RATES: The term, take requirement,\*\* and rate are negotiable between PG&E and the Customer. (T)  
 Negotiated rates for transmission service shall not be less than PG&E's short-run marginal cost of providing the service. Negotiated transmission rates under G-NFTOFF will be capped at 120 percent of the tariffed rate for G-AFTOFF on a particular path, as follows: the negotiated rate (including all surcharges, costs and/or fees), converted to a volumetric-only rate at 100 percent load factor, shall be no greater than 120 percent of the G-AFTOFF tariffed rate (including all surcharges, costs and/or fees), converted to a volumetric-only rate at 100 percent load factor under the Modified Fixed Variable (MFV) rate structure.

At PG&E's sole option firm off-system capacity may be available here under at less than the rates in Schedule G-AFTOFF. At PG&E's sole option, negotiated offers satisfactory to PG&E may be accepted.

The Customer will be responsible for any applicable costs, taxes, and/or fees incurred by PG&E in taking delivery of third-party gas from Backbone or interstate sources. (T)

---

\*\* A take requirement (also known as a transport-or-pay requirement) is an obligation to pay for a specified quantity of transportation pursuant to the terms of the applicable GTSA exhibit and shall be unaffected by the quantity of gas transported by PG&E to the Customer's Delivery Point(s). (T)
