PG&E Witness:		Requester:	Ryan Arba

SUBJECT: WMP - DATA REQUEST - DUE MARCH 17 2021 - PGE

QUESTION 08

Provide a list that ranks all wildfire risks or point to the list in the Wildfire Mitigation Plan.

ANSWER 08

PG&E understands the ranking of all wildfire risks to be the drivers of wildfire ignition events. The drivers of wildfire ignitions for PG&E's service territory are included in Figure PG&E-4.2-1 on page 55 of the 2021 WMP and in Figures PG&E-4.2-2 and PG&E-4.2-3 for distribution and transmission facilities in HFTD areas, respectively. Ignition drivers are discussed further on page 58 of the 2021 WMP. Additional historical drivers of ignitions can be seen in Table 7.1 and 7.2 in the Attachment 1 – All Data Tables Required by 2021 WMP Guidelines.
