**QUESTION 03**

Describe how each activity in Tables 8.3-1, 8.3-2, and 8.3-3 (pp. 906-911) is expected to affect the scale, scope, and frequency of PSPS. Provide quantitative values for the expected impact where practicable.

**ANSWER 03**

In the *Supplemental Filing Addressing Remedial Compliance Plan and First Quarterly Report Action (Supplemental Filing)* items, PG&E addresses how its WMP initiatives (including the ones on Tables 8.3-1, 8.3-2, and 8.3-3) are expected to affect the scale, scope, and frequency on PSPS, and provides further narrative on these effects on PSPS as part of responses to Actions 11-14 (Class B), Pg 11 – 30 in the Supplemental Filing, and in the Supplemental Filing attachment, ‘Supplemental Table 12’, (columns AL – AR).
