bonds will be transferred from the SPE to PG&E as payment of the purchase price for the Recovery Property.

The following diagram illustrates the Bond transaction structure approved by this Financing Order:

<sup>&</sup>lt;sup>9</sup> § 850.1(e). The definition of "Financing Costs" is set forth in Section 850(b)(4). <sup>10</sup> See IRS Rev. Proc. 2005-62.

#### **Bond Transaction Structure**

The Commission shall have full access to the books and records of the SPE. PG&E shall not make any profit from the SPE, except for an authorized return on PG&E's equity investment in the SPE.

#### H. Credit Rating Issues

To obtain the highest possible credit ratings, the SPE and its assets, including the Recovery Property, must be legally separate from PG&E's bankruptcy estate. To ensure legal separation, the SPE may: (1) include one or more independent members on its board of directors in the case of a corporation or a limited liability company, or an independent trustee in the case of a trust; (2) restrict its ability to declare bankruptcy or to engage in corporate reorganizations; and (3) limit its activities to those related to acquiring and owning the Recovery Property and issuing and servicing the Recovery Bonds.

In connection with the transaction, PG&E will provide to the credit rating agencies an opinion from its legal counsel that: (1) the transfer of the Recovery Property from PG&E to the SPE constitutes a "true sale" for bankruptcy purposes, and (2) the SPE will not be substantively consolidated with PG&E for bankruptcy purposes. This legal opinion will provide assurance to the credit rating agencies that the SPE's assets (including Recovery Property) will not be part of

PG&E's bankruptcy estate, and thus not be available to creditors, should PG&E subsequently commence bankruptcy.

The SPE may obtain credit enhancements for the Recovery Bonds in the form of an overcollateralization subaccount if the credit rating agencies require overcollateralization to receive the highest possible credit rating on the Bonds or the all-in cost of the Bonds with the overcollateralization is less than without. The required amount of overcollateralization, if any, may be collected via the Fixed Recovery Charges. Absent extraordinary circumstances, PG&E does not anticipate being required by the credit rating agencies to establish an overcollateralization subaccount, but to the extent such an account is required, the exact amount and timing of its collection via the Fixed Recovery Charges will be determined before each series of Bonds is issued.

The overcollateralization requirement, if any, would be sized based upon input from the rating agencies indicating the amount necessary to achieve the highest possible credit rating. Any overcollateralization that is collected from Consumers in excess of total debt service and other Recovery Costs will be the property of the SPE. Upon payment of the principal amount of all Recovery Bonds and the discharge of all Financing Costs, the increase in value of PG&E's equity interest in the SPE related to the balance in any overcollateralization subaccount or any other subaccount maintained by the SPE (other than the capital subaccount) shall be returned to PG&E and then credited to Consumers through normal rate making processes.

PG&E may also obtain the following types of credit enhancements, but only if required by the rating agencies to achieve the highest possible credit rating on the Recovery Bonds or if the all-in cost of the Recovery Bonds with these other credit enhancements is less than without the enhancements: bond insurance, letters of credit, and similar instruments. In addition, the Bond Collateral held by the Bond Trustee will be available as a credit enhancement. If the equity capital is drawn upon, it may be replenished from future Fixed Recovery Charges. Until distributed by the Bond Trustee, investment earnings on the equity contribution will also be available to pay for Bond principal, interest, fees and expenses.

#### I. Bond Issuance Costs

PG&E estimates the Bond Issuance Costs to be between \$36 and \$57 million. An itemization of the estimated Bond Issuance Costs is provided in the following table.

Estimated Bond Issuance Costs <sup>12</sup>				
Underwriter Fees and Expenses	\$26,500,000 - 41,250,000			
Legal Fees and Expenses	5,000,000 - 7,000,000			
Securities and Exchange Commission (SEC) Registration Fees <sup>1</sup>	973,500			
Rating Agency Fees	1,650,000 – 3,000,000			
Accounting Fees and Expenses	50,000 - 250,000			
Section 1904 Fees <sup>2</sup>	756,000			
Printing/Edgarizing Costs	45,000 – 85,000			
Bond Trustee Fees and Expenses	50,000 - 150,000			
Original Issue Discount	TBD			
Company's Advisory Fee	1,000,000 - 1,600,000			
Miscellaneous	200,000 - 500,000			
Commission's Costs and Expenses	500,000 – 1,600,000			
Total	\$36,474,500 - 57,164,500			
Note 1: Calculated at current SEC registration rate of \$129.80 per \$1,000,000				
Note 2: Section 1904 Fees computed by today's Order.				

<sup>&</sup>lt;sup>11</sup> To overcollateralize the Bonds means to secure them with Recovery Property or other assets in an amount larger than the total principal amount of the Bonds. Overcollateralization provides further assurance that bondholders will receive all principal and interest due them.

<sup>&</sup>lt;sup>12</sup> This assumes one issuance of Recovery Bonds. Actual costs for each issuance shall be included in the Issuance Advice Letter for the relevant series.

After all of the Bonds are issued, all Bond Issuance Costs have been paid by the SPE and net proceeds of the Bonds have been used by the SPE to acquire the Recovery Property, any Bond proceeds not used for Bond Issuance Costs shall be used by the SPE to offset the revenue requirement in the next periodic true-up adjustment for the Fixed Recovery Charges. In the event that the actual Bond Issuance Costs exceed the estimated amount, the short-fall amount may be recovered in the next periodic true-up adjustment for the Fixed Recovery Charges.

#### J. Tax Issues

The authorized Bond transaction will be structured to be a "Qualifying Securitization" pursuant to IRS Revenue Procedure 2005-62 to achieve two important tax objectives. First, to lower overall taxes, the SPE will be treated as part of PG&E for federal income tax purposes, and not as a separate entity responsible for paying its own taxes. Second, to avoid an immediate taxable gain when PG&E transfers the Recovery Property to the SPE, the transfer will not be treated as a sale for federal income tax purposes. Instead, the Recovery Bonds will be treated as PG&E's own debt for federal income tax purposes. The Bond transaction will be legally separate and distinct from the Customer Credit, and therefore should be legally irrelevant to the Bond transaction's status as a "Qualifying Securitization." As materially relevant to the Bond transaction, California income and franchise tax law generally conforms to U.S. federal income tax law, including, but not limited to, IRS Revenue Procedure 2005-62.

This Financing Order authorizes PG&E to structure the Bond transaction to meet the elements of a "Qualifying Securitization" pursuant to IRS Revenue Procedure 2005-62 such that: (1) each SPE shall be a wholly owned subsidiary of PG&E capitalized with an equity interest of at least 0.5 percent of the initial aggregate principal amount of Recovery Bonds issued; (2) the Recovery Bonds shall be secured by the Recovery Property; (3) the Fixed Recovery Charges shall be nonbypassable and payable by Consumers within PG&E's Service Territory; and (4) payments

on the Recovery Bonds shall be on a semiannual basis except for the initial payment period which may be shorter or longer.

#### K. Use of Bond Proceeds

This Financing Order directs PG&E to use the proceeds from the sale of the Recovery Property to pay or reimburse PG&E for the payment of costs and expenses relating to catastrophic wildfires ignited in 2017.

#### L. Sale of Recovery Bonds

PG&E has proposed that each series of Recovery Bonds be sold pursuant to an underwriting agreement with one or more underwriters in a negotiated offering.

## 5. Description of the Approved Bond Charges

Article 5.8 authorizes PG&E to recover Bond principal, interest, associated taxes, franchise fees, or license fees imposed on Fixed Recovery Charges, and other Recovery Costs via the Fixed Recovery Charges, and to the extent applicable, the FRTA. This Financing Order authorizes PG&E to implement Fixed Recovery Charges.

We next describe the Fixed Recovery Charges. The new surcharges are identical to those described in A.[ ] and consistent with Article 5.8. Where appropriate, we adopt additional conditions and restrictions applicable to the Fixed Recovery Charges.

#### A. Summary of the Fixed Recovery Charges

The purpose of the Fixed Recovery Charges authorized by this Financing Order is to recover the following Recovery Costs associated with the Recovery Bonds:

- 1. Principal, interest, and any redemption premiums that are payable on Recovery Bonds;
- 2. Payments required under an ancillary agreement, including related to interest-rate swaps, if any;
- 3. Credit enhancements;

- 4. Costs related to issuing and servicing Recovery Bonds or the application for the Financing Order, including without limitation, servicing fees and expenses, legal fees and expenses, accounting fees, administration fees, underwriting and placement fees, financial advisory fees, original issue discount, capitalized interest, rating agency fees, and any other related costs that are approved for recovery in the Financing Order;
- 5. Amounts required to fund or replenish capital subaccounts or other accounts or subaccounts established under an indenture, ancillary agreements, or other financing documents relating to the Recovery Bonds;
- 6. Bond Trustee fees and other Bond costs incurred by the Bond Trustee and the SPE;
- 7. Taxes, franchise fees, or license fees imposed on, or associated with recovery of, Fixed Recovery Charges; and
- 8. Approved Bond Issuance Costs not funded with Bond proceeds.

In addition to Fixed Recovery Charges, PG&E shall be permitted to recover any FRTAs for federal and State of California income and franchise taxes associated with the Fixed Recovery Charges not approved as Financing Costs financed from the proceeds of Recovery Bonds. Such FRTAs include, but are not limited to, any taxes imposed on net revenues of PG&E. Each series of Recovery Bonds will have its own Fixed Recovery Charges, and, to the extent applicable, FRTAs. All of the revenues from Fixed Recovery Charges will be transferred to a Bond Trustee for the benefit of the SPE, to be applied against the repayment for that series of Bonds on a pari passu basis.

Except for those Consumers exempt pursuant to Section 850.1(i), the Fixed Recovery Charges and any FRTAs will be paid by existing and future electric Consumers in PG&E's Service Territory. Pursuant to Article 5.8, the Fixed Recovery Charges and any FRTAs will be both irrevocable and nonbypassable, which assures Bond investors that the Fixed Recovery Charges will not be interrupted, eliminated, or avoided by Consumers in PG&E's Service Territory.

To implement the Fixed Recovery Charge for each series of Recovery Bonds, PG&E shall file an Issuance Advice Letter no later than one business day after the Bonds are priced. The Issuance Advice Letter will include the final issuance details and a request that the Fixed Recovery Charges be set based on the actual amount and price of the Recovery Bonds. To determine the Fixed Recovery Charges, the Issuance Advice Letter will use the cash flow model described in Attachment 1, applied to that series of Recovery Bonds, along with the most recent PG&E sales forecast for the relevant time period. The Issuance Advice Letters filed by PG&E should be based on the *pro forma* example contained in Attachment 2 of this Financing Order.

Unless before noon on the fourth business day after pricing the Commission issues an order finding that the proposed issuance does not comply with (i) Article 5.8, (ii) this Financing Order or (iii) the requirements of the Issuance Advice Letter, the Issuance Advice Letter and the Fixed Recovery Charges established by the Issuance Advice Letter will be effective automatically at noon on the fourth business day after pricing, and pursuant to Section 850.1(h), the Recovery Property, established by this Financing Order, will be created simultaneously with the sale of the Recovery Property to the SPE. PG&E shall file the Fixed Recovery Charge tariff based on the *pro forma* tariff as described in Appendix A of Chapter 8 of A. [\_\_\_\_\_]20-04-023 no later than 10 days after this Financing Order is mailed. The tariff shall be effective simultaneously with the first Fixed Recovery Charges.

Article 5.8 requires the Commission to adjust the Fixed Recovery Charges at least annually, and more often if necessary, to ensure timely recovery of Bond principal, interest, and other Financing Costs.<sup>13</sup> To satisfy this statutory requirement for a periodic true-up adjustment of the Fixed Recovery Charges, this Financing Order adopts the True-up Mechanism proposed by

PG&E in A.[ ] that will allow the Fixed Recovery Charges to be adjusted (i) annually to correct any overcollection or undercollection of Fixed Recovery Charges and (ii) more frequently, if necessary, to ensure that the Fixed Recovery Charges provide sufficient funds to make timely payments of Bond principal, interest, and other Financing Costs. PG&E requested that the Commission approve use of an advice letter process to implement the periodic true-up adjustment. This well-established approach has been used for PG&E's prior issuances of Energy Recovery Bonds and Rate Reduction Bonds and will create efficiencies for the Commission and its staff. For the avoidance of doubt, the Commission's authority under Article 5.8 and pursuant to Section 850.1(g) to authorize periodic true-up adjustments persists until the Recovery Bonds and all Financing Costs are fully paid and discharged, and does not expire like the Commission's authority to issue financing orders in the first instance under Section 850.6.

PG&E, or any successor servicer, shall file annual Routine True-Up Mechanism Advice Letters at least 15 days before the last day of February until all principal, interest, and other related costs have been paid in full. These annual Routine True-Up Mechanism Advice Letters should be based on the *pro forma* example in Attachment 3 of this Financing Order and shall also address any FRTAs. These filings are meant to ensure that the actual Fixed Recovery Charge revenues are neither more nor less than required to repay Bond principal, interest, and related costs. The revised Fixed Recovery Charges and any FRTAs in the annual Routine True-Up Mechanism Advice Letters shall go into effect automatically on March 1st immediately following the filing.

<sup>13</sup> §§ 850.1(e) and (g).

<sup>&</sup>lt;sup>14</sup> In the alternative, should the Commission decide that implementation of the periodic true-up adjustments must take the form of an application, PG&E requests that the Commission authorize an expedited process that results in a final decision within 30 days of the filing of an application. As noted above, prompt implementation of the periodic true-up is critical to the rating agencies' evaluation.

PG&E, or a successor servicer, should also implement, if it deems necessary, a semi-annual true-up adjustment. The semi-annual true-up adjustment shall be used if PG&E, or a successor servicer, forecasts that Fixed Recovery Charge collections will be insufficient to make all scheduled payments of Bond principal, interest, and other Recovery Costs on a timely basis during the current or next succeeding payment period or to replenish any draws upon the capital subaccount. If PG&E, or the successor servicer, determines a semi-annual true-up adjustment is necessary, PG&E, or the successor servicer, may file an interim Routine True-Up Mechanism Advice Letter at least 15 days before August 31 to adjust the Fixed Recovery Charge. The revised Fixed Recovery Charge will be effective automatically on the 1st day of September immediately following the filing.

PG&E, or a successor servicer, may also file interim Routine True-Up Mechanism Advice Letters at such other times as PG&E, or the successor servicer, deems necessary. For example, if PG&E, or the successor servicer, forecasts that Fixed Recovery Charges collections may be insufficient to make scheduled payments of Bond principal, interest, and other Recovery Costs on a timely basis during the current or next succeeding payment period, PG&E, or the successor servicer, may file an interim Routine True-Up Mechanism Advice Letter instead of waiting until the next normally scheduled date for filing such advice letter. PG&E may file an interim Routine True-Up Mechanism Advice Letter at least 15 days before the end of a calendar month, and the revised Fixed Recovery Charges would be effective automatically on the first day of first calendar month after the advice letter is filed. The interim Routine True-Up Mechanism Advice Letters should be based on the *pro forma* example in Attachment 3 of this Financing Order.

PG&E, or any successor servicer, may file annual, semi-annual and interim Routine

True-Up Mechanism Advice Letters until the Bonds and other Financing Costs are paid off. All

true-up adjustments to the Fixed Recovery Charges shall ensure that the Fixed Recovery Charges generate sufficient revenues to make timely payments of all scheduled (or legally due) payments of principal (including, if any, prior scheduled but unpaid principal payments), interest, and other Financing Costs to be paid with Fixed Recovery Charge revenues. Such amounts are referred to as the "Periodic Payment Requirement." True-up filings shall be based upon the cumulative differences, regardless of the reason, between the Periodic Payment Requirement and the actual amount of Fixed Recovery Charge remittances to the Bond Trustee for the series of Recovery Bonds. This will result in adjustments to the Fixed Recovery Charges to correct for overcollections or undercollections. In the case of any adjustments occurring after the final scheduled payment date for a series of Bonds, there will be no less frequently than quarterly adjustments to the Fixed Recovery Charges to correct for overcollections or undercollections by the earlier of the end of the then current calendar year or the legal maturity date for the series.

Prompt implementation of the Routine True-Up Mechanism Advice Letters is critical to the rating agencies' determination of: (1) the reliability and adequacy of funds to make debt service payments, and (2) whether other credit enhancements will be required to obtain the highest possible credit ratings. Since it is important that the Bonds have the highest possible credit rating and because these Routine True-Up Mechanism Advice Letters should be ministerial, the adjustments to the Fixed Recovery Charge adjustments and any FRTAs, in the case of the annual Routine True-Up Mechanism Advice Letters, proposed in Routine True-Up Mechanism Advice Letters will be implemented automatically as described previously. Parties will have limited notice and opportunity to protest these Advice Letters, and the Energy Division will review these Routine True-Up Mechanism Advice Letters to confirm the mathematical accuracy of the proposed true-up adjustment. Therefore, even though this Financing Order establishes a

mechanism to implement revisions to the Fixed Recovery Charges <u>and any FRTAs</u> automatically, all Fixed Recovery Charge<u>- or FRTA</u>-related Routine True-Up Mechanism Advice Letters will be subject to protest, review, correction, and refund to the extent allowed by Section 850.1(e).

PG&E, or a successor servicer, may also submit Non-Routine True-Up Mechanism Advice Letters to propose revisions to the logic, structure, and components of the cash flow model described in Attachment Non-Routine True-Up Mechanism Advice Letters will be filed at least 90 days before the date when the proposed changes would become effective, with the resulting changes effective on the effective date identified in the Non-Routine True-Up Mechanism Advice Letter. The Energy Division should prepare for the Commission's consideration a resolution that adopts, modifies, or rejects the proposed revisions to the cash flow model. The public will have an opportunity to review and protest a Non-Routine True-Up Mechanism Advice Letter in accordance with Commission procedures to the extent allowed by Section 850.1(e). Absent a Commission resolution that adopts, modifies or rejects the Non-Routine True-Up Mechanism Advice Letter, PG&E, or a successor servicer, may implement Fixed Recovery Charge adjustments proposed in a Non-Routine True-Up Mechanism Advice Letter on the effective date identified in the letter.

The Routine True-Up Mechanism Advice Letters and Non-Routine True-Up Mechanism Advice Letters shall calculate a revised Fixed Recovery Charge for each series of Recovery Bonds using the cash flow model specified in Attachment 1 of this Financing Order or the Non-Routine True-Up Mechanism Advice Letter as applicable, except that:

1. The Periodic Payment Requirement for the next year would be (i) increased or decreased by the amount by which actual remittances of Fixed Recovery Charge revenues to the Bond Trustee collection account through the end of the month preceding the month of calculation was less than or exceeded the Periodic Payment Requirement for the prior period, and (ii) to the extent not

- included in (i), decreased by the amount projected to be held in the excess funds subaccount at the beginning of the next payment period.
- 2. Forecasted sales for the remainder of the current year and of the subsequent year, if applicable, of the transaction would be revised to reflect PG&E's latest estimate of sales.
- 3. Estimated Financing Costs will be modified to reflect changed circumstances.
- 4. Assumed uncollectibles will be modified to equal the percentage of losses actually experienced during the most recent 12-month billing period for which such information is available.
- 5. An adjustment will be made to reflect collections that will be received at the existing tariff rate from the end of the month preceding the date of calculation through the end of the month in which the calculation is done.

#### B. Calculating the Customer Credit

In connection with the offering of the Recovery Bonds, PG&E will establish the Customer Credit Trust to hold funds from which it will pay the Customer Credit. The sources of funds for the Customer Credit Trust will be the Initial Shareholder Contribution, the Additional Shareholder Contributions using the Shareholder Tax Benefits and the Customer Credit Trust Returns.

When PG&E files annual Routine True-Up Mechanism Advice Letters to adjust the Fixed Recovery Charges, PG&E will also file Tier 1 Advice Letters to adjust the Customer Credit to equal the adjusted Fixed Recovery Charges. PG&E would file annual Tier 1 Advice Letters at least 15 days before the last day of February until all principal, interest, and other Financing Costs have been paid in full and the Fixed Recovery Charges cease. Because these Tier 1 Advice Letters should be ministerial, PG&E proposes that the revised Customer Credits in the annual Tier 1 Advice Letters (assuming timely filing by PG&E with the Commission) go into effect automatically on March 1st immediately following the filing.

If PG&E files an interim Routine True-Up Mechanism Advice Letter to adjust the Fixed Recovery Charges, PG&E will also file a Tier 1 Advice Letter to adjust the Customer Credit to

equal the adjusted Fixed Recovery Charges. In the case of a semi-annual interim Routine True-Up Mechanism Advice Letter, PG&E would file an interim Tier 1 Advice Letter at least 15 days before August 31st to adjust the Customer Credit, and the revised Customer Credit would go into effect automatically on September 1st immediately following the filing. In the case of any other interim Routine True-Up Mechanism Advice Letter, PG&E will file an interim Tier 1 Advice Letter at least 15 days before the end of a calendar month, and the revised Customer Credit would be effective automatically on the 1st day of the following calendar month. Any interim Tier 1 Advice Letter should be ministerial allowing for the revised Customer Credit to be effective automatically on the dates described in this Financing Order.

If PG&E submits a Non-Routine True-Up Mechanism Advice Letter to adjust the Fixed Recovery Charges, PG&E will also file a Tier 1 Advice Letter to adjust the Customer Credit. A non-routine Tier 1 Advice Letter would be filed at least 90 days before the date when the proposed changes would become effective, with the resulting changes effective on the effective date identified in the Tier 1 Advice Letter. PG&E proposes that the Energy Division prepare for the Commission's consideration a resolution that adopts, modifies, or rejects the proposed revisions to the cash flow model. Absent a Commission resolution, PG&E may implement Customer Credit adjustments proposed in a non-routine Tier 1 Advice Letter on the effective date identified in the letter.

Each year, PG&E will project the balance of the Customer Credit Trust for the upcoming year. If the projected balance is less than the annual projected Fixed Recovery Charges for the year, PG&E would file a Tier 1 Advice letter to reduce the Customer Credit such that the projected Customer Credit for the following 12 months would equal the projected balance of the Customer Credit Trust at the end of the year. PG&E will seek to file this Tier 1 Advice letter at least 15 days

before the end of February, such that the revised Customer Credit would be effective automatically on the first day of the following calendar month.

#### C. Effect on Other Rates

There are numerous costs and benefits associated with the Recovery Bonds that will be flowed through to Consumers of electricity via other ratemaking processes. The specific costs and benefits that will be addressed in other rate making proceedings will be:

- 1. The cost of franchise fees assessed by the cities and counties. The Fixed Recovery Charges will be subject to franchise fees levied by cities and counties. These franchise fees will be recorded as costs of service in each PG&E base rate case.
- 2. The benefit of servicing and administration fees paid to PG&E. PG&E will be the initial servicer for the Recovery Bonds. That means that PG&E will bill Consumers, collect the revenues, and remit the Fixed Recovery Charge revenues to the Bond Trustee. In addition, PG&E will be the administrator for the SPE. The Bond Trustee will pay PG&E for these servicing and administration services. If there are insufficient funds in the Customer Credit Trust to pay the Customer Credit, PG&E will credit these fees to Consumers through normal ratemaking methods.
- The benefit of any surplus funds held by the Bond Trustee. The Bond Trustee will hold the Fixed Recovery Charge revenues used to repay the Recovery Bonds. To the extent the Bond Trustee earns interest in excess of its obligations under the financing agreements, that interest will be held in the excess funds subaccount and used to reduce future Fixed Recovery Charge requirements. Upon repayment of the Recovery Bonds, if a balance remains in the collection account, or any subaccount (other than the capital subaccount), that balance will be returned to Consumers via PG&E's next base-rate case.

### D. Consumer Responsibility for Fixed Recovery Charges

As required by Article 5.8, Sections 850(b)(7), 850(b)(8), and 850.1(b), the Fixed Recovery Charges and any FRTAs shall be nonbypassable and recovered from existing and future Consumers in PG&E's Service Territory other than those Consumers participating in the California Alternative Rate for Energy or Family Electric Rate Assistance programs pursuant to Section 850.1(i). The Fixed Recovery Charges and FRTAs will be set on an equal cents per

kilowatt-hour ("kWh") basis, however for residential rates, PG&E proposes to retain the rate relationships by tier determined by D.15-07-001 with the addition of the Fixed Recovery Charges, any FRTAs and Customer Credit.

Chapter 9 of A. [\_\_\_\_]20-04-023 shows an illustrative Fixed Recovery Charge of \$0.00541 per kWh for 2024. For 2024, PG&E estimates that assuming all Bonds are issued with an interest rate as of the date of the application in A. [\_\_\_\_], the aggregate of the Fixed Recovery Charges will be equal to \$0.00541 per kWh. The Customer Credit is designed to equal the amount of the Fixed Recovery Charges such that the net effect on Consumer bills should be zero dollars but neither PG&E nor PG&E Corporation shall be required to make contributions, other than the Initial Shareholder Contribution and Additional Shareholder Contributions, to the Customer Credit Trust if amounts in the Customer Credit Trust are insufficient to achieve this objective.

PG&E's testimony provided in Chapter 7 of A. [\_\_\_\_\_\_]20-04-023 demonstrated that regardless of the Customer Credit, if the Commission evaluates the recovery of Catastrophic Wildfire Amounts through the issuance of Recovery Bonds when compared to traditional utility financing mechanisms, the issuance of Recovery Bonds, in connection with the Fixed Recovery Charges, would reduce the rates, on a present value basis, that Consumers within PG&E's Service Territory would pay as compared to traditional utility financing mechanisms available to PG&E. Based on the assumptions presented in Chapter 7 of A. [\_\_\_\_\_]20-04-023, PG&E demonstrated that using traditional utility financing mechanisms, annual Catastrophic Wildfire Amounts revenue requirements would be expected to decrease from approximately \$948 million in year 1 to approximately \$263 million in year 30. The annual Catastrophic Wildfire Cost revenue requirement using Recovery Bonds is expected to grow from approximately \$254 million in year 1

to approximately \$395 million in year 29. As a result, PG&E calculates that, using a discount rate of 7.34 percent, the present value of Consumer savings would be approximately \$4.2 billion.

#### E. Bill Presentation

PG&E may combine all Fixed Recovery Charges into a single line item and the Customer Credit in a single line item presented monthly on Consumers' bills. In accordance with PG&E's proposal, the back of the bill shall display the Fixed Recovery Charge as the "Recovery Bond Charge" and the Customer Credit as the "Recovery Bond Credit" and shall state as follows:

Recovery Bond Charge: Your bill for electric service includes a charge that has been approved by the CPUC to repay bonds issued for certain costs related to catastrophic wildfires. The Recovery Bond Charge (RBC) rate is currently \$0.00541 per kWh. PG&E has also contributed certain amounts to a trust fund which is used provide a customer credit equal to \$0.00541 per kWh (Recovery Bond Credit). The right to recover the RBC has been transferred to a Special Purpose Entity that issued the bonds and does not belong to PG&E. PG&E is collecting that portion of the RBC on behalf of the Special Purpose Entity.

# F. Revenue Accounting

PG&E shall separate the revenues from the Fixed Recovery Charges into multiple components for accounting purposes. The Fixed Recovery Charge revenue for each series of Recovery Bonds will be determined in accordance with the Fixed Recovery Charge Electric Preliminary Statement.

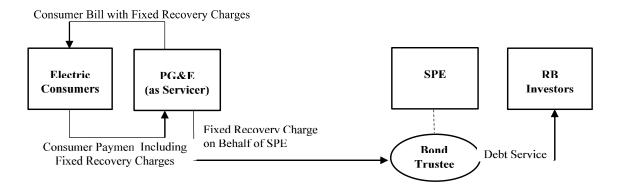

### G. Billing, Collecting, and Remitting the Fixed Recovery Charges

As contemplated by Article 5.8,<sup>15</sup> PG&E will act as the initial servicer for the Recovery Property that will be pledged to secure the Recovery Bonds. As servicer, PG&E will be responsible for reading customer meters, for submitting true-up adjustment letters, and for billing, collecting and remitting the Fixed Recovery Charge. To the extent Consumers of electricity in

PG&E's historic Service Territory are billed by Electric Service Providers ("ESPs") or another utility or entity, PG&E will bill these ESPs, utilities or entities, as the case may be, for the Fixed Recovery Charges, and the ESPs, utilities and entities will be obligated to remit Fixed Recovery Charge revenues to PG&E.

As servicer, PG&E will remit estimated Fixed Recovery Charges revenues, on behalf of the SPE, to the Bond Trustee. The Bond Trustee will be responsible for making principal and interest payments to Bond investors and paying other Financing Costs. These other Financing Costs include, among other costs, servicing fees, administration fees, Bond Trustee fees, legal fees, accounting fees, ongoing rating agency fees and other financing costs. PG&E expects the ongoing Financing Costs (excluding third party servicing fees) plus an allowance for uncollectibles to be approximately \$4.1 million in the first year, \$5.3 million in the second and third years, and \$5.6 million per year thereafter. The following diagram illustrates the servicing cash flows:

### **SERVICING CASH FLOWS**

As servicer, PG&E will remit Fixed Recovery Charge revenues in accordance with the servicing agreement to the Bond Trustee. An SPE will own legal title to, and all equitable interest

<sup>&</sup>lt;sup>15</sup> §§ 850.1(b), 850.1(e), and 850.2.

in, the Recovery Property, including the Fixed Recovery Charges, and PG&E will be legally obligated to remit all Fixed Recovery Charge revenues to the Bond Trustee. PG&E expects the rating agencies to require PG&E to remit the estimated Fixed Recovery Charge revenues to the Bond Trustee on a daily basis to avoid an adverse impact on the Recovery Bond credit ratings.

Over the life of the Recovery Bonds, PG&E will prepare a monthly report for the Bond Trustee that shows the estimated Fixed Recovery Charge revenues by month over the life of the Recovery Bonds. Estimated Fixed Recovery Charge collections will be based on historic Consumer payment patterns. Six months after each monthly billing period, PG&E will compare actual Fixed Recovery Charge revenues to the estimated Fixed Recovery Charge revenues that have been remitted to the Bond Trustee for that month during the intervening 6-month period. The difference between the estimated Fixed Recovery Charge collections and the actual Fixed Recovery Charge collection will be netted against the following month's remittance to the Bond Trustee. The 6-month lag between the first remittance of estimated Fixed Recovery Charge revenues and the final determination of actual Fixed Recovery Charge cash collections allows for the collection process to take its course and is consistent with PG&E's practice of waiting six months after the initial billing before writing off unpaid customer bills.

The Bond Trustee (acting on behalf of the SPE) will have a legal right to only the amount of actual Fixed Recovery Charge cash collections. Amounts collected that represent partial payments of a Consumer's bill will be allocated between the Bond Trustee and PG&E based on the ratio of the billed amount for the Fixed Recovery Charge to the total billed amount. PG&E states that this allocation is an important bankruptcy consideration in determining the true sale nature of the transaction.

The Bond Trustee will hold all Fixed Recovery Charge collections received from PG&E in a collection account and distribute these funds to make scheduled principal and interest payments and to pay servicing fees and other Financing Costs. PG&E anticipates that the collection account will have two subaccounts: (1) the capital subaccount to hold the capital contribution made by PG&E and (2) the excess funds subaccount to hold investment earnings and funds collected in excess of amounts necessary to pay principal, interest and other Financing Costs on a Bond payment date.

The Bond Trustee will invest all funds in investment-grade short-term debt securities that mature on or before the next Bond payment date. Investment earnings will be retained in the collection account to pay principal, interest or other Financing Costs. If funds, other than investment earnings from amounts held in the capital subaccount, remain in the collection account after distributions are made on a Bond payment date, they will be credited to the excess funds subaccount of the collection account. These amounts in the excess funds subaccount as well as the capital subaccount will be available to pay principal, interest or other Financing Costs as they come due. At the time of the next scheduled true-up filing, the excess funds subaccount balance will be used to offset the revenue requirement for the Fixed Recovery Charge true-up calculation. Investment earnings in the capital subaccount will be paid by the Bond Trustee to the SPE on the Bond payment date, except in the unlikely event that these funds are needed to pay Recovery Bond principal, interest, and other Financing Costs.

We accept PG&E's representation that in order to obtain the necessary true sale and bankruptcy opinions, the SPE must pay a servicing fee to PG&E that is set at a level estimated to cover the servicer's out-of-pocket costs and expenses in servicing the Recovery Bonds including, without limitation, the costs and expenses of billing, monitoring, collecting, and remitting Fixed

Recovery Charges, and reporting requirements imposed by the Servicing Agreement. PG&E represents that annual servicing fees for utility asset backed securitization transactions range from 0.05 percent to 0.10 percent of the initial principal amount of the Bonds, which is consistent with the costs of servicing similar assets. <sup>16</sup> Therefore, we authorize PG&E to charge an annual servicing fee of 0.05 percent of the initial principal amount of the Recovery Bonds. If there are insufficient funds in the Customer Credit Trust to pay the Customer Credit, PG&E shall separately credit to electric Consumers the amount of this servicing fee.

In the event that PG&E fails to perform its servicing functions satisfactorily, as set forth in the Servicing Agreement, or is required to discontinue its billing and collecting functions, a successor servicer acceptable to the Bond Trustee, acting on behalf of the Bond holders, and approved by the Commission will replace PG&E. We accept PG&E's representation that the annual fees paid to the new servicer should be no greater than 0.60 percent of the initial principal amount of the Bonds. <sup>17</sup> Any fees paid to the new servicer that exceed the pre-approved range will require Commission approval.

The credit quality and expertise in performing servicing functions will be important considerations when appointing a successor servicer to ensure the credit ratings for the Recovery Bonds are maintained. Therefore, the Commission does not intend to approve a new servicer without first determining that the appointment of the selected servicer will not cause the then-current rating of any then outstanding Recovery Bonds to be withdrawn or downgraded. This

<sup>&</sup>lt;sup>16</sup> Based on a Bond principal amount of \$7.5 billion, the servicing fee would be \$3.75 million per

<sup>&</sup>lt;sup>17</sup> Based on a total initial Bond principal amount of \$7.5 billion, the servicing fee would be no greater than \$45 million per year.

will provide assurance to the credit rating agencies that the Bonds' rating will not be undermined in the future because of a third-party servicer.

Although PG&E will act as servicer, it is possible that ESPs or other entities will bill and collect the Fixed Recovery Charges and any FRTAs from some Consumers. These ESPs or other entities should meet minimum billing and collection experience standards and creditworthiness criteria. Otherwise, the rating agencies might impose additional credit enhancement requirements or assign lower credit ratings to the Bonds. Therefore, ESPs or other entities that bill and collect the Fixed Recovery Charges and FRTAs will have to satisfy the creditworthiness and other requirements applicable to ESPs that meter and bill electric Consumers as set forth in PG&E's Electric Rule 22.P., "Credit Requirements."

# 6. General Order 24-C and Financing Rule

GO 24-C requires utilities to submit a periodic report to the Commission that contains, among other things, the following information: (1) the amount of debt issued by the utility at the end of the period; (2) the total amount of debt outstanding at the end of the prior period; and (3) the commissions paid and total proceeds received from debt issued during the prior period. The Commission's Financing Rule adopted in D.12-06-015 (as amended in D.12-07-003) likewise imposes certain requirements and reporting obligations in connection with the issuance of debt securities and use of swaps and hedges. PG&E states that it will comply with the Financing Rule and GO 24-C with respect to the Recovery Bonds, and we authorize PG&E, on behalf of the SPE, to provide periodic reports pursuant to GO 24-C and the Financing Rule regarding the Recovery Bonds to the Commission staff.

### 7. Fees

Whenever the Commission authorizes a utility to issue debt, the Commission is required to charge and collect a fee in accordance with Section 1904(b), which states, in relevant part, as follows:

Section 1904(b): For a certificate authorizing an issue of bonds... two dollars (\$2) for each one thousand dollars (\$1,000) of the face value of the authorized issue or fraction thereof up to one million dollars (\$1,000,000), one dollar (\$1) for each one thousand dollars (\$1,000) over one million dollars (\$1,000,000) and up to ten million dollars (\$10,000,000), and fifty cents (\$0.50) for each one thousand dollars (\$1,000) over ten million dollars (\$10,000,000), with a minimum fee in any case of fifty dollars (\$50). No fee need be paid on such portion of any such issue as may be used to guarantee, take over, refund, discharge, or retire any stock, bond, note or other evidence of indebtedness on which a fee has theretofore been paid to the commission. (Emphasis added.)

We conclude that Section 1904(b) applies to the Recovery Bonds, as there is nothing in Article 5.8 that exempts the Bonds from Section 1904(b). The Recovery Bonds will be used to pay or reimburse PG&E for the \$6 billion in temporary utility debt, which PG&E will retire as a result of the transaction. Since PG&E has already paid fees on the temporary utility debt, no Section 1904(b) fees are due on \$6 billion of the \$7.5 billion issuance of Recovery Bonds. The following table shows the calculation of the fee required by Section 1904(b):

\$7,500,000,000
(\$6,000,000,000)
(\$0)
\$1,500,000,000
\$2,000
\$9,000
\$745,000
\$756,000

PG&E shall remit the required fee of \$756,000 to the Commission's Fiscal Office no later than 10 days after all conditions for the issuance of the Bonds have been satisfied and, in any event, prior to the first issuance of the Bonds. The SPE shall reimburse PG&E for this fee. This fee will be a Bond Issuance Cost.

# 8. Irrevocable Financing Order

This Financing Order is irrevocable to the extent set forth in Section 850.1(e). Pursuant to Section 850.1(e), the State of California through this Financing Order pledges and agrees with PG&E, owners of Recovery Property, the SPE(s), and holders of the Recovery Bonds, that the State shall neither limit nor alter, except with respect to the True-Up Mechanism, the Fixed Recovery Charges, any FRTAs, Recovery Property, this Financing Order, or any rights thereunder until the Recovery Bonds, together with the interest thereon and other associated Financing Costs, are fully paid and discharged, and any associated taxes have been satisfied or, in the alternative, have been refinanced through an additional issue of Recovery Bonds. However, nothing shall preclude the limitation or alteration if and when adequate provision shall be made by law for the

protection of PG&E and the owners and holders of Recovery Bonds. The SPE is authorized to include this pledge and undertaking for the state in the Recovery Bonds.

As required by Sections 850(b)(13) and 850.1(g), the Commission shall adjust the Fixed Recovery Charges, as necessary, to ensure timely recovery of all Recovery Costs that are the subject of this Financing Order, and the costs associated with the recovery, financing, or refinancing thereof, including servicing and retiring the Recovery Bonds authorized by this Financing Order. When setting other rates or charges for PG&E, nothing in Article 5.8 shall prevent the Commission from taking into account the collection of Fixed Recovery Charges in excess of the amount required to pay Recovery Costs financed or refinanced by the Recovery Bonds or any FRTAs.

# 9. PG&E's Written Consent to Be Bound by the Financing Order

In accordance with Section 850.1(d), this Financing Order shall become effective only after PG&E files its written consent to all the terms and conditions of this Financing Order. PG&E shall file and serve within 10 days from the date this Financing Order is mailed a written statement that provides notice of whether or not PG&E consents to all terms and conditions of this Financing Order. If PG&E declines to provide its consent, PG&E's written statement shall identify the specific terms and conditions it finds objectionable and explain why it does not consent to these terms and conditions.

### 10. Rehearing and Judicial Review

This Financing Order construes, applies, implements, and interprets the provisions of Article 5.8. Therefore, applications for rehearing and judicial review of this Financing Order are subject to Sections 1731 and 1756. These laws provide that any application for rehearing of this Financing Order must be filed within 10 days of the final Financing Order. The Commission must issue its decision on any application for rehearing within 210 days of the filing for rehearing.

Within 30 days after the Commission issues its decision denying the application for a rehearing, or, if the application was granted, then within 30 days after the Commission issues its decision on rehearing, or at least 120 days after the application for rehearing is granted if no decision on rehearing has been issued, any aggrieved party may petition for a writ of review in the court of appeal or the Supreme Court for the purpose of having the lawfulness of the Financing Order or decision on rehearing inquired into and determined. If the writ issues, it shall be made returnable at a time and place specified by court order and shall direct the Commission to certify its record in the case to the court within the time specified.

# **Findings of Fact**

- 1. The \$7.5 billion of Recovery Bonds proposed by PG&E in A.[ ] possess all of the following characteristics required or authorized by Article 5.8:
  - i. The Bonds will be secured principally by the right to receive revenues from an irrevocable and nonbypassable Fixed Recovery Charge designed to provide timely and sufficient funds to pay for Bond principal, interest (including interest-rate swaps, if any), any credit enhancements and other Financing Costs. This right is part of Recovery Property.
  - ii. The proceeds of the Bonds will be used to (a) to pay Catastrophic Wildfire Amounts and (b) finance Bond Issuance Costs.
  - iii. The Bonds may be issued in one or more series up to \$7.5 billion in the aggregate on or prior to December 31, 2035.
  - iv. PG&E will not issue the Bonds. The Bonds will be issued by one or more bankruptcy remote SPEs that are (a) formed and wholly owned by PG&E, and (b) separate from PG&E. Each SPE will purchase the Recovery Property in an absolute transfer and true-sale and own the Recovery Property, including the right to receive Fixed Recovery Charge revenues.
  - v. PG&E's obligations and commitments under this Financing Order, and PG&E's ability to pay the Customer Credit and PG&E's ability to provide the Initial Shareholder Contribution or Additional Shareholder Contributions to the Customer Credit Trust, shall neither (i) impair the characterization of the sale, assignment, or transfer of the Recovery Property as an absolute transfer and true sale nor (ii) impair each SPE's status as an entity that is separate from PG&E and PG&E Corporation nor (iii) limit or alter the Fixed Recovery Charges, the Recovery Property, this Financing Order, or any rights under this Financing Order.
  - vi. Financing Catastrophic Wildfire Amounts through issuing the Recovery Bonds will result in Consumer benefits because there is present value difference of approximately \$4.2 billion through issuance of Recovery Bonds when compared to traditional recovery methods for the Catastrophic Wildfire Amounts. Financing Catastrophic Wildfire Amounts through issuing the Recovery Bonds, using the crediting mechanism proposed by PG&E should result in no cost to ratepayers, as the Initial Shareholder

Contribution, Additional Shareholder Contributions and Customer Trust Returns are designed to absorb the full cost of the \$7.5 billion of debt service. However, even if the crediting mechanism were not available, the use of securitization is projected to result in an estimated \$4.2 billion of net present value savings (based upon current market conditions) when compared to traditional recovery methods for the Catastrophic Wildfire Amounts.

- vii. The Bonds of each series will be amortized on a modified mortgage style basis as determined at the time of issuance in the Issuance Advice Letter, such that principal payments may be made at a reduced amount for the first several payment periods. The legal maturity of the latest maturing series of Bonds will be no later than 32 years from the date of issuance.
- viii. The Bonds will be issued pursuant to enacted legislation (i.e., Article 5.8) that is satisfactory to PG&E and the Commission.
- 2. After applying the Stress Test Methodology, at least \$7.5 billion of PG&E's Catastrophic Wildfire Amounts are eligible for recovery through the issuance of Recovery Bonds.
- 3. PG&E expects that Catastrophic Wildfire Amounts were initially will be partially financed with \$6 billion in temporary utility debt before issuance of the Recovery Bonds. In I.19-09-016, PG&E-has requested authority to issue the \$6 billion in temporary utility debt either as long-term debt or short-term debt under Sections 817, 818 and 823. In D.20-05-053, the Commission approved PG&E's Plan, which went effective on July 1, 2020, including the issuance of \$6 billion in temporary utility debt. As a result of the this securitization transaction, PG&E will retire this temporary utility debt.
- 4. The purpose of issuing the Recovery Bonds is to pay or reimburse PG&E for the payment of Catastrophic Wildfire Amounts and to support PG&E's path to an investment-grade issuer credit rating. The Recovery Bonds also-will allow PG&E to retire the temporary utility debt that helped enable PG&E to reorganize and emerge from bankruptcy, and facilitate and accelerate the payment of \$1.35 billion to the Fire Victim Trust.

- 5. Section 850.1(a)(1)(A) directs the Commission to determine that (i) the Recovery Costs identified by PG&E in its application A.[ ] to be paid or reimbursed from the Recovery Bonds be allocated to ratepayers pursuant to subdivision (c) of Section 451.2 and (ii) the issuance of the Recovery Bonds and the imposition and collection of Fixed Recovery Charges (A) are just and reasonable, (B) are consistent with the public interest and (C) will reduce, to the maximum extent possible, the rates on a present value basis that Consumers within PG&E's Service Territory would pay as compared to the use of traditional utility financing mechanisms. Calculated using a discount rate of 7.34 percent, the present value of these Consumer benefits is approximately \$4.2 billion. Furthermore, PG&E has agreed to contribute the Initial Shareholder Contribution and Additional Shareholder Contributions to the Customer Credit Trust to pay the Customer Credit. Trust Returns are designed to equal the Fixed Recovery Charges paid by Consumers.
- 6. The cost of the Recovery Bonds authorized by this Financing Order might be reduced if PG&E is able to attract a broad range of investors by dividing each series of Bonds into several tranches with different legal maturity dates.
- 7. To enhance the credit quality of the Recovery Bonds, PG&E requests that, in the event of a default by PG&E, as servicer, in remitting the Fixed Recovery Charge revenues to a SPE, the Commission, upon application by the Bond Trustee, order the sequestration and payment to the Bond Trustee for the benefit of the SPE of revenues arising with respect to Recovery Property.
- 8. PG&E requests authority for the SPE to provide credit enhancement in the form of overcollateralization, if required by the rating agencies to achieve the highest possible credit rating for the Recovery Bonds.

- 9. PG&E estimates total Bond Issuance Costs <u>for one issuance</u> to be between \$36 and \$57 million, including estimated costs of the Commission. <u>Actual costs for each issuance shall be included in the Issuance Advice Letter for the relevant series.</u>
- 10. PG&E represents that an equity contribution (i.e., credit enhancement) of at least 0.50 percent of the initial principal amount of each series of Bonds is required in order to assure that the Recovery Bonds will be treated as debt of PG&E for tax purposes.
- 11. It is important to review Bond Issuance Costs because Section 850.1(e) limits the Commission's authority to adjust, after-the-fact, any Bond Issuance Costs that are unjust or unreasonable.
- 12. PG&E requests authority to use net Bond proceeds to pay or reimburse PG&E for the payment of Catastrophic Wildfire Amounts.
- 13. Each SPE, not PG&E, will "issue any bond, note, lien, guarantee, or indebtedness of any kind pledging the utility assets or credit for or on behalf of any subsidiary or affiliate" under Section 701.5. Furthermore, the Customer Credit and the Customer Credit Trust are for the benefit of Consumers, not for or on behalf of any subsidiary or affiliate.
- 14. PG&E proposes to recover the following costs via the Fixed Recovery Charges: credit enhancements, if required, interest rate swaps, servicing fees, administration fees, Bond Trustee fees, any taxes imposed on, or as a result, of the Fixed Recovery Charges and other Financing Costs.
- 15. PG&E proposes to collect any FRTAs that are needed to recover any federal and State of California income and franchise taxes associated with the Fixed Recovery Charges but not approved as Financing Costs to be financed from the proceeds of the Recovery Bonds.

- 16. 15. The True-Up Mechanism adopted by this Financing Order will allow PG&E to make timely adjustments to the Fixed Recovery Charges to account for variations in actual Fixed Recovery Charge revenues from those originally forecast and, if necessary, to collect and adjust FRTAs.
- 17. 16. The Recovery Bonds will be issued using an offering through a negotiated sale with underwriters because of the complex nature of the highly structured transaction and to minimize interest costs.
- 18. 17. In its capacity as servicer, PG&E will be responsible for (i) reading customer meters, (ii) submitting true-up adjustments, (iii) billing and collecting the Fixed Recovery Charges, and (iv) remitting the Fixed Recovery Charge revenues to the Bond Trustee.
- 19. 18. It is reasonable for the Bond Trustee to pay an annual servicing fee charged by PG&E an amount of 0.05 percent of the initial principal amount of each series of Bonds. Furthermore, it is reasonable for the Bond Trustee to pay a servicing fee at a level sufficient to induce another entity to take over the servicing function from PG&E should this become necessary. The annual servicing fees charged by an unaffiliated third-party servicers shall be no greater than 0.60 percent of the initial principal amount of the Bonds.
- 20. 19. It is reasonable to for the Bond Trustee to pay an administration fee of \$100,000 per annum by PG&E for each series of Recovery Bonds.
- 21. 20. The credit quality and expertise in performing servicing functions will be important considerations when approving the appointment of a successor servicer to ensure the credit ratings for the Recovery Bonds are maintained.
- 22. 21. It is possible that ESPs or other entities will bill and collect the Fixed Recovery Charges and any FRTAs from some Consumers.

- 23. 22. The Fixed Recovery Charges and any FRTAs will be nonbypassable and payable by all existing and future Consumers in PG&E's Service Territory, except for those Consumers participating in the California Alternative Rates for Energy or Family Electric Rate Assistance programs.
- 24. 23. Consumers Except in PG&E's Service Territorythe case of municipalization, consumers that no longer take transmission or and distribution retail service from PG&E after the date of this Financing Order, or that meet relevant criteria in the applicable tariff, will shall be treated as departing load (DL) Consumers using applicable language under existing tariffs for DL Consumers, including E-DCG, and will be subject to pay the Fixed Recovery Charges and any FRTAs and entitled to receive the Customer Credit. DL Consumers shall pay the Fixed Recovery Charges and any FRTAs (and be eligible to receive the associated Customer Credit) based on one of the following: (i) the last 12 months of the Consumer's recorded pre-departure use; (ii) an average derived from the last three years of recorded use; or (iii) actual use. In the event that residents of a municipality no longer take transmission and distribution retail service, new municipal DL Consumers would pay the Fixed Recovery Charges and any FRTAs based on one of the following: (i) the last 12 months of the Consumer's recorded pre-departure use; or (2) actual use.
- 25. 24. If a third-party meters and bills for the Fixed Recovery Charges, PG&E needs access to information on kWh billing and usage by Consumers to provide for proper reporting to the SPE and to perform its obligations as servicer.

<sup>&</sup>lt;sup>18</sup> The determination of the Customer Credit applicable to new municipal DL Consumers, however, will be determined by the Commission in a future proceeding, if any, regarding municipalization.

- 26. 25. If electric Consumers in PG&E's Service Territory fail to pay their utility bills in full, any shortfall in revenues must be allocated pro rata among the Fixed Recovery Charges.

  FRTAs and other charges to avoid PG&E favoring its own interests.
- 27. 26. PG&E anticipates that the Bond Trustee's collection account will have at least two subaccounts: (i) the capital subaccount to hold equity contributed by PG&E and (ii) the excess funds subaccount to hold funds in excess of amounts needed on the Bond payment date to pay debt service and other ongoing Financing Costs.
- 28. 27. In accordance with Section 850.1(i), Fixed Recovery Charges and FRTAs shall not be imposed upon Consumers participating in the California Alternative Rates for Energy or Family Electric Rate Assistance programs.
- 29. In recent years the Commission has authorized utilities to report the information required by GO 24-C.
- <u>30.</u> <u>29.</u> In order to pay the Customer Credit, PG&E will establish the Customer Credit Trust funded with the Initial Shareholder Contribution, the Additional Shareholder Contributions using the Shareholder Tax Benefits and Customer Credit Trust Returns.
- 31. 30. PG&E proposed to establish the Customer Credit Trust in the form of a grantor trust shortly after the Commission's approval of this Financing Order. The Customer Credit Trust will have the limited purpose of holding and preserving the Trust Corpus and managing the investment thereof in order to fund the Customer Credit. The Customer Credit Trust will be authorized to make interim distributions only to (i) reimburse PG&E for the cost of the Customer Credit and (ii) reimburse PG&E in order to pay the fees and expenses of the Trust, including any tax liabilities incurred in respect of the Customer Credit Trust Returns, as described in the Trust Agreement. As long as the Recovery Bonds are outstanding, PG&E will not be authorized to

withdraw funds from the Customer Credit Trust for any other purpose, unless the Commission otherwise directs.

- 31. The Customer Credit Trust will be the sole source of funds to pay the Customer Credit.
- 23. 32. Once all If assets in the Customer Credit Trust are insufficient to fund a Customer Credit equal to the Fixed Recovery Charges for a period of time, the future Customer Credit Trust balance will first be used (up to the amount of the balance) to make up any previous shortfalls in Customer Credits, including the amount of any FRTA charged on the shortfall. In addition, once the Recovery Bonds are repaid and all Financing Costs have been paid in full and the Fixed Recovery Charges cease, remaining funds in the Customer Credit Trust will be allocated first to Consumers to make up for any shortfall in the Customer Credit in earlier time periods and then terminated and the assets liquidated. Consumers will receive 25 percent of any surplus, funds remaining in the Customer Credit Trust after the payment of all the Customer Credit Trust expenses, including any computed taxes, will be shared with Consumers.

#### **Conclusions of Law**

- 1. The Catastrophic Wildfire Amounts have been determined and allocated to Consumers in PG&E's Service Territory pursuant to subdivision (c) of Section 451.2, and therefore are Recovery Costs pursuant to Section 850(b)(10).
- 2. For purposes of Section 850(b)(11), the Recovery Property will be established by this Financing Order, and pursuant to Section 850.1(h), such Recovery Property shall be created simultaneously with the sale of such Recovery Property to the SPE. For the purposes of Section 850.2(d), the Recovery Property will continue to exist until the date on which all Recovery Bonds and Financing Costs are paid in full.

- 3. Although the Bonds will be issued by an SPE, and not by PG&E, each SPE will be a wholly-owned separate subsidiary of PG&E that will be established for the purpose of carrying out this Financing Order.
- 4. The <u>SPEs responsible for issuing the Recovery Bonds are exempt from the new affiliate requirements established in D.20-05-053.</u>
- 5. The Recovery Bonds and the imposition and collection of Fixed Recovery Charges and any FRTAs proposed by PG&E in A.[ ] satisfy all the conditions established by Article 5.8.
- <u>6.</u> <u>5.</u> Because issuance of the Recovery Bonds will provide substantial benefits to PG&E's Consumers, the issuance of the Recovery Bonds and the imposition and collection of Fixed Recovery Charges is just and reasonable and consistent with the public interest, so the SPE should be authorized to issue the Bonds.
- <u>7.</u> 6. By structuring the offering of Recovery Bonds to be a "Qualifying Securitization" under IRS Revenue Procedure 2005-62, PG&E is not required by this Financing Order to obtain a ruling from the IRS. PG&E expects this offering of Recovery Bonds to be a "Qualifying Securitization."
- 8. 7. The Recovery Bonds authorized by this Financing Order do not: (i) constitute a debt or liability of the State of California or any political subdivision thereof; (ii) constitute a pledge of the full faith and credit of the State or any political subdivision; or (iii) directly, indirectly, or contingently obligate the State or any political subdivision thereof to levy or to pledge any form of taxation to pay any obligations associated with the Recovery Bonds or to make any appropriations for their payment.

- 9. 8. All Recovery Bonds should contain a legend to the following effect: "Neither the full faith and credit nor the taxing power of the State of California is pledged to the payment of the principal of, or interest on, this bond."
- 9. If appropriate, each series of Recovery Bonds should be divided into several tranches with different legal maturity dates, with the final number, type, and size of Bond tranches selected to reduce, to the maximum extent possible, the rates on a present value basis that PG&E Consumers will pay compared to traditional utility financing mechanisms.
- 11. 10. The Recovery Bonds do not require the Commission's approval pursuant to Section 701.5 because PG&E will not "issue any bond, note, lien, guarantee, or indebtedness of any kind pledging the utility assets or credit for or on behalf of any subsidiary or affiliate" under that provision and because the Customer Credit, and Customer Credit Trust are for the benefit of Consumers, not for or on behalf of any subsidiary or affiliate.
- 12. 11. The Recovery Bonds also do not require approval pursuant to Sections 817 and 818 since the SPE, not PG&E as a public utility, will be the issuer. Even if Section 817 and 818 were to apply, issuance of the Recovery Bonds is consistent with those provisions.
- 13. 12. The Recovery Bonds will be used to pay or reimburse PG&E for the payment of the Catastrophic Wildfire Amounts. PG&E is incurring this obligation in order to emerge from Chapter 11 and plans to finance this payment partially with \$6 billion in temporary utility debt until the issuance of Recovery Bonds. Accordingly, the Recovery Bonds approved by this Financing Order comply with Section 817(d), (f), (g) and (h), to the extent those provisions apply.
- 14. 13. The Bond transaction complies with Section 818, to the extent that provision applies, because the purpose of issuing the Recovery Bonds is to finance Catastrophic Wildfire

Amounts and to support PG&E's path to an investment-grade issuer credit rating. This purpose is in the public interest and not reasonably chargeable to operating expenses or income.

- 15. 14. Since PG&E will retire its temporary utility debt as a result of issuing the Recovery Bonds, to the extent the temporary utility debt constitutes short-term debt within the meaning of Section 823(d), PG&E should be authorized to refund that debt in connection with the issuance of the Recovery Bonds pursuant to Section 823(d).
- 16. 15. The scheduled final payment date of the latest maturing tranche of any series shall be no later than 30 years after the date of issuance and the legal maturity of latest maturing tranche of any series of Bonds should be no later than 32 years after the date of issuance.
- 17. 16. The Recovery Bonds should have fixed or floating interest rates as determined at the time of issuance to provide a lower all-in cost for the Bonds. Any floating rate should be converted to a synthetic fixed rate with interest-rate swaps so Consumers do not have any significant floating-rate risk. The interest costs recovered via the Fixed Recovery Charges should be based on the synthetic fixed rate so long as the interest-rate swap remains in effect.
- 18. 17. Floating-rate Bonds should be issued only if the all-in cost of the Bonds, including the cost of creating a synthetic fixed rate, is less than what would have been available had these Bonds been issued with comparable maturities in the fixed-rate market.
- 19. 18. Any interest rate-swaps should be subject to the conditions described in the body of this Financing Order.
- 20. 19. The Commission should have full access to the books and records of the SPE. PG&E should not make any profit from the SPE, except for an authorized return on PG&E's capital contribution to the SPE.

- 21. 20. The Commission shall also oversee the Customer Credit Trust and the Customer Credit to Consumers in the amount equal to the Fixed Recovery Charges provided, however, in the event PG&E fails to pay the Customer Credit, the Commission shall not, either by rescinding, altering, or amending this Financing Order or otherwise, revalue or revise for ratemaking purposes the Recovery Costs or the costs of recovery, financing, or refinancing the Recovery Costs or in any way reduce or impair the value of the Recovery Property either directly or indirectly by taking Fixed Recovery Charges into account when setting other rates for PG&E.
- 21. PG&E's obligations and commitments under this Financing Order, and PG&E's ability to pay the Customer Credit and PG&E's ability to provide the Initial Shareholder Contribution or Additional Shareholder Contributions to the Customer Credit Trust, shall neither (i) impair the characterization of the sale, assignment, or transfer of the Recovery Property as an absolute transfer and true sale nor (ii) impair each SPE's status as an entity that is separate from PG&E and PG&E Corporation nor (iii) limit or alter the Fixed Recovery Charges, the Recovery Property, this Financing Order, or any rights under this Financing Order. PG&E's failure to pay the Customer Credit also shall not impair the characterization of the sale, assignment or transfer of the Recovery Property to the SPE as an absolute transfer and true sale or affect or impair the SPE's ownership of the Recovery Property or the SPE's separateness from PG&E and PG&E Corporation.
- 23. 22. The Customer Credit will be funded out of a segregated account held by the Customer Credit Trust. PG&E will establish the Customer Credit Trust in the form of a grantor trust pursuant to the Trust Agreement.
- 24. 23. The Customer Credit Trust will have a limited purpose to hold and preserve the Trust Corpus, and manage the investment thereof and of the Customer Credit Trust Returns, all in

order to fund the Customer Credit. The Customer Credit Trust will not function as a business trust with authority to carry out general business activities.

- 25. 24. The Customer Credit Trust will be authorized to make interim distributions only to (i) reimburse PG&E for the cost of the Customer Credit and (ii) reimburse PG&E in order to pay the fees and expenses of the Trust, including any tax liabilities incurred in respect of the Customer Credit Trust Returns, as described the Trust Agreement. While the Recovery Bonds are outstanding, PG&E cannot withdraw funds from the Customer Credit Trust for any other purpose.
- 26. 25. Upon the issuance of the Recovery Bonds, PG&E should contribute equity to the SPE, as necessary, for tax purposes and to satisfy the conditions established by the credit rating agencies; provided, however, that PG&E has no obligation to pay the amounts owed by the SPE on the Recovery Bonds or to make any additional equity contributions to the SPE to facilitate the SPE's repayment of the Recovery Bonds.
- 27. 26. PG&E should sell the Recovery Property identified in the Issuance Advice Letter to the SPE identified in such Issuance Advice Letter. The SPE identified in the Issuance Advice Letter will constitute a Financing Entity for all purposes of Article 5.8.
- 28. 27. Once Recovery Property is established by this Financing Order, it should not be adjusted in response to protests, the failure to pay the Customer Credit or the failure of PG&E to make the Initial Shareholder Contribution or Additional Shareholder Contributions to the Customer Credit Trust as mandated by this Financing Order. Any mathematical errors or other errors or irregularities regarding the amount of established Recovery Property should be corrected in a subsequent filing of a Routine True-Up Mechanism Advice Letter.
- 29. 28. The Recovery Bonds should be secured by the Recovery Property, SPE equity held by the Bond Trustee, and other Bond Collateral held by the Bond Trustee.

- 30. 29. The SPE should transfer the Bond proceeds (net of estimated Bond IssuanceCosts) to PG&E to purchase the Recovery Property.
- 31. 30. The following will occur or exist as a matter of law upon the sale by PG&E of Recovery Property to the SPE: (i) the SPE will have all of the rights originally held by PG&E with respect to the Recovery Property, including the right to exercise any and all rights and remedies to collect any amounts payable by any Consumer in respect of the Recovery Property, including the Fixed Recovery Charges, and to obtain true-up adjustments to the Fixed Recovery Charges pursuant to the True-Up Mechanism, notwithstanding any objection or direction to the contrary by PG&E; (ii) any payment by any Consumer of owed Fixed Recovery Charges will discharge such Consumer's obligations in respect of the Recovery Property to the extent of such payment, notwithstanding any objection or direction to the contrary by PG&E; and (iii) PG&E will not be entitled to recover the Fixed Recovery Charge associated with the Recovery Property other than for the benefit of the SPE or of holders of the associated Recovery Bonds in accordance with PG&E's duties as servicer with respect to such Bonds.
- 31. The SPE, as the owner of the Recovery Property, may pledge the Recovery Property as collateral to one or more indenture trustees to secure payments of principal, interest, servicing and administration expenses, credit enhancements, interest rate swap agreements, and other amounts payable under an indenture pursuant to which Recovery Bonds are issued. A separate and distinct statutory lien described in Section 850.3(g) shall exist on the Recovery Property then existing or thereafter arising that is described in an Issuance Advice Letter and shall secure all obligations, then existing or subsequently arising, to the holders of the Bonds described in such Issuance Advice Letter and the indenture trustee for such holders. There shall be no

statutory liens of the type described in Section 850.3(g) except as provided in this Conclusion of Law ("COL").

- 32. To ensure that each SPE is legally separate and bankruptcy remote from PG&E, the SPE should be authorized to: (i) include one or more independent members on its board of directors in the case of a corporation or a limited liability company, or an independent trustee in the case of a trust; (ii) have restrictions on its ability to declare bankruptcy or to engage in corporate reorganizations; and (iii) limit its activities to those related to acquiring and owning the Recovery Property and issuing and servicing the Recovery Bonds.
- 34. 33. In the event of a default by PG&E in remitting the Fixed Recovery Charge revenues to the SPE, the Commission may order the sequestration and payment to the Bond Trustee for the benefit of the SPE of revenues arising from the Recovery Property.
- 35. 34. In the event of a default by PG&E in remitting the Fixed Recovery Charge revenues to the SPE, the following parties may petition the Commission to implement the remedy described in the previous COL: (i) the holders of the Recovery Bonds and the Bond Trustees or representatives thereof as beneficiaries of any statutory or other lien permitted by the Public Utilities Code; (ii) the SPE or its assignees; and (iii) pledgees or transferees, including transferees under Section 850.4, of the Recovery Property.
- 36. 35. The SPE should be authorized to provide credit enhancements for the Recovery Bonds in addition to the True-Up Mechanism, but only if such credit enhancements are required by the rating agencies to receive the highest investment-grade rating or the all-in cost of the Bonds with the credit enhancements is less than without the credit enhancements.
- 37. 36. Any revenue for credit enhancements that is collected as part of the Fixed Recovery Charge, in excess of total debt service and other Financing Costs, should be the property

of the SPE. After the Recovery Bonds are repaid, all amounts in the collection account, including each subaccount other than the capital subaccount, should be returned to Consumers responsible for paying the Fixed Recovery Charges.

- 38. 37. Total Bond Issuance Costs <u>for one issuance</u> are estimated to range from \$36 to \$57 million, including estimated costs associated with the Commission. <u>Actual costs for each issuance shall be included in the Issuance Advice Letter for the relevant series.</u>
- 39. 38. The Bond Issuance Costs, including, *inter alia*, underwriters' fees and expenses, rating agency fees, Section 1904 fees, accounting fees and expenses, SEC registration fees, printing/edgarizing expenses, legal fees and expenses, Bond Trustee's fees and expenses, original issue discount, costs of the Commission, and other Bond issuance costs, are "financing costs" as defined in Section 850(b)(4) and should be treated as Recovery Costs for purposes of Section 850(b)(10).
- 40. 39. When an SPE issues a series of Recovery Bonds, the SPE should estimate include the Bond Issuance Costs. After all Bond in the Issuance Costs are paid by the SPE, any Bond proceeds not used to purchase the Recovery Property or for Bond Issuance Costs should be used to offset the revenue requirement in the next Fixed Recovery Charge true up calculation. In the event that the actual Bond Issuance Costs exceed the estimated amount, the short fall amount may be recovered in the next Fixed Recovery Charge true up calculation. Advice Letter.
- 41. 40. PG&E should be authorized to use the proceeds from its sale of the Recovery Property to the SPE to pay or reimburse itself for the payment of Catastrophic Wildfire Amounts.
- 42. 41. To ensure that PG&E and each SPE structure the Bond transaction for each series of Bonds in a reasonable manner, the Bond transaction for each series of Bonds should be

reviewed by the Commission upon the filing of the Issuance Advice Letter for compliance with Article 5.8 and this Financing Order.

- 43. 42. PG&E should be authorized pursuant to Article 5.8 to bill and collect Fixed Recovery Charges that are designed to recover the following Recovery Costs: (i) Bond principal and interest; (ii) allowance for uncollectibles; (iii) costs for credit enhancements to the extent required by the rating agencies; (iv) servicing and administration fees; (v) Bond Trustee fees; (vi) taxes, if any, imposed on, or resulting from, the Fixed Recovery Charges; (vii) other Financing Costs; and (viii) replenishment of the capital subaccount that is used to pay for any previously listed items.
- 44. 43. PG&E should establish a separate Fixed Recovery Charge and separate FRTAs for each Bond series.
- 45. 44. The Fixed Recovery Charge revenues for each series of Bonds should be transferred to the Bond Trustee for the benefit of the SPE. The Bond Trustee should apply the Fixed Recovery Charge revenues only for the purposes identified in COL 423.
- 46. 45. To implement the Fixed Recovery Charges and any FRTAs for each series of Recovery Bonds, PG&E should file an Issuance Advice Letter based on the *pro forma* example contained in Attachment 2 of this Financing Order not later than one business day after that series is priced. The Commission's review of each Issuance Advice Letter shall be limited to the arithmetic accuracy of the calculations and compliance with (i) Article 5.8, (ii) this Financing Order and (iii) the requirements of the Issuance Advice Letter. The Issuance Advice Letter for each Bond series should use the cash flow model described in Attachment 1 of this Financing Order, applied to that series of Recovery Bonds, along with the most recent PG&E sales forecast, to develop the initial Fixed Recovery Charges and any FRTAs for that series of Recovery Bonds.

- 47. 46. The initial Fixed Recovery Charges, any FRTAs and final terms of the series of Recovery Bonds set forth in the Issuance Advice Letter shall automatically become effective at noon on the fourth business day after pricing unless before noon on the fourth business day after pricing the Commission issues an order finding that the proposed issuance does not comply with the requirements set forth in COL 423. Once established, the Fixed Recovery Charge will constitute Fixed Recovery Charges subject to Section 850.1(e).
- 48. 47. No later than 10 days after this Financing Order is mailed, PG&E should file a Fixed Recovery Charge tariff based on the *pro forma* example in Appendix A of Chapter 8 of A.[]. The Fixed Recovery Charge tariff should be effective simultaneously with the effective date of the Fixed Recovery Charge and FRTA, if any, specified in the first Issuance Advice Letter. The Fixed Recovery Charge tariff should be updated to reflect any additional issuances of Recovery Bonds in the Issuance Advice Letter for such series of Recovery Bonds.
- 49. 48. Each Issuance Advice Letter should identify the "Recovery Property," as that term is defined by Sections 850(b)(11) and 850.2(d), that is subject to the Issuance Advice Letter.
- <u>50.</u> 49. In accordance with Section 850.1(h), Recovery Property established by this Financing Order and identified in the Issuance Advice Letter shall be created simultaneously with the sale of such Recovery Property to the SPE and will constitute a current property right and will thereafter continuously exist as property for all purposes.
- 51. 50. The owners of Recovery Property will be entitled to recover Fixed Recovery Charge revenues in the aggregate amount equal to the principal amount of the associated series of Recovery Bonds, all interest thereon, any credit enhancements, and all other ongoing Financing Costs in respect of the scheduled payment of the associated series of Recovery Bonds, as well as

other amounts payable under any interest rate swap agreement or the indenture pursuant to which the associated series of Recovery Bonds is issued.

- 51. The transfer of the Recovery Property by PG&E to the SPE in accordance with Section 850.4 shall be treated as an absolute transfer of all of PG&E's right, title, and interest, as in a true sale, and not as a pledge or other financing, of the Recovery Property, other than for federal income tax and state income and franchise tax purposes.
- Property as an absolute transfer and true sale and the corresponding characterization of the property interest of the SPE shall not be affected or impaired by, among other things: (i) the Customer Credit or PG&E's ability to pay the Customer Credit, or PG&E's ability to provide the Initial Shareholder Contribution and Additional Shareholder Contributions to the Customer Credit Trust; (ii) commingling of Fixed Recovery Charge revenues with other amounts; (iii) the retention by the PG&E of either of the following: (a) a partial or residual interest, including an equity interest, in the SPE or the Recovery Property, whether direct or indirect, subordinate or otherwise or (b) the right to Recovery Costs associated with taxes, franchise fees, or license fees imposed on the collection of Fixed Recovery Charges; (iv) any recourse the SPE may have against PG&E; (v) any indemnification rights, obligations, or repurchase rights made or provided by PG&E; (vii) the obligation of PG&E to collect Fixed Recovery Charges, as servicers, on behalf of the SPE; (vii) the treatment of the sale, assignment or transfer of Recovery Property for tax, financial reporting, or other purposes, or (viii) the True-Up Mechanism as provided in this Financing Order.
- 54. Sections 850.1(e) and 850.1(g) require the Commission to adjust the Fixed Recovery Charge at least annually, and more often if necessary, to ensure timely recovery of the amounts identified in COL 423. The Commission's authority under Article 5.8 and pursuant to

Section 850.1(g) to authorize periodic true-up adjustments persists until the Recovery Bonds and all other Financing Costs are fully paid and discharged, and does not expire like the Commission's authority to issue financing orders in the first instance under Section 850.6. It is appropriate for PG&E to file True-Up Mechanism Advice Letters and use an advice letter process to implement the periodic true-up adjustment. The annual Routine True-Up Mechanism Advice Letters shall also address any FRTAs.

- 55. 54. Any default under the documents relating to the Recovery Bonds will entitle the holders of Recovery Bonds, or the Bond Trustees or representatives for such holders, to exercise the rights or remedies such holders or such Bond Trustees or representatives therefore may have pursuant to any statutory or other lien on the Recovery Property.
- 56. S5. The advice letters filed as part of the True-up Mechanism to adjust the Fixed Recovery Charges, as described in the body of this Financing Order, constitute "application[s]... to implement a true-up adjustment" pursuant to Section 850.1(g). This mechanism will adjust the Fixed Recovery Charges annually, and semi-annually or more frequently, if necessary, to ensure that the Fixed Recovery Charges provide sufficient revenues to pay in a timely manner all the amounts identified in COL 42.
- 57. 56. The adjustments to the Fixed Recovery Charges and any FRTAs in annual Routine True-Up Mechanism Advice Letters, semi-annual Routine True-Up Mechanism Advice Letters and more frequent interim Routine True-Up Mechanism Advice Letters shall go into effect automatically the later of: (i) 15 days after the advice letter is filed, or (ii) the first day of first calendar month after the advice letter is filed. These advice letters shall be based on the *pro forma* example contained in Attachment 3 of this Financing Order.

- 58. 57. The Routine True-Up Mechanism Advice Letters shall calculate a revised Fixed Recovery Charge using (i) the cash flow model in described in Attachment 1 of this Financing Order, modified as described in the body of this Financing Order, and (ii) the adjustments to the cash flow model listed in the body of this Financing Order.
- 59. 58.-PG&E shall be allowed to file Non-Routine True-Up Mechanism Advice

  Letters based on the *pro forma* example contained in Attachment 4 of this Financing Order to
  revise the cash flow model described in Attachment 1 of this Financing Order, as modified in the
  body of this Financing Order, to meet scheduled payments of Bond principal, interest, and other
  Financing Costs. Absent a Commission resolution modifying or rejecting proposed changes to the
  cash flow model, PG&E or a successor servicer may implement Fixed Recovery Charge
  adjustments proposed in a Non-Routine True-Up Mechanism Advice Letter on the effective date
  identified in the Non-Routine True-Up Mechanism Advice Letter.
- <u>60.</u> <u>59.</u> PG&E's proposed mechanisms for establishing and adjusting the Fixed Recovery Charges are reasonable, including the *pro forma* Issuance Advice Letters, True-Up Mechanism Advice Letters, and tariffs in A.[ ].
- 61. 60. PG&E's proposed mechanisms for adjusting the Customer Credit are reasonable, including the filing of Tier 1 advice letters.
- 62. 61. The Commission determines that PG&E's contribution of Shareholder Tax Benefits associated with the Catastrophic Wildfire Amounts included in Recovery Costs to the Customer Credit Trust to fund the Customer Credit satisfies the requirements of Section 850.7.
- 63. 62. The Fixed Recovery Charges and FRTAs should be: (i) nonbypassable, (ii) set on an equal cents per kWh basis and (iii) recovered from all existing and future Consumers in

PG&E's Service Territory except for those Consumers participating in the California Alternative Rates for Energy or Family Electric Rate Assistance programs pursuant to Section 850.1(i).

- 64. 63. PG&E's proposal to combine all Fixed Recovery Charges and Customer Credits into single line items identified on Consumers' monthly bills titled "Fixed Recovery Charge" and "Customer Credit" respectively, as further described in Ordering Paragraph ("OP") 401, is consistent with the requirement of Section 850.1(g) that the Fixed Recovery Charge "appear on the Consumer bills", and should be approved.
- 65. 64.-DL Consumers, other than new municipal DL Consumers, shall be obligated to pay Fixed Recovery Charges and any FRTAs using applicable language under existing tariffs and entitled to receive the Customer Credit. In the event that residents of a municipality no longer take transmission and distribution retail service, new municipal DL Consumers would pay the Fixed Recovery Charges and any FRTAs based on one of the following: (i) the last 12 months of the Consumer's recorded pre-departure use; or (2) actual use. The determination of the Customer Credit applicable to such new municipal DL Consumers will be determined by the Commission in a future proceeding, if any, regarding municipalization.
- 66. 65. PG&E and the SPE should account for Fixed Recovery Charges in the manner described in the body of this Financing Order.
- 67. 66. PG&E should act as the initial servicer for Fixed Recovery Charge on behalf of the SPE.
- 68. 67. To the extent Consumers of electricity in PG&E's Service Territory are billed by other entities, PG&E (as servicer for the Recovery Property) should bill such Consumers directly or may require these other entities to bill for the Fixed Recovery Charges and to remit the

Fixed Recovery Charge revenues to PG&E on behalf of such Consumers. Such Consumers shall also be eligible to receive the Customer Credit.

69. 68.—ESPs and other entities that bill and collect the Fixed Recovery Charges and FRTAs from PG&E's Consumers should satisfy the requirements set forth in PG&E's Electric Rule 22.P., "Credit Requirements."

69. Pursuant to Sections 851 and 854, the Commission must authorize any future 70. voluntary or involuntary change in ownership of assets from an electrical or gas corporation to a public entity. 189 In the event such an ownership change affects the payment of rates to PG&E by any Consumers in PG&E's Service Territory, the Commission shall, in the course of authorization, ensure that the new asset owner either (a) continues to bill and collect Fixed Recovery Charges from Consumers and remit such collections to PG&E or a new servicer for the Recovery Bonds or (b) ensures the upfront funding of the Fixed Recovery Charges that would otherwise be paid by Consumers where Fixed Recovery Charge payment would be affected by the ownership change. The Commission's authorization on those terms will effectuate the State's pledge and agreement that the State shall not limit nor alter the Fixed Recovery Charges, Recovery Property, this Financing Order, or any rights under this Financing Order until the Recovery Bonds and Financing Costs are fully paid and discharged. 1920

70. The Bond Trustee (acting on behalf of the SPE) will have a legal right to only 71. the amount of actual Fixed Recovery Charge cash collections. As servicer, PG&E will be legally obligated to remit Fixed Recovery Charge revenues, on behalf of the SPE, to the Bond Trustee.

<sup>&</sup>lt;sup>189</sup>/<sub>4920</sub> §§ 851(a), (b)(1), 854.2(b)(1)(F). <sup>1920</sup>/<sub>4</sub> § 850.1(e).

PG&E should remit the Fixed Recovery Charge revenues in accordance with the procedures described in the body of this Financing Order and the following two Conclusions of Law.

- 71. Amounts collected by PG&E that represent partial payments of a Consumer's bill should be allocated pro rata between the Bond Trustee and PG&E based on the ratio of the amount of the Fixed Recovery Charges and any FRTAs billed to the total billed amount of other rates and charges. In the event Recovery Bonds are issued in multiple series with different SPEs, the Fixed Recovery Charges should be allocated pro rata between the Bond Trustees for each series.
- 73. 72-PG&E, as servicer, is obligated to forward to the Bond Trustee (on behalf of the SPE) only Fixed Recovery Charge cash collections as described below. PG&E will remit the estimated Fixed Recovery Charge revenues to the Bond Trustee on a daily basis to avoid an adverse impact on the Recovery Bond credit ratings. Over the life of the Recovery Bonds, PG&E will prepare a monthly report for the Bond Trustee that shows the estimated Fixed Recovery Charge revenues by month over the life of the Recovery Bonds. Estimated Fixed Recovery Charge collections will be based on historic customer payment patterns. Six months after each monthly billing period, PG&E will compare actual Fixed Recovery Charge revenues to the estimated Fixed Recovery Charge revenues that have been remitted to the Bond Trustee for that month during the intervening 6-month period. The difference between the estimated Fixed Recovery Charge collections and the actual Fixed Recovery Charge collection will be netted against the following month's remittance to the Bond Trustee. The 6-month lag between the first remittance of estimated Fixed Recovery Charge revenues and the final determination of actual Fixed Recovery Charge cash collections allows for the collection process to take its course and is

consistent with PG&E's practice of waiting six months after the initial billing before writing off unpaid customer bills.

- 73. The Bond Trustee should hold all Fixed Recovery Charge collections received from PG&E in a collection account. The Bond Trustee should use the funds held in the collection account to pay the following on a timely basis: (i) Bond principal and interest; (ii) costs for credit enhancements to the extent required by the rating agencies; (iii) servicing fees and administration fees; (iv) Bond Trustee fees; and (v) other Financing Costs.
- 75. 74. The Bond Trustee should invest all funds held in the collection account in investment-grade short-term securities that mature on or before the next Bond payment date. Investment earnings should be retained in the collection account to pay debt service and other Financing Costs.
- 76. 75. If funds, other than investment earnings from amounts held in the capital subaccount, remain in the collection account after distributions are made on a Bond payment date, they should be credited to the excess funds subaccount. All subaccount funds should be available to pay debt service or other Financing Costs. At the time of the filing of the next Routine True-Up Mechanism Advice Letter, the excess funds subaccount balance should be used to offset the revenue requirement for the Fixed Recovery Charges, including but not limited to replenishing the balance of the capital subaccount if necessary.
- 76. After principal, interest and other Financing Costs have been paid for a specific payment period, investment earnings in the capital subaccount earned during such payment period to the extent not needed to pay such amounts, should be paid by the Bond Trustee to the SPE.

  Upon payment of the full principal amount of all Recovery Bonds and the discharge of all obligations that may be paid by use of Fixed Recovery Charges, the Bond Trustee is authorized to

release all amounts in the capital subaccount, including any investment earnings, to the SPE for payment to PG&E.

- 77. PG&E should be authorized to charge an annual servicing fee of 0.05 percent of the initial Bond principal amount, a level estimated to cover the servicer's out-of-pocket costs and expenses in servicing the Recovery Bonds. PG&E should be authorized to charge an annual administration fee of \$100,000 per series. If there are insufficient funds in the Customer Credit Trust to pay the Customer Credit, PG&E should separately credit electric Consumers the amount of the servicing fee and the administration fee.
  - 79. 78. PG&E should not resign as servicer without prior Commission approval.
- 80. 79. If PG&E fails to perform its servicing functions satisfactorily, as set forth in the Servicing Agreement, or is required to discontinue its billing and collecting functions, an alternate servicer nominated by the Bond Trustee should replace PG&E. The new servicer should bill and collect only the Fixed Recovery Charge. The fees paid to the new servicer will be deemed to be approved by the Commission by this Financing Order so long as they are not higher than 0.60 percent of the initial principal amount of the Recovery Bonds.
- <u>81.</u> 80. Before approving a third-party servicer, the Commission should determine that the appointment will not cause the then-current rating of any then outstanding Recovery Bonds to be withdrawn or downgraded.
- 81. PG&E should serve a copy of the advice letters authorized by this Financing Order on any party that requests service.
- 83. 82. The Fixed Recovery Charge and any FRTAs should be imposed on all non-exempt Consumers on an equal cents per kWh basis except for residential rates which shall retain the rate relationships by tier determined by D.15-17-001.

- 83. Although the Bonds will be issued by the SPE, and not by PG&E, the SPE will be a wholly-owned finance subsidiary of PG&E established for the purpose of carrying out this Financing Order of the Commission.
- 85. 84. PG&E should remit to the Commission's Fiscal Office the required Section 1904(b) fee of \$756,000. The SPE should reimburse PG&E for this fee as a cost of issuing the Bonds.
- 86. 85. Notwithstanding Section 1708 or any other provision of law, any requirement under Article 5.8 or this Financing Order that the Commission take action with respect to the subject matter of this Financing Order is binding on the Commission, as it may be constituted from time to time, and any successor agency exercising functions similar to the Commission, and the Commission will have no authority to rescind, alter or amend that requirement in this Financing Order.
- Customer Credit equal to the Fixed Recovery Charges for a period of time, the future Customer Credit Trust balance will first be used (up to the amount of the balance) to make up any previous shortfalls in Customer Credits, including the amount of any FRTA charged on the shortfall. In addition, once the Recovery Bonds, payment of are repaid and all Financing Costs have been paid in full and termination of the Fixed Recovery Charges cease, remaining funds in the Customer Credit Trust will be allocated first to Consumers to make up for any shortfall in the Customer Credit in earlier time periods and thenterminated and the assets liquidated. Consumers will receive 25 percent of any surplus, funds remaining in the Customer Credit Trust after the payment of all the Customer Credit Trust expenses, including anycomputed taxes, will be shared with Consumers.
  - 88. 87. This Financing Order is irrevocable to the extent specified in Section 850.1(e).

- 89. This Financing Order may be supplemented upon the Commission's own motion or a petition by a party to this proceeding, so long as such supplements are not inconsistent with the terms and provisions herein.
- 90. 89. PG&E should be allowed to set its electric rates and charges, other than including any FRTAs but excluding the Fixed Recovery Charges, at levels designed to allow PG&E to recover franchise fees associated with, or imposed on the Fixed Recovery Charges, and PG&E should pay such franchise fees.
- 91. 90. It is appropriate to apply GO 24-C and the Commission's Financing Rule to the Recovery Bonds.
- 91. PG&E should be authorized to report, on behalf of the SPE, all information required by GO 24-C and the Commission's Financing Rule regarding the Recovery Bonds.
- 93. 92. Pursuant to Section 824 and GO 24-C, PG&E should maintain records that: (i) identify the specific Recovery Bonds issued pursuant to this Financing Order, and (ii) demonstrate that the proceeds from the Recovery Bonds have been used only for the purposes authorized by this Financing Order.
- 94. 93. Pursuant to Section 850.1(d), this Financing Order will become effective in accordance with its terms only after PG&E provides the Commission with PG&E's written consent to all the terms and conditions of this Financing Order.
  - 95. 94. There is no need for an evidentiary hearing in this proceeding.
- 96. 95. This Financing Order complies with the provisions of Article 5.8 of the PublicUtilities Code that was enacted by SB 901, as amended by AB 1054 and AB 1513.
- 97. 96. This Financing Order construes, applies, implements, and interprets the provisions of Article 5.8. Therefore, applications for rehearing and judicial review of this

Financing Order are subject to Sections 1731 and 1756. These laws provide that any application for rehearing of this Financing Order must be filed within 10 days of the final Financing Order. The Commission must issue its decision on any application for rehearing within 210 days of the filing for rehearing.

98. 97. The following order should be effective immediately in order to comply with statutory deadlines mandated by Article 5.8.

#### FINANCING ORDER

#### IT IS ORDERED that:

- 1. PG&E is granted authority pursuant to Division 1, Part 1, Chapter 4, Article 5.8 of the Public Utilities Code, subject to the terms and conditions in this Financing Order, to do the following:
  - i. Recover Catastrophic Wildfire Amounts and other Recovery Costs which have been determined by this Commission and allocated to ratepayers pursuant to subdivision (c) of Section 451.2 through the issuance of Recovery Bonds (referred to herein as "Recovery Bonds").
  - ii. Arrange for the issuance of Recovery Bonds as defined by Section 850(b)(9). The total principal amount of the Recovery Bonds shall not exceed \$7.5 billion, and all Recovery Bonds shall be issued on or prior to December 31, 2035.
  - iii. Arrange for the issuance of the Bonds through one or more Financing Entities as that term is defined by Section 850(b)(5). Each Financing Entity shall be a Special Purpose Entity ("SPE") that is formed and wholly owned by PG&E.
  - iv. Apply the Bond proceeds to recover, finance, or refinance Recovery Costs as that term is defined by Section 850(b)(10).
  - v. Arrange for the recovery, via nonbypassable rates and charges, of Fixed Recovery Charges ("Fixed Recovery Charges") as that term is defined by Section 850(b)(7) and Fixed Recovery Tax Amounts ("FRTAs") as that term is defined by Section 850(b)(8).
  - vi. Establish a grantor trust (the "Customer Credit Trust" or "Trust") pursuant to a trust agreement (the "Trust Agreement") to hold funds from which PG&E will provide the Customer Credit (as defined below). The Customer Credit Trust shall be funded starting in 2021 with an initial contribution of \$1.8 billion (the "Initial Shareholder Contribution"). In later years, PG&E shall fund additional shareholder contributions to the Customer Credit Trust of up to \$7.59 billion (the "Cap") based on a formula to calculate the incremental cash generated from reducing taxes through applying shareholder-owned tax deductions or NOLs ("Shareholder Tax Benefits"). Such additional shareholder contributions shall be referred to herein as "Additional Shareholder Contributions." To

the extent the Recovery Bonds are issued in multiple series, the amount of contributions to the Customer Credit Trust of the Initial Shareholder Contribution and Additional Shareholder Contributions, and the amount of the Cap on Shareholder Tax Benefits, shall be pro-rated to equal the same percentage as the percentage of the total \$7.5 billion of Recovery Bonds that are outstanding. The Shareholder Tax Benefits primarily arise from payments made by PG&E's shareholders related to wildfire claims settlements and contributions to the Go-Forward Wildfire Fund. The Customer Credit Trust's assets should also increase over time from investment returns ("Customer Credit Trust Returns"). PG&E will not be obligated to make any other contributions to the Customer Credit Trust.

- vii. The Customer Credit Trust will be authorized to make distributions only to (a) reimburse PG&E for the Customer Credit and (b) reimburse PG&E for any tax liabilities it incurs in respect of the Customer Credit Trust Returns. While the Recovery Bonds are outstanding, PG&E may not withdraw funds from the Customer Credit Trust for any other purpose unless the Commission otherwise directs.
- viii. Credit affected Consumers an amount equal to the Fixed Recovery Charges. The Customer Credit will solely be funded by amounts deposited in the Customer Credit Trust established by PG&E.

  Neither PG&E nor PG&E Corporation shall be obligated to make any other contributions to fund the Customer Credit Trust, and PG&E's commitment to provide or PG&E's ability to provide the Customer Credit, or PG&E's ability to provide Shareholder Tax Benefits cash flows or other amounts to the Customer Credit Trust, shall not limit or alter the Fixed Recovery Charges, the Recovery Property, the SPE's ownership of the Recovery Property, the SPE's separateness from PG&E and PG&E Corporation, this Financing Order, or any rights under this Financing Order.
- 2. The Bonds shall be amortized on a modified mortgage style basis to be determined at the time of issuance in the Issuance Advice Letter, such that principal payments may be made at a reduced amount for the first several payment periods. The legal maturity date of the last series of Bonds shall be no later than 32 years after the date of issuance.
- 3. PG&E may elect to establish one or more SPEs to issue multiple series of Recovery Bonds.

- 4. Any offering of Recovery Bonds shall be structured to be a "Qualifying Securitization" under IRS Revenue Procedure 2005-62.
- 5. The Bonds issued pursuant to this Financing Order shall contain a legend to the following effect: "Neither the full faith and credit nor the taxing power of the State of California is pledged to the payment of principal of, or interest on, this bond."
- 6. In accordance with Section 850.1(h), Recovery Property established by this Financing Order and identified in the Issuance Advice Letter shall be created simultaneously with the sale of such Recovery Property to the SPE, will constitute a current property right and will thereafter continuously exist as property for all purposes.
- 7. The transfer of the Recovery Property by PG&E to an SPE shall be in accordance with Section 850.4, and notwithstanding PG&E's obligation to provide the Customer Credit, shall be treated as an absolute transfer of all of PG&E's right, title, and interest, as in a true sale, and not as a pledge or other financing, of the Recovery Property, other than for federal and state income tax and franchise tax purposes.
- 8. Upon the sale by PG&E of Recovery Property to the SPE, the SPE will have all of the rights originally held by PG&E with respect to the Recovery Property, including the right to exercise any and all rights and remedies to collect any amounts payable by any Consumer in respect of the Recovery Property, including the Fixed Recovery Charges, and to obtain true-up adjustments to the Fixed Recovery Charges pursuant to the True-Up Mechanism, notwithstanding any objection or direction to the contrary by PG&E.
- 9. Acting as initial servicer for the Recovery Property, PG&E shall recover the Fixed Recovery Charges on behalf of an SPE.

- 10. The owners of Recovery Property will be entitled to recover Fixed Recovery Charge revenues in the aggregate amount equal to the principal amount of the associated series of Recovery Bonds, all interest thereon, any credit enhancements, approved Financing Cost not funded with Bond proceeds, servicing and administration fees and all other ongoing Financing Costs with respect to the scheduled payments of the associated series of Recovery Bonds, as well as other amounts payable under any interest rate swap agreement or the indenture pursuant to which the associated series of Recovery Bonds is issued.
- 11. The Fixed Recovery Charges and FRTAs shall be nonbypassable and recovered from existing and future Consumers, as defined in Section 850(b)(3), in PG&E's Service Territory except for Consumers participating in the California Alternative Rates for Energy or Family Electric Rate Assistance programs pursuant to Section 850.1(i). The Fixed Recovery Charges and any FRTAs shall be imposed on all non-exempted Consumers on an equal cents per kWh basis.
- 12. Consumers Except in the case of municipalization, consumers that no longer take transmission and distribution retail service from PG&E after the date of this Financing Order, or that meet relevant criteria in the applicable tariff, shall be treated as departing load (DL)

  Consumers using applicable tariffs for DL Consumers, including E-DCG, and will be subject to pay the Fixed Recovery Charges and any FRTAs and entitled to receive the Customer Credit. DL Consumers shall pay the Fixed Recovery Charges and any FRTAs (and be eligible to receive the associated Customer Credit) based on one of the following: (i) the last 12 months of the Consumer's recorded pre-departure use; (ii) an average derived from the last three years of recorded use; or (iii) actual use. In the event that residents of a municipality no longer take transmission and distribution retail service, new municipal DL Consumers would pay the Fixed

Recovery Charges and any FRTAs<sup>21</sup> based on one of the following: (i) the last 12 months of the Consumer's recorded pre-departure use; or (2) actual use.

- 13. There shall be a separate Fixed Recovery Charge <u>and separate FRTAs</u> for each series of Bonds.
- 14. To implement the Fixed Recovery Charge and any FRTAs for each series of Bonds, PG&E shall file an Issuance Advice Letter in the form, timeframe, and manner described in the body of this Financing Order. The Issuance Advice Letter and the Fixed Recovery Charges established by such Issuance Advice Letter shall become effective at noon on the fourth business day after pricing unless before noon on the fourth business day after pricing the Commission issues an order finding that the proposed issuance does not comply with the requirements set forth in this Financing Order. The SPE identified in the Issuance Advice Letter will constitute a Financing Entity for all purposes of Article 5.8.
- 15. Once Recovery Property is established by this Financing Order, the Recovery Property, Fixed Recovery Charges, FRTAs and other terms and conditions in the Financing Order shall not be adjusted in response to protests, the failure to provide the Customer Credit or the failure of PG&E to make contributions to the Customer Credit Trust as mandated by this Financing Order.
- 16. PG&E shall file a Fixed Recovery Charge tariff no later than 10 days after this Financing Order is mailed. The Fixed Recovery Charge tariff shall be based on the *pro forma* tariff contained in Appendix A of Chapter 8 of A.[ ]. The Fixed Recovery Charge tariff

<sup>&</sup>lt;sup>21</sup> The determination of the Customer Credit applicable to new municipal DL Consumers, however, will be determined by the Commission in a future proceeding, if any, regarding municipalization.

shall be effective simultaneously with the effective date of the Fixed Recovery Charges specified in the first Issuance Advice Letter.

- 17. If necessary to meet rating agency requirements or to address the timing of initial period of Fixed Recovery Charge collections, the Recovery Bonds may have an initial payment period longer or shorter than other payment periods and amortization of principal may be deferred in part in connection with the scheduled payment of debt service on each series of Recovery Bonds during the first two and one half years to three years.
- 18. Total Bond Issuance Costs for all Recovery Bonds are estimated to be between \$36 and 57 million.<sup>202</sup> Estimated costs for the Commission are included in the estimate.
- 19. The SPE may obtain credit enhancements for the Recovery Bonds, but only if: (i) the credit enhancements are required by the rating agencies, or (ii) the all-in cost of the Bonds with the credit enhancements is expected to be less than without the credit enhancements. Any credit enhancement costs collected through the Fixed Recovery Charge, in excess of total debt service and other Recovery Costs, shall be the property of the SPE. After the Recovery Bonds are repaid, all amounts in the collection account, including each subaccount other than the capital subaccount, will be returned to Consumers through a subsequent ratemaking proceeding.
- 20. If required by the rating agencies to obtain the highest possible rating, an overcollateralization subaccount may be established; the overcollateralization amount for such subaccount may be an amount required by such rating agencies. The overcollateralization amount for each series of Bonds, if required by the rating agencies, shall be: (i) set forth in the Issuance

<sup>&</sup>lt;sup>26</sup> This estimate assumes all Recovery Bonds are issued in one series. To the extent, the Recovery Bonds are issued in multiple series, Bond Issuance Costs may be different. Final Bond Issuance Costs for each series will be included in the Issuance Advice Letter for each series.

Advice Letter for each series of Bonds, and (ii) funded in equal amounts on each Bond payment date, or in other such amounts and in such a manner as required by the rating agencies.

- 21. PG&E shall sell or assign all of its interest in Recovery Property arising from or constituting the Fixed Recovery Charge revenues that are the subject of this Financing Order to one or more SPEs as provided in OP 1.
- 22. Subject to compliance with the specific requirements of this Financing Order, including those requirements set forth in the body of this Financing Order and the accompanying Findings of Fact and Conclusions of Law, PG&E and the SPE may establish the terms and conditions of the Bonds, including repayment schedules, terms, payment dates, collateral, credit enhancement, required debt service, reserves, indices and other Financing Costs and features and costs.
- 23. The SPE shall transfer the Bond proceeds (net of estimated Bond Issuance Costs) to PG&E as payment of the purchase price of the Recovery Property.
- 24. The owner of Recovery Property shall have the right to recover principal, interest, and other Financing Costs associated with the Recovery Bonds through the Fixed Recovery Charge authorized in this Financing Order.
- 25. The SPE, as the owner of the Recovery Property, may pledge the Recovery Property as collateral to an indenture trustee to secure payments of principal, interest, servicing and administration expenses, credit enhancements, interest rate swap agreements, and other amounts payable under an indenture pursuant to which Recovery Bonds are issued.
- 26. The SPEs responsible for issuing the Recovery Bonds are exempt from the new affiliate requirements established in D.20-05-053.

- 27. 26. The SPE shall: (i) include one or more independent members on its board of directors in the case of a corporation or a limited liability company, or an independent trustee in the case of a trust; (ii) have restrictions on its ability to declare bankruptcy or to engage in corporate reorganizations; and (iii) limit its activities to those related to the Recovery Bonds.
- 28. 27. After PG&E has sold, assigned, or otherwise transferred its interest in Recovery Property to the SPE, PG&E shall: (i) operate its system to provide service to Consumers in its Service Territory, (ii) act as initial servicer under the transaction documents associated with the related Recovery Bonds, and (iii) as initial servicer, bill and collect amounts in respect of the Fixed Recovery Charges for the benefit and account of the SPE and account for and remit these amounts to or for the account of the SPE.
- 29. 28.-PG&E shall contribute equity to the SPE. The SPE equity, equal to at least 0.50 percent of the total initial Bond principal, shall be pledged to secure the Recovery Bonds and shall be deposited into a capital subaccount in the collection account held by the Bond Trustee. Upon payment of principal, interest and other Financing Costs for a particular payment period, interest earnings earned on the amounts deposited in the capital subaccount, shall be paid to the SPE. Furthermore, upon payment of the full principal amount of all Recovery Bonds and the discharge of all obligations that may be paid by use of Fixed Recovery Charges, all amounts in the capital subaccount, including any investment earnings, shall be released to the SPE for payment to PG&E.
- 30. 29. The Commission shall have full access to the books and records of the SPE. PG&E shall not make any profit from the SPE, except for an authorized return on PG&E's equity investment in the SPE. If the equity capital is drawn upon, it may be replenished via the Fixed Recovery Charges.

- 31. 30. Recovery Bonds will be sold in one or more negotiated offerings through one or more underwriters.
- 31. PG&E shall use the amounts that it derives from the net Bond proceeds to reimburse itself for Catastrophic Wildfire Amounts.
- 33. 32. The Recovery Bonds do not require the Commission's approval pursuant to Sections 701.5, 817 or 818 because those provisions apply to the issuance of debt by a public utility, and the SPE, not PG&E, will issue the Recovery Bonds.
- 34. 33. The Recovery Bonds approved by this Financing Order comply with Section 817(d), (f), (g) and (h) and Section 818, even if those provisions did apply.
- 35. 34. PG&E is authorized pursuant to Section 823(d) to refund its temporary utility debt in connection with issuance of the Recovery Bonds.
- 36. 35. To the extent funds are available in the Customer Credit Trust, PG&E shall provide the Customer Credit using funds in the Customer Credit Trust to the extent such funds are available, and other sources identified in Table 1 attached hereto as Attachment 9, to affected Consumers in an amount equal to the Fixed Recovery Charges to be paid by such Consumers, provided, however, that: (i) except with respect to PG&E's commitment to contribute the Initial Shareholder Contribution and Additional Shareholder Contributions to the Customer Credit Trust as described in OP 1, neither PG&E nor PG&E Corporation shall be obligated to make any other contributions to the Customer Credit Trust and (ii) PG&E's failure make any such contribution or to provide the Customer Credit to any Consumer shall not in any way permit the Commission to rescind, amend or alter the financing order, or otherwise, revalue or revise for ratemaking purposes the recovery costs or the costs of recovering, financing, or refinancing the recovery costs, in any way to reduce or impair the value of Recovery Property, including by either directly or indirectly

by taking Fixed Recovery Charges into account when setting other rates for PG&E. PG&E's failure to pay the Customer Credit also shall not impair the characterization of the sale, assignment or transfer of the recovery property to the SPE as an absolute transfer and true sale or affect or impair the SPE's ownership of the recovery property or the SPE's separateness from PG&E and PG&E Corporation.

- 37. 36. The Customer Credit Trust shall be governed by a committee composed of five members, three of whom will be independent of PG&E. Members of the Committee would be nominated by PG&E management and confirmed by PG&E's board of directors. No more than two of the members may be employees, officers, agents or otherwise affiliated with PG&E except with respect to their service as members on the Committee. At least three members will be independent, whose nominations to the Committee will be confirmed by the Commission as well as PG&E's board of directors.
- 38. 37. Without further action from the Commission, PG&E shall be permitted to make withdrawals from the Customer Credit Trust as necessary to pay the Customer Credit.
- 29. 38. Once all If assets in the Customer Credit Trust are insufficient to fund a Customer Credit equal to the Fixed Recovery Charges for a period of time, the future Customer Credit Trust balance will first be used (up to the amount of the balance) to make up any previous shortfalls in Customer Credits, including the amount of any FRTA charged on the shortfall. In addition, once the Recovery Bonds are repaid and all Financing Costs have been paid in full and the Fixed Recovery Charges cease, remaining funds in the Customer Credit Trust will be allocated first to Consumers to make up for any shortfall in the Customer Credit in earlier time periods and then terminated and the assets liquidated. Consumers will receive 25 percent of any surplus, funds

remaining in the Customer Credit Trust after the payment of all the Customer Credit Trust expenses, including anycomputed taxes, will be shared with Consumers.

- 40. 39. Beginning in the first month, the Fixed Recovery Charges and the Customer Credit will appear on the bill of each Consumer in the Service Territory. PG&E shall be permitted to make regular monthly withdrawals from the Customer Credit Trust to reimburse itself for the Customer Credit in accordance with the terms of the Trust Agreement, and PG&E shall be entitled to net amounts with the Customer Credit Trust to determine a new withdrawal from or contribution to the Customer Credit Trust. If, however, the total amount of the Customer Credit is subsequently limited by the available balance in the Customer Credit Trust such that an adjustment to the Customer Credit is necessary, PG&E shall file a Tier 1 Advice letter at least 15 days before the beginning of the month to implement the adjustment.
- 41. 40. PG&E's monthly Consumer bill shall disclose the amount of the Fixed Recovery Charges and Customer Credit, that the Fixed Recovery Charge revenues are being transferred to the SPE, that PG&E is collecting the Fixed Recovery Charges on behalf of the SPE, and that the Fixed Recovery Charges do not belong to PG&E. PG&E shall be permitted to combine all Fixed Recovery Charges and Customer Credits into single line items identified on Consumers' monthly bills titled "Fixed Recovery Charge" and "Customer Credit" respectively. The back of the monthly bill shall provide a description of the "Fixed Recovery Charge" and "Customer Credit" as set forth in the body of this Financing Order.
- 42. 41. If, subsequent to the issuance of the Financing Order, PG&E receives additional insurance proceeds, tax benefits other than Shareholder Tax Benefits or other amounts or reimbursements for Catastrophic Wildfire Amounts included in the Recovery Costs addressed in this Financing Order, PG&E shall credit customers, in a manner determined at the time by the

Commission, but the Commission may not adjust, amend or modify the Recovery Costs, Fixed Recovery Charges, the FRTAs, this Financing Order, the Recovery Property, or the Recovery Bonds. In the event PG&E receives such insurance proceeds, tax benefits or other amounts related to Catastrophic Wildfire Amounts included in Recovery Costs, it shall pledge to credit Consumers for such amounts over the subsequent twelve month period and the Customer Credit shall be adjusted accordingly for that period.

- 43. 42. If a Consumer makes only partial payment of a bill, PG&E and any successor servicer shall allocate amounts collected from that Consumer pro rata among the Fixed Recovery Charges, the FRTAs and other rates and charges.
- 44. 43. If a PG&E Consumer fails to pay the Fixed Recovery Charge or FRTAs, PG&E may shut-off power to such Consumer in accordance with Commission-approved shut-off policies; provided, however, that temporary changes in utility shut-off procedures due to emergencies, such as the current coronavirus disease 2019 pandemic, will be permitted.
- 45. 44. The True-Up Mechanism for adjusting the Fixed Recovery Charge that is described in the body of this Financing Order and the accompanying Conclusions of Law, including the use of an advice letter process, is adopted. The Commission's authority under Article 5.8 and pursuant to Section 850.1(g) to authorize periodic true-up adjustments shall persist until the Recovery Bonds and all Financing Costs are fully paid and discharged, and shall not expire like the Commission's authority to issue financing orders in the first instance under Section 850.6.
- 46. 45. PG&E shall submit annual Routine True-Up Mechanism Advice Letters, semi-annual Routine True-Up Mechanism Advice Letters and more frequent, if necessary, interim Routine True-Up Mechanism Advice Letters in the form, timeframe, and manner described in the

body of this Financing Order and the accompanying Conclusions of Law. The adjustments to the Fixed Recovery Charges specified in these advice letters shall go into effect automatically in the timeframe addressed in this Financing Order and the advice letter. <u>Annual Routine True-Up</u>

Mechanism Advice Letters shall also address any FRTAs.

- 47. 46. PG&E shall submit Non-Routine True-Up Mechanism Advice Letter filings to propose revisions to the logic, structure, or components of the cash flow model described in Attachment 1 of this Financing Order as modified in the body of this Financing Order. Absent a Commission resolution modifying or rejecting proposed changes to the cash flow model, PG&E or a successor servicer may implement Fixed Recovery Charge adjustments proposed in a Non-Routine True-Up Mechanism Advice Letter on the effective date identified in the advice letter. The submission or approval of any Non-Routine True-Up Mechanism Advice Letter shall not affect or alter the finality or irrevocably of this Financing Order, or of any Fixed Recovery Charges approved hereunder.
- 48. 47. All true-up adjustments to the Fixed Recovery Charge shall ensure the billing of Fixed Recovery Charges necessary to correct for any overcollection or undercollection of the Fixed Recovery Charges authorized by this Financing Order and to otherwise ensure the timely provision for all scheduled (or legally due) payments of principal (including, if any, prior scheduled but unpaid principal payments), interest, all amounts payable to any swap counterparty in connection with the related series of Bonds, and any other amounts due in connection with the related series of Bonds (including ongoing fees and expenses and amounts required to be deposited in or allocated to any collection account or subaccount) during the current or next succeeding payment period. Such amounts are referred to as the Periodic Payment Requirement. True-up filings shall be based upon the cumulative differences, regardless of the reason, between the

Periodic Payment Requirement and the actual amount of Fixed Recovery Charge collections remitted to the Bond Trustee for the series of Bonds.

- 49. 48. When PG&E files annual Routine True-Up Mechanism Advice Letters to adjust the Fixed Recovery Charges and any FRTAs, PG&E will also file Tier 1 Advice Letters to adjust the Customer Credit to equal the adjusted Fixed Recovery Charges. PG&E shall file annual Tier 1 Advice Letters at least 15 days before the last day of February until all Recovery Bonds and other ongoing Financing Costs have been paid in full and the Fixed Recovery Charges cease and the revised Customer Credits in the annual Tier 1 Advice Letters (assuming timely filing by PG&E with the Commission) shall go into effect automatically on March 1st immediately following the filing.
- 49.-If PG&E files an interim Routine True-Up Mechanism Advice Letter to adjust the Fixed Recovery Charges, PG&E will also file a Tier 1 Advice Letter to adjust the Customer Credit to equal the adjusted Fixed Recovery Charges. In the case of a semi-annual interim Routine True-Up Mechanism Advice Letter, PG&E shall file an interim Tier 1 Advice Letter at least 15 days before August 31st to adjust the Customer Credit, and the revised Customer Credit would go into effect automatically on September 1st immediately following the filing. In the case of any other interim Routine True-Up Mechanism Advice Letter, PG&E will file an interim Tier 1 Advice Letter at least 15 days before the end of a calendar month, and the revised Customer Credit would be effective automatically on the 1st day of the following calendar month.
- 51. 50. The Tier 1 Advice Letters described in OPs 489 and 4950 of this Financing Order shall be ministerial, and will go into effect automatically on the dates described therein.
- 52. 51. If PG&E submits a Non-Routine True-Up Mechanism Advice Letter to adjust the Fixed Recovery Charges, PG&E will also file a Tier 1 Advice Letter to adjust the Customer

Credit. A non-routine Tier 1 Advice Letter shall be filed at least 90 days before the date when the proposed changes would become effective, with the resulting changes effective on the effective date identified in the Tier 1 Advice Letter. Absent a Commission resolution, PG&E may implement Customer Credit adjustments proposed in a non-routine Tier 1 Advice Letter on the effective date identified in the letter.

- 53. 52. Each year, PG&E will project the balance of the Customer Credit Trust for the upcoming year. If the projected balance is less than the annual projected Fixed Recovery Charges for the year, PG&E shall file a Tier 1 Advice letter to reduce the Customer Credit such that the projected Customer Credit for the following 12 months equals the projected balance of the Customer Credit Trust at the end of the year. PG&E will seek to file this Tier 1 Advice letter at least 15 days before the end of February, such that the revised Customer Credit will be effective automatically on the first day of the following calendar month.
- 54. 53. PG&E and the SPE shall account for revenues and credits from the Fixed Recovery Charges, the Customer Credit Trust and the Customer Credit as described in the body of this Financing Order and the accompanying Conclusions of Law.
- 55. 54. PG&E is authorized to establish for each series of Bonds, an account for purposes of tracking the revenues associated with the income tax gross-up (the amount of income taxes in the annual adopted Commission revenue requirement that match Shareholder Tax Benefits utilization and the Initial Shareholder Contribution). The account will also recognize the amounts credited to Consumers' bills through the Customer Credit
  - <u>56.</u> Shall not resign as servicer without prior approval from the Commission.
- <u>57.</u> <u>56.</u> An annual servicing fee shall be paid to PG&E or any successor servicer. The annual servicing fee paid to PG&E shall be 0.05 percent of the initial principal amount of the

Bonds as estimated to cover out-of-pocket costs and expenses of PG&E, as servicer. The annual fee paid to a successor servicer, unless subsequently approved by this Commission, shall be no greater than 0.60 percent of the initial principal amount of the Bonds, as required by the rating agencies to receive the highest possible Bond ratings. If PG&E shall credit electric Consumers the amount of these servicing fees, including in periods when there are insufficient funds in the Customer Credit Trust to fully fund the Customer Credit, PG&E shall separately credit electric Consumers the amount of these servicing fees.

- 58. 57. An annual administration fee will be paid to PG&E as administrator of the SPE. The annual administration fee shall be \$100,000 per series of Bonds. HPG&E shall credit electric Consumers the amount of this administration fee, including in periods when there are insufficient funds in the Customer Credit Trust to fully fund the Customer Credit, PG&E shall separately credit electric Consumers the amount of this administration fee.
- 59. 58. If Consumers of electricity in PG&E's Service Territory are billed by other entities, PG&E (as servicer for the Recovery Property) shall bill the Consumers directly or may require these other entities to bill for the Fixed Recovery Charges and to remit the Fixed Recovery Charge revenues to PG&E on behalf of such Consumers. Such Consumers shall be entitled to receive the Customer Credit equal to the amount of Fixed Recovery Charges collected and remitted to PG&E.
- <u>60.</u> <u>59.</u> ESPs and other third parties that bill and collect the Fixed Recovery Charges and any FRTAs from PG&E's Consumers shall satisfy the requirements set forth in PG&E's Electric Rule 22.P.
- 61. 60. In the course of authorizing any future change in ownership of assets from PG&E to a public entity as described in COL 6970, the Commission shall establish conditions

which either: (i) ensure the up-front funding of the Fixed Recovery Charges that would otherwise be paid by Consumers in PG&E's Service Territory whose rate payment would be affected by the ownership change; or (ii) establish procedures to ensure the continued billing and collection of Fixed Recovery Charges from those Consumers and remittance of such collections to PG&E.

- 62. 61. The Commission will not approve the appointment of any third-party servicer of Recovery Property without first determining that: (i) such approval will not cause any then-current credit rating of any then outstanding Recovery Bonds to be withdrawn or downgraded, and (ii) the servicing fee paid to the third-party servicer is reasonable. A servicing fee payable to a third-party servicer that is no higher than 0.60 percent of the initial principal amount of the Recovery Bonds is deemed by this Financing Order to be reasonable.
- 63. 62. PG&E shall remit Fixed Recovery Charge revenues to the Bond Trustee, on behalf of the SPE, in accordance with the procedures described in the body of this Financing Order and the accompanying Conclusions of Law.
- 64. 63. The Bond Trustee shall: (i) account for all funds as described in the body of this Financing Order and the associated Conclusions of Law; (ii) invest all funds in investment-grade short-term debt securities; and (iii) make principal and interest payments to Bond investors and pay other Financing Costs.
- 65. 64. In the event of a default by PG&E in transferring the Fixed Recovery Charge revenues to the Bond Trustee on behalf of the SPE, the following parties may petition the Commission to order the sequestration and payment to the Bond Trustee for the benefit of the SPE of revenues arising from the Recovery Property: (a) the holders of the Recovery Bonds and the Bond Trustees or representatives thereof as beneficiaries of any statutory or other lien permitted by

the Public Utilities Code, (b) the SPE or its assignees, and (c) pledgees or transferees, including transferees under Section 850.4, of the Recovery Property.

- 66. 65. All regulatory approvals within the jurisdiction of the Commission that are necessary for the securitization of the Fixed Recovery Charges associated with Recovery Costs that are the subject of A.[ ], the issuance of the Recovery Bonds and all related transactions contemplated in the application, are hereby granted.
- 67. 66. Pursuant to Section 824 and GO 24-C, PG&E shall maintain records that: (i) identify the specific Recovery Bonds issued pursuant to this Financing Order, and (ii) demonstrate that the proceeds from the Recovery Bonds have been used only for the purposes authorized by this Financing Order.
- 68. 67. PG&E shall report, on behalf of the SPE, all information required by GO 24-C and the Commission's Financing Rule regarding the Recovery Bonds.
- 69. 68. This Financing Order shall become effective in accordance with its terms and conditions only when PG&E provides its written consent to all terms and conditions of this Financing Order. This Financing Order shall be void and of no force or effect if PG&E does not provide its written consent to all terms and conditions of this Financing Order.
- 70. 69. PG&E shall file and serve within 10 days from the date this Financing Order is mailed a written statement that either: (i) PG&E consents to all terms and conditions of this Financing Order, or (ii) PG&E does not consent to all terms and conditions of this Financing Order. If the latter, PG&E's written statement shall identify the specific terms and conditions it does not consent to and explain why it does not consent to these terms and conditions.
- 71. 70. Following PG&E's written consent, this Financing Order, together with the Fixed Recovery Charges authorized by this Financing Order, shall be binding upon PG&E and any

successor to PG&E that provides electric distribution service directly to Consumers of electricity within PG&E's Service Territory.

71. On or after the effective date of this Financing Order, upon the request of PG&E, the SPE, the indenture trustee in connection with a series of Recovery Bonds ("Bond Trustee"), or all of them, the Commission's General Counsel shall execute and deliver the following to PG&E, the SPE, and/or the Bond Trustee: (i) a certificate that attaches a true, correct, and complete copy of this Financing Order and certifies such copy to be the act and deed of this Commission; (ii) a certificate that states this Financing Order has not been altered, rescinded, amended, modified, revoked, or supplemented as of the date of the closing of any series of Recovery Bonds authorized by this Financing Order; and (iii) a certificate that states the Commission has reviewed and approved each series of Recovery Bonds in accordance with this Financing Order.

73. Within 10 days from the date when all preconditions to the issuance of the Bonds have been satisfied, and in any event prior to the issuance of the first series of Bonds, PG&E shall remit a check to the Commission's Fiscal Office in the amount of \$756,000 to pay fees related to Section 1904, and the SPE shall reimburse PG&E for such payment. The decision number of this Financing Order shall be written on the face of the check.

- 74. 73. A.[ ] is granted as set forth in the previous Ordering Paragraphs.
- <u>75.</u> This proceeding is closed.

This order is effective today.

Dated [ ], 20[], at San Francisco, California.

## Attachment 1 Description of Cash Flow Model

#### Introduction

The purpose of this attachment is to describe the cash flow model used to calculate the Fixed Recovery Charge ("FRC") or the Fixed Recovery Tax Amount ("FRTA") for electric customers. FRC rates will be calculated separately for each series of Recovery Bonds ("Bonds") issued.

The remainder of this attachment is organized as follows:

- Overview of the Bond Cash Flow Model; and
- FRC rate calculation.

### **Overview of the Bond Cash Flow Model**

The Bond cash flow spreadsheet models the expected annual revenue requirement of the Bonds based on assumptions for the electric load forecast for the forthcoming year, annual debt service of the Bonds, losses on collections from customers, and ongoing expenses such as overcollateralization, servicing and trustee fees. The model determines the annual FRC revenue requirement and rate for electric customers necessary to collect sufficient funds to pay the interest and principal on the Bonds, as well as the servicing fees, trustee fees, credit rating agency fees, and other necessary fees.

#### **FRC Rate Calculation**

The Bond cash flow model will calculate one FRC rate that will apply to electric customers. The initial FRC rate will be determined as described below:

- Step 1: Determine the electric sales forecast for eligible electric customers for the forthcoming year.
- Step 2: Determine all components to be covered by FRC revenue requirement in each year. These components include Bond principal, interest, and other financing costs. 42

This model assumes that FRC collections will be remitted daily and held by the Bond Trustee in a collection account for distribution on semi-annual payment

<sup>1</sup> The Cash Flow Model described in this Attachment 1 is applicable to both the FRC and the FRTA, and references to the FRC throughout this Attachment 1 include the FRTA.

<sup>&</sup>lt;sup>42</sup> Uncollectible billed FRC charge revenue and the timing of the remittances based on servicing procedures and delinquencies will each affect cash flow available to cover the tariff components and, consequently, will each be factored into the FRC charge as a component.

dates. The model also assumes a collection curve, such that when applied to the billed revenue for a given day the collection curve will map that day's billed revenue into expected daily cash receipts over the following 180 days, with any amount unpaid at 180 days assumed to be uncollectible.

Step 3: The rate per kWh for the year will equal the sum of the components covered by the FRC for the year divided by the estimated eligible sales for that year:

For the forecast year, Rate/kWh = FRC Revenue Requirement / Estimated Sales

Pacific Gas and Electric Company ("PG&E") has calculated an illustrative rate of 0.541 cents per kWh based on eligible sales of 72,933 gigawatt-hours and an annual revenue requirement of \$394.7 million (the "FRC Revenue Requirement"). The actual rate implemented for recovery of the Bond would be based on PG&E's then current estimate of eligible sales.

## Attachment 2 Form of Issuance Advice Letter

[date]
AdviceE (Pacific Gas and Electric Company ID [ ])
Public Utilities Commission of the State of California
Subject: Issuance Advice Filing for Recovery Bonds
Pursuant to California Public Utilities Commission (CPUC) Decision (D.) [ ] (Decision), Pacific Gas and Electric Company (PG&E) hereby transmits for filing, one day after the pricing date of this series of Recovery Bonds, the initial Fixed Recovery Charges for the series. This Issuance Advice Filing is for the Recovery Bonds series, tranche(s)
Purpose
This filing establishes initial Fixed Recovery Charges for rate schedules for Consumers. This filing also establishes the Recovery Property to be sold to the Recovery Property Owner (Special Purpose Entity or SPE).
Background
In Decision [ ], the Commission authorized PG&E to file Issuance Advice Letters when find terms and pricing for Recovery Bonds have been established. Issuance Advice Letter filings are those in which PG&E uses the bond sizing methodology and Fixed Recovery Charge formulas found reasonable by the Commission in Decision [ ] to establish initial Fixed Recovery Charges for a series of Recovery Bonds. Using the methodology approved by the Commission in Decision [ ], this filing establishes Fixed Recovery Charges.
<u>Issuance Information</u> :
Decision [ ] requires PG&E to provide the following information.
Recovery Bond Name:
Recovery Property Owner (SPE):
Bond Trustee(s):
Closing Date:
Bond Rating:
Amount Issued:
Issuance Costs:

Bond Issuance Costs as a Percent of Amount Issued:
Recovery Costs Financed:
Coupon Rate(s):
Call Features:
Expected Principal Amortization Schedule: See Exhibit 1
Scheduled Final Payment Date:
Legal Maturity Date:
Distributions to Investors (quarterly or semi-annually):
Annual Servicing Fee as a percent of the issuance amount:
Overcollateralization amount for the series, if any: Principal Amount of Recovery Property Established:

### **Bond Issuance Costs**

<b>Bond Issuance Costs</b>	
Underwriter Fees and Expenses	\$
Legal Fees and Expenses	
SEC Registration Fees	
Rating Agency Fees	
Accounting Fees and Expenses	
Section 1904 Fees <sup>1</sup>	
Printing/Edgarizing Costs	
Bond Trustee Fees and Expenses	
Original Issue Discount	
Miscellaneous	
Costs of the Commission	
Total	\$
Note 1: Section 1904 Fees computed by today's Order.	

## True-Up Mechanism

Not less often than semi-annually, the servicer will compare the actual principal amortization with the scheduled principal amortization as set forth in Exhibit 1. If the servicer forecasts that Fixed Recovery Charge collections will be insufficient to make all scheduled payments of bond principal, interest, and related costs on a timely basis during the current or next succeeding payment period or to replenish any draws upon the capital subaccount, a change to the Fixed Recovery Charges will be requested via a Routine True-Up Mechanism Advice Letter or Non-Routine True-Up Mechanism Advice Letter in accordance with Decision [ ].

## **Ongoing Financing Costs**

The following table includes estimated ongoing Financing Costs to be recovered through Fixed Recovery Charges in accordance with the Financing Order.

Estimated Ongoing Financing Costs	5
Servicing Fee (PG&E as Servicer) ([##]% of the initial Recovery Bond principal amount	\$
Administration Fee	
Accountant's Fee	
Legal Fees/Expenses for Company's/Issuer's Counsel	
Bond Trustee's / Bond Trustee's Counsel Fees and Expenses	
Independent Managers' Fees	
Rating Agency Fees	
Printing/Edgarizing Fees	
Miscellaneous	
TOTAL ONGOING FINANCING COSTS (with PG&E as Servicer)	\$
Ongoing Servicers Fee (Third Party as Servicer) (0.60 % of initial principal amount)	
TOTAL ONGOING FINANCING COSTS (Third Party as Servicer)	\$

## **Fixed Recovery Charges**

Table 1 below shows the current assumptions for each of the variables used in the Fixed Recovery Charges calculation.

TABLE 1	
Input Values For Fixed Recovery Charges	
kWh sales for the applicable period	
Percent of revenue requirement allocated to Consumers	
Percent of Consumers ' revenue written off	
Percent of Consumers' billed amounts expected to be uncollected	
Percent of billed amounts collected in current month	
Percent of billed amounts collected in second month after billing	
Percent of billed amounts collected in third month after billing	
Percent of billed amounts collected in fourth month after billing	
Percent of billed amounts collected in fifth month after billing	
Percent of billed amounts collected in sixth month after billing	
Ongoing Financing Costs for the applicable period	
Expected Fixed Recovery Charges outstanding balance as of//	

Table 2 shows the initial Fixed Recovery Charges calculated for Consumers. The Fixed Recovery Charge and FRTA, if any, calculations are shown in Exhibit 2.

TABLE 2	
Consumers Fixed Recovery Charge <sup>1</sup>	¢/kWh
Consumers Fixed Recovery Tax Amount <sup>1</sup>	<u>¢/kWh</u>

Exhibit 3 includes proposed changes to [Part I of PG&E's Preliminary Statement] to show Fixed Recovery Charges and FRTAs, if any, to be effective , [year].

## **Recovery Property**

Recovery Property is the property described in Public Utilities Code Section 850(b)(11) relating to the Fixed Recovery Charges set forth herein, including, without limitation, all of the following:

- (1) The right, title and interest in and to the Fixed Recovery Charges set forth herein, as adjusted from time to time.
- (2) The right to be paid the total amounts shown on Attachment 2.
- (3) The right, title and interest in and to all revenues, collections, claims, payments, money, or proceeds of or arising from the Fixed Recovery Charges, as set forth herein.
- (4) All rights to obtain adjustments to the Fixed Recovery Charges under the True-Up Mechanism.

These Fixed Recovery Charges, as adjusted from time to time, shall remain in place until the total amounts in Exhibit 2 are paid in full to the owner of the Recovery Property, or its assignee(s).

### **Effective Date**

In accordance with Decision [ ], unless before noon on the fourth business day after pricing the Commission issues an order finding that the proposed issuance does not comply with (i) Article 5.8, (ii) the Financing Order or (iii) the requirements of this Issuance Advice Letter, the Issuance Advice Letter and the Fixed Recovery Charges and FRTAs established by an Issuance Advice Letter will be effective automatically at noon on the fourth business day after pricing, and pursuant to Section 850.1(h), the Recovery Property established by the Financing Order, will come into being simultaneously with the sale of the Recovery Property to the SPE. The Fixed Recovery Charges and FRTAs, if any, will continue to be effective, unless they are changed by a subsequent True-Up Mechanism Advice Letter. All of the Recovery Property identified herein constitutes a current property right and will continuously exist as property for all purposes.

<sup>&</sup>lt;sup>1</sup> For residential rates, PG&E proposes to retain the rate relationships by tier determined by D.15-07-001 with the addition of the Fixed Recovery Charges and Customer Credit and any FRTA.

### **Description of Exhibits**

Exhibit 1 to this advice filing presents the scheduled principal amortization schedule for the Fixed Recovery Charges.

Exhibit 2 presents the Fixed Recovery Charges calculations.

Exhibit 3 provides proposed changes to Part I of PG&E's Preliminary Statement.

## Attachment 3 Form of Routine True-Up Mechanism Advice Letter

[date]
ApplicationE (Pacific Gas and Electric Company ID [ ])
Public Utilities Commission of the State of California
Subject: Routine [Annual] / [Semi-Annual] / [Interim] Advice Filing for Fixed Recovery Charges True-up Mechanism
Pursuant to California Public Utilities Commission (CPUC) Decision (D.) [ ] (Decision), Pacific Gas and Electric Company (PG&E), as servicer of the Recovery Bonds (Recovery Bonds) and on behalf of the Special Purpose Entity, hereby applies for adjustment to the Fixed Recovery Charge for series, Tranche(s) of the Recovery Bonds.
Purpose
This filing establishes revised Fixed Recovery Charges and FRTAs for rate schedules for Consumers, as set forth in D. [ ].
Background
In D. [ ], the Commission granted PG&E authority to issue Recovery Bonds to pay Catastrophic Wildfire Amounts and associated financing costs, and consequently to reduce PG&E's electric rates.
Recovery Bonds are securities that are backed by the cash flows generated by a specific asset that will be sold by PG&E to a Special Purpose Entity that issued the Recovery Bonds secured by this asset. The asset sold is Recovery Property, a current property right that was created by Article 5.8 as the right, title and interest in and to all (i) Fixed Recovery Charges established pursuant to the Financing Order, including all rights to obtain adjustments, and (ii) revenues, collections, claims, payments, moneys, or proceeds of or arising from the Fixed Recovery Charges that will cover debt service and all related Recovery Bond costs.
In D. [ ], the Commission authorized PG&E to file Routine True-up Mechanism Advice Letters at least annually, and more frequently as permitted in the Financing Order, (i) at least 15 days before the last day of February for annual filings, (ii) at least 15 days before August 31 for semi-annual filings and (iii) at least 15 days before the end of the month for interim filings. These filings are intended to ensure that the actual revenues collected under the Fixed Recovery Charges will be sufficient to make all scheduled payments of Bond principal, interest, and other financing costs on a timely basis during the current or next succeeding payment period or to replenish any

draws upon the capital subaccount. Routine True-up Mechanism Advice Letter filings are those where PG&E uses the method found reasonable by the Commission in D.[ ] to revise existing

Fixed Recovery Charges and FRTAs.

Using the method approved by the Commission in D. [ ], this filing modifies the variables used in the Fixed Recovery Charge calculations and provides the resulting modified Fixed Recovery Charges.

Table 1 shows the revised assumptions for each of the variables used in calculating the Fixed Recovery Charges for Consumers. Exhibit 1 shows the revised payment schedule.

TABLE 1	
Input Values For Revised Fixed Recovery Charges	
kWh sales for the applicable period	
Percent of Consumers' revenue written off	
Percent of revenue requirement allocated to Consumers	
Percent of Consumers' billed amounts expected to be uncollected	
Percent of billed amounts collected in current month	
Percent of billed amounts collected in second month after billing	
Percent of billed amounts collected in third month after billing	
Percent of billed amounts collected in fourth month after billing	
Percent of billed amounts collected in fifth month after billing	
Percent of billed amounts collected in sixth month after billing	
Percent of billed amounts remaining less uncollectibles	
Ongoing Financing Costs for the applicable period	
Expected Fixed Recovery Charges outstanding balance as of//	
Over- or undercollection of principal from previous Fixed Recovery Charge collections	
to be reflected in the new Fixed Recovery Charges	

Table 2 shows the revised Fixed Recovery Charges calculated for Consumers. The Fixed Recovery Charge and FRTA, if any, calculations are shown in Exhibit 2.

TABLE 2	
Consumer Fixed Recovery Charge <sup>1</sup>	¢/kWh
Consumers Fixed Recovery Tax Amount <sup>1</sup>	¢/kWh

Exhibit 3 includes proposed changes to Part I of PG&E's Preliminary Statement to show Fixed Recovery Charges and FRTAs, if any, to be effective March 1, [September 1, if semi-annual Routine True-Up Mechanism Advice Letter] [or month, if interim Routine True-Up Mechanism Advice Letter][year].

#### **Effective Date**

[If annual Routine True-Up Mechanism Advice Letter]

<sup>&</sup>lt;sup>1</sup> For residential rates, PG&E proposes to retain the rate relationships by tier determined by D.15-07-001 with the addition of the Fixed Recovery Charges and Customer Credit.

In accordance with D. [ ], Routine True-Up Mechanism Advice Letters for required annual Fixed Recovery Charge adjustments shall be filed at least 15 days before last day of February and these adjustments to Fixed Recovery Charges and FRTAs shall be effective on March 1. No Commission resolution is required. Therefore, these Fixed Recovery Charges and any FRTAs shall be effective March 1, [year] through February 28, [year], unless they are changed by an interim adjustment prior to February 28, [year].
[If semi-annual Routine True-Up Mechanism Advice Letter] In accordance with D. [ ], semi-annual Routine True-Up Mechanism Advice Letters for interim Fixed Recovery Charge adjustments shall be filed at least 15 days before the end of [August] and these adjustments to Fixed Recovery Charges shall be on September 1, [ ]. No Commission resolution is required. Therefore, these Fixed Recovery Charges shall be effective September 1, [year] through February 28, [year], unless they are changed by an interim adjustment prior to February 28, [year].
[If interim Routine True-Up Mechanism Advice Letter] In accordance with D. [ ], interim Routine True-Up Mechanism Advice Letters for interim Fixed Recovery Charge adjustments shall be filed at least 15 days before the end of the month and these adjustments to Fixed Recovery Charges shall be effective at the beginning of the next month. No Commission resolution is required. Therefore, these Fixed Recovery Charges shall be effective [month] 1, [year] through February 28, [year], unless they are changed by an interim adjustment prior to February 28, [year].
<b>Description of Exhibits</b>
Exhibit 1 to this advice filing presents the revised principal amortization schedule for the Fixed Recovery Charges.
Exhibit 2 presents the revised Fixed Recovery Charge calculations.
Exhibit 3 provides proposed changes to Part I of PG&E's Preliminary Statement.
Notice
In accordance with General Order 96-B Section 4.4, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list. Address changes should be directed to [ ] at (415) [ - ]. Advice letter filings can also be accessed electronically at: http://www.pge.com/tariffs

## Attachment 4 Form of Non-Routine True-Up Mechanism Advice Letter

[date]
ApplicationE (Pacific Gas and Electric Company ID [ ])
Public Utilities Commission of the State of California
<b>Subject:</b> Non-Routine Advice Filing for Fixed Recovery Charges True-up Mechanism
Pursuant to California Public Utilities Commission (CPUC) Decision (D.) [ ] (Decision), Pacific Gas and Electric Company (PG&E), as servicer of the Recovery Bonds (Recovery Bonds) and on behalf of the Special Purpose Entity, hereby applies for adjustment to the Fixed Recovery Charge for series, Tranche(s) of the Recovery Bonds.
Purpose
This filing establishes revised Fixed Recovery Charges for rate schedules for Consumers, as set forth in D. [ ].
Background
In D. [ ], the Commission granted PG&E authority to issue Recovery Bonds to pay Catastrophic Wildfire Amounts and associated financing costs, and consequently to reduce PG&E's electric rates.
Recovery Bonds are securities that are backed by the cash flows generated by a specific asset that will be sold by PG&E to a Special Purpose Entity that issued the Recovery Bonds secured by this asset. The asset sold is Recovery Property, a current property right that was created by Article 5.8 as the right, title and interest in and to all (i) Fixed Recovery Charges established pursuant to the Financing Order, including all rights to obtain adjustments, and (ii) revenues, collections, claims, payments, moneys, or proceeds of or arising from the Fixed Recovery Charges that will cover debt service and all related Recovery Bond costs.
In D. [ ], the Commission authorized PG&E to file Non-Routine True-up Mechanism Advice Letters at least annually, and more frequently as permitted in the Financing Order, to propose revisions to the logic, structure and components of the cash flow model adopted by the Financing Order. These filings are intended to ensure that the actual revenues collected under the Fixed Recovery Charges will be sufficient to make all scheduled payments of Bond principal, interest, and other financing costs on a timely basis during the current or next succeeding payment period or to replenish any draws upon the capital subaccount. Non-Routine True-up Mechanism Advice

Letter filings are those where PG&E uses the method found reasonable by the Commission in D. [ ] to revise existing Fixed Recovery Charges.

Using the cash flow model attached to this Non-Routine True-Up Mechanism Advice Letter as Exhibit 1, this filing modifies the variables used in the Fixed Recovery Charge calculations and provides the resulting modified Fixed Recovery Charges.

Table 1 shows the revised assumptions for each of the variables used in calculating the Fixed Recovery Charges for Consumers. Exhibit 2 shows the revised payment schedule.

### Attachment 5 Form of Customer Credit Advice Letter to Match Fixed Recovery Charges

[Date]
--------

ADVICE -E

(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

**Subject:** Revision of Securitization Customer Credit to Match the Fixed Recovery Charge

#### **Purpose**

Pacific Gas and Electric Company (PG&E) hereby submits this advice filing in compliance with the requirement in Decision (D.) 20-XX-XXX which authorized PG&E to issue securitized bonds and established a dedicated rate component, the Fixed Recovery Charge (FRC), and the Customer Credit. This Advice adjusts the Customer Credit rate to match the FRC proposed in Advice XXXX-E.

#### **Background**

In D.20-XX-XXX, the Commission established the FRC to recover the costs associated with the securitized financing and an offsetting Customer Credit. PG&E has submitted Advice XXXX-E as a routine / non-routine Advice to revise the FRC rate to \$0.XXXXX per kWh. This filing revises the Customer Credit to

\$-0.XXXXX per kWh effective [Date] to offset the revised FRC rate.

This filing will not affect any other rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

#### **Protests**

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than [Date], which is 20 days after the date of this filing. Protests should be mailed to:

CPUC Energy Division ED Tariff Unit 505 Van Ness Avenue, 4<sup>th</sup> Floor San Francisco, California 94102

Facsimile: (415) 703-2200

E-mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

[Name]
Director, Regulatory Relations
c/o [Name]
Pacific Gas and Electric Company
77 Beale Street, Mail Code [Code]
P.O. Box 770000
San Francisco, California 94177

Facsimile: (415) 973-3582 E-mail: PGETariffs@pge.com

#### **Effective Date**

PG&E requests that this advice filing become effective on [Date]. As authorized in D.20-XX-XXX, PG&E submits this as a Tier 1 filing.

#### **Notice**

In accordance with General Order 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list. Address changes to the General Order 96-B service list and all electronic approvals should be directed to email PGETariffs@pge.com. Advice letter filings can also be accessed electronically at: http://www.pge.com/tariffs.

### Attachment 6 Form of Customer Credit Advice Letter for Revisions per Trust Balance

[Date]

ADVICE -E

(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

<u>Subject</u>: Revision of Securitization Customer Credit to Match the Balance Available in the Customer Credit Reserve Trust

#### **Purpose**

Pacific Gas and Electric Company (PG&E) hereby submits this advice filing in compliance with the requirement in Decision (D.) 20-XX-XXX which authorized PG&E to issue securitized bonds and established a dedicated rate component, the Fixed Recovery Charge (FRC), and the Customer Credit. This Advice adjusts the Customer Credit rate to reflect the balance remaining in the Customer Credit Reserve Trust.

#### **Background**

In D.20-XX-XXX, the Commission established the FRC to recover the costs associated with the securitized financing and the Customer Credit to offset in whole or in part the FRC. PG&E established the Customer Credit Reserve Trust to accumulate amounts to fund the Customer Credit. As shown in Attachment A, PG&E forecasts that the balance in the Reserve Customer Credit Trust is insufficient to maintain the Customer Credit rate equal to the current FRC. As provided in D.20-XX-XXX, this filing adjusts the Customer Credit to \$-0.XXXXXX per kWh which will utilize 90%. of the forecast balance in the Reserve Customer Credit Trust.

This filing will not affect any other rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

#### **Protests**

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than [Date], which is 20 days after the date of this filing. Protests should be mailed to:

CPUC Energy Division ED Tariff Unit 505 Van Ness Avenue, 4<sup>th</sup> Floor San Francisco, California 94102

Facsimile: (415) 703-2200

E-mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

[Name]
Director, Regulatory Relations
c/o [Name]
Pacific Gas and Electric Company
77 Beale Street, Mail Code [Code]
P.O. Box 770000
San Francisco, California 94177

Facsimile: (415) 973-3582 E-mail: PGETariffs@pge.com

#### **Effective Date**

PG&E requests that this advice filing become effective on **[Date]**. As authorized in D.20-XX-XXX, PG&E submits this as a Tier 1 filing.

#### **Notice**

In accordance with General Order 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list. Address changes to the General Order 96-B service list and all electronic approvals should be directed to email PGETariffs@pge.com.
