Request Date:	March 25, 2022	Requester DR No.:	CalAdvocates-PGE-2022WMP-18
Date Sent:	March 30, 2022	Requesting Party:	Public Advocates Office
PG&E Witness:		Requester:	Holly Wehrman

The following questions relate to your 2022 WMP Update submission.

QUESTION 05

As part of PG&E's response to Issue 5.4.B, PG&E included the following attachments to its 2022 WMP:

2022-02-25_PGE_2022_WMP-Update_R0_Section 4.6_Remedey 5.4.B_Atch02.xlsx

2022-02-25_PGE_2022_WMP-Update_R0_Section 4.6_Remedey 5.4.B_Atch03.xlsx

With regard to these spreadsheets:

- a. Please explain the difference between "Notification Date" (column I) and "Notif Create Date" (column J).
- b. Please explain the difference between "Req End Date" (column L) and "Authorized End Date" (column M).
- c. Please explain what is meant by "Notif Ref Date" (column O).

ANSWER 05

- a. "Notification Date" (column I) refers to the date the issue was identified in the field. "Notif Create Date" (column J) refers to the date the issue was entered as a tag in SAP, which is PG&E's data management system.
- b. "Req End Date" (column L) which stands for required end date is the date based upon compelling abnormal condition that may adversely impact public safety and/or service reliability or assigning a corrective-action due date. "Authorized End Date" (column M) is an adjustment of the "Req End Date" based on Field Safety Reassessments (FSRs), which are field safety checks of EC notifications that have been previously identified but will not be addressed before their due date/"Req End Date".
- c. "Notif Ref Date" is the notification reference date which refers to the notification date if the tag is open or the date the tags is completed or cancelled in the field if the tag is closed.
