Date Sent:	June 13, 2024	Requesting Party:	Safety Policy Division
PG&E Witness:		Requester:	Henry Sweat

QUESTION 004

Discuss the reason for the changes.

ANSWER 004

Please see response to SPD_017-Q001. PG&E continues to observe its EPSS peak season and non-peak season wildfire risk enablement criteria according to risk conditions observed across its service area. Biannually, recommendations are presented by leaders across PG&E to an officer-in-charge for approval to transition to peak season wildfire risk enablement criteria or to non-peak wildfire risk enablement criteria depending on observed field conditions.
