Date Sent:	March 3, 2021	Requesting Party:	Public Advocates Office
PG&E Witness:		Requester:	Henry Burton

The following questions related to PG&E's 2021 Wildfire Mitigation Plan (WMP) Update.

QUESTION 03

PG&E states that it aims to incorporate vegetation tags into its PSPS decision-making.¹
Is this data updated frequently enough to be actionable in real-time decision-making?

ANSWER 03

While PG&E's current infrastructure does not provide a means by which outstanding relevant vegetation tags are readily incorporated into the PSPS-scoping process, PG&E will build the systems and tools needed to streamline the availability of the relevant vegetation tag data to the team that is scoping PSPS events in a manner that can be integrated with the meteorological and other tools used to scope PSPS events.
