**SUBJECT: IOU WMP COST TEMPLATE DATA REQUEST 9.0**

**QUESTION 001**

Please provide a copy of the example spreadsheet with data discussed and presented in the meeting of 8/26/2025 at 9am-10am between PG&E and CPUC/SPD with the agenda as follows:

- a. Provide and discuss additional example(s) in the WMP Cost Reporting Template with a goal of providing all mitigation initiatives by end of September (when Final Decision on WMP is expected).

**ANSWER 001**

PG&E includes the following attachment of the WMP Cost Reporting Template in draft version that we reviewed with SPD on August 26: Attachment "*WMP-Discovery2023-2025\_DR\_SPD\_020-Q001Atch01.xlsx*."

This file contains the sample initiatives discussed with SPD on August 5 (System Hardening Distribution and 10k Undergrounding) and the initiatives discussed on August 26 (HFTD/HFRA Open Tag Reduction – Transmission; HFTD/HFRA Open Tag Reduction – Distribution Backlog; and Eliminate HFTD HFRA Distribution Backlog).

The information provided is a sample of the level of detail PG&E proposes to provide in response to the template provided by SPD. We have referenced prior filings to populate this sample draft version; however, open questions remain as indicated in the template.

"*WMP-Discovery2023-2025\_DR\_SPD\_020-Q001Atch01.xlsx*" is the original template sent out by SPD and does not reflect any template changes discussed on August 26.
