Date Sent:	March 3, 2021	Requesting Party:	Public Advocates Office
PG&E Witness:		Requester:	Henry Burton

The following questions related to PG&E's 2021 Wildfire Mitigation Plan (WMP) Update.

**QUESTION 07**

Is PG&E developing a methodology for quantifying the safety risks posed to the public by de-energization events? If so, please describe the status of this effort.

**ANSWER 07**

Yes, PG&E is developing a Future State of PSPS Consequence Model to quantify the customer impacts of PSPS de-energization events. The model will assess Safety, Reliability and Financial consequences using our MAVF framework. The effort is in the early stages of development as of March 1, 2021. See 2021 WMP at p. 49 and p. 970.
