

POSTING REQUIREMENTS FOR FERC STANDARDS OF CONDUCT
PACIFIC GAS AND ELECTRIC COMPANY

FERC Standards of Conduct, Section 358.7(a): If a transmission provider discloses non-public transmission function information, other than information identified in paragraph (a)(2) of this section, in a manner contrary to the requirements of § 358.6, the transmission provider must immediately post the information that was disclosed on its Internet website.

In preparation for a potential Public Safety Power Shutoff (PSPS) event that is forecasted to commence the morning of 07/20/2024, on 07/20/2024 Pacific Gas and Electric Company (PG&E) notified potentially affected customers that the transmission lines identified below may be de-energized during the PSPS event.

Transmission Lines that may be de-energized:

TESLA-STOCKTON COGEN JCT	115 kV
VASCO-HERDLYN	60 kV
US WINDPOWER TAP	60 kV
