Wildfire Mitigation Plans Discovery 2023  
Data Response**

PG&E Data Request No.:	CalAdvocates_014-Q021		
PG&E File Name:	WMP-Discovery2023_DR_CalAdvocates_014-Q021		
Request Date:	April 11, 2023	Requester DR No.:	CalAdvocates-PGE-2023WMP-14
Date Sent:	April 17, 2023	Requesting Party:	Public Advocates Office
DRU Index #:		Requester:	Holly Wehrman

The following questions relate to your 2023-2025 WMP submission.

**QUESTION 021**

- a) During the period from 2020-2022, did PG&E replace any distribution conductor as part of its WMP activities for which PG&E had not fully recovered the original cost of the conductor? This may involve undergrounding a previously hardened line, or replacing a bare overhead line with covered conductor.
- b) If the answer to part (a) is yes, what was PG&E's practice regarding cost recovery on the unrecovered portion of the value associated with the replaced conductor?
- c) If the answer to part (a) is yes, please provide the number of circuit miles of such conductor that PG&E replaced.

**ANSWER 021**

- (a) – (c) We cannot provide the requested data. PG&E's asset registry and work execution systems are not set up to enable this cross-referenced data consolidation and we do not track the volume of assets replaced that have not been fully recovered.
