

**PACIFIC GAS AND ELECTRIC COMPANY
Wildfire Mitigation Plans Discovery 2022
Data Response**

PG&E Data Request No.:	CalAdvocates_004-Q09		
PG&E File Name:	WMP-Discovery2022_DR_CalAdvocates_004-Q09		
Request Date:	December 17, 2021	Requester DR No.:	CalAdvocates-PGE-2022WMP-04
Date Sent:	February 25, 2022	Requesting Party:	Public Advocates Office
PG&E Witness:		Requester:	Alan Wehrman

The following questions relate to your 2022 WMP Update submission.

If a full response to a given question will be included in your WMP submission, your response to that question of this data request may consist of a citation to the specific page(s) or table(s) of the WMP where the information may be found, a written response to the question, or both.

QUESTION 09

Provide PG&E's workplan that describes where and when you will perform system hardening on transmission circuits in 2022. Include the same information detailed in the preceding question.

ANSWER 09

Please see attachment "WMP-Discovery2022_DR_CalAdvocates_004-Q09Atch01.xlsx" and note that subpart F, covered conductor, does not apply to transmission lines. Some transmission lines may be listed more than once, typically for projects done in phases at different times. Wildfire risk scores provided were calculated based on annualized Operability Assessment probabilities multiplied by the Wildfire Consequence Model results. This data is a snapshot view from September 2021.

For transmission line projects forecasted in service beyond 2022, please note the following:

- Timelines are estimates subject to change based on portfolio prioritization, finalization of engineering, execution limitations (e.g., clearances, permitting, long lead materials, resource availability)
- Projects with limited conductor replacement that is incidental to a separate project drivers may not be included (e.g., replacing some conductor at the same time as a tower replacement)
- Mileage for these projects has not been included since many of these projects have not yet finished engineering and scoping activities.
