**QUESTION 003**

PG&E has less than the required number of personnel with required training for several categories in **Table 8-39: PG&E's Personnel Training Programs for Wildfire and PSPS Events**. Other tables related to staffing indicate if, for example, all staffing will complete training on time and reasons for not all being completed is the timing of table's required provision. Why are there less than required values of personnel not completing the training?

**ANSWER 003**

PG&E has a constant influx and outflow of new personnel in its Emergency Operations Center (EOC). As such, we are at various stages of training completion. In addition, different positions within the EOC require different levels of training. Some of the courses at the more advanced level are instructor led and offered quarterly. PG&E is increasing the number of instructors this year to be able to increase these offerings in 2024.
