

Electric Rate Advisory

EFFECTIVE OCTOBER 1, 2024

Important update about electric rates

Throughout the year, Pacific Gas & Electric Co. (PG&E) submits requests to the California Public Utilities Commission (CPUC) to increase our rates. On September 30, 2024, PG&E submitted Advice Letter 7382-E to increase rates on October 1, 2024. PG&E is implementing 2023 Wildfire Mitigation Catastrophic Events (WMCE) Interim Rate Relief (IRR), which was approved, in September 2024 by the CPUC, in Decision (D.) 24-09-003.

<p>PREVIOUS Residential Bundled Non-CARE Average Rate as of September 1, 2024: 43.38 cents per kilowatt-hour.</p>	<p>NEW Residential Bundled Non-CARE Average Rate as of October 1, 2024: 44.66 cents per kilowatt-hour.</p>

Estimated electric bill impacts effective October 1, 2024

	Previous As of 9/1/24 ¹	Increase (\$)	Increase (%)	Current As of 10/1/24 ¹
Average Non-CARE residential electric bill (500 kilowatt-hours)	\$206.01	\$6.43	3.1%	\$212.45
Average CARE residential electric bill (500 kilowatt-hours)	\$130.72	\$4.18	3.2%	\$134.91

Customers enrolled in the CARE program receive a discount of approximately 35% on their electric bill.

Why are rates increasing?

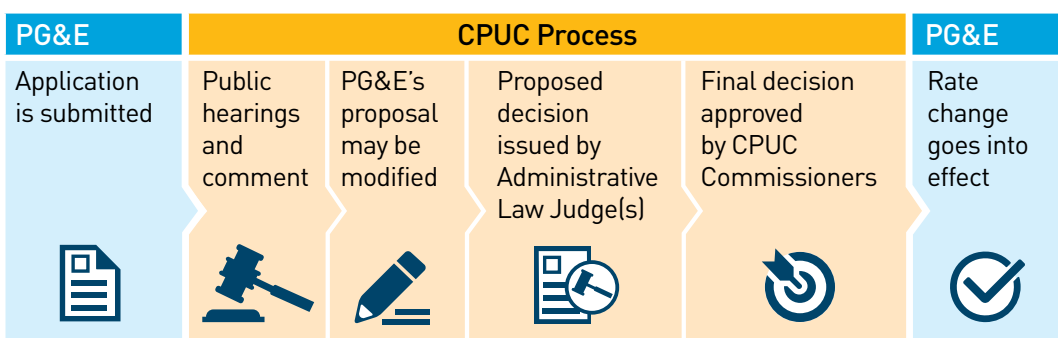

The primary driver of the increase is the recover costs associated with:

- Vegetation management
- Wildfire mitigation activities
- Long-term projects in response to catastrophic government-declared emergency events.

On September 16, 2024, the CPUC issued Decision D.24-09-003, approving recovery of these costs.

How are rates set?

Rates are set through a regulatory process with the CPUC. The process includes opportunities for the public to attend hearings and/or provide comment. A simplified diagram of the process is shown below.
