SUBJECT: SITUATIONAL AWARENESS

QUESTION 012

Table ACI-PG&E-23-23-1 on page 112 of PG&E's 2025 WMP Update includes the following entry:

Station ID & Name	Work Center	Lat	Long	Last Calibration Date	Attempt Date	Number of Attempts	Reasons for Incomplete
PGE-1487 Skyway Road	Chico	39.77729	-121.60652	9/1/2022	7/4/2023	1	This site was destroyed in car accident on May 21, 2022 according to the Western Weather Group records. A new site is in process to replace the destroyed site.

- a) Explain why the last calibration date of this weather station was recorded as 9/1/2022, over three months after the site was destroyed on May 21, 2022.
- b) Provide any records of the calibration on 9/1/2022.
- c) When did PG&E become aware that the site had been destroyed?
- d) When does PG&E plan to replace the destroyed site?

ANSWER 012

- a) The September 1, 2022, date, was the scheduled due date for the calibration and recorded by erroneously due to a data pull error. The actual date for the last calibration was August 4, 2021.
- b) Please see response to subpart A. The September 1, 2022, date was recorded in error.
- c) PG&E first became aware of an issue with this weather station around June 6, 2022. PG&E was able to confirm the site had been destroyed during the 2022 scheduled calibration on July 29, 2022.
- d) PG&E is currently working on reinstalling this station.
